#### 1. CEMENT

Huaxin is in the building materials industry, specifically, cement segment.

In 2021, overall Chinese economy trend continues to be stable with good momentum. GDP growth rate was 8.1%, ranking among the top among global economies. Although major macro statistics were within a reasonable range, the consumption relating to cement, such as fixed-asset investment, real estate investment, and infrastructure investment have weakened. Overall cement consumption demand is characterized by an easing trend during the year. For the whole year, total cement output was 2.363 billion tons, decreased by 1.2% as compared to that of 2020. Cement production costs increased drastically due to the dual control on energy consumption and intensity, the limit and restrictions on electricity and production, and the surge in coal price resulting in a rise of cement price was first down then up. Overall profit for the industry remained a relatively healthy level as compared with historic data. Total operating income in the cement industry was RMB1075.4 billion, increasing increased by 7.3% as compared to that of 2020. Total profit was RMB169.4 billion, decreasing by 10% as compared to that of 2020. (Source: National Statistics Bureau and Material Department of the Ministry of Industry and Information)

According to the statistics of China Cement Association Information Research Center, in 2021, cement clinker capacity utilization rate was 74%. Cement production overcapacity remained as a major issue in the cement industry. Issues of shrinking demand and highlighting the overcapacity problem. Backward production capacity phasing out slowly, the ratio of advanced production capacity being low, and production overcapacity are still urgent problems to be solved.

Dual control on the energy consumption and intensity is an important step to reach carbon peak and carbon neutrality, as well as a pivotal point to help achieve phasing out overcapacity and backward production capacity. Cement therefore is a focus of the dual control given its high energy consumption and high emission ("two high"). Since the second half of 2021, the National Development and Reform Commission and the relevant departments issued the "Plan for Improving the Dual Control on Energy Consumption Intensity and Total Volume" and "Several Opinions on Strengthening Energy Efficiency Constraints to Promote Energy Conservation and Carbon Reduction in Key Fields" to strictly control high energy consumption and high emission projects, and resolutely curb the reckless development of "two high" projects. The new version of "Energy Consumption Limits for Cement Product Per Unit" further enhances the energy consumption limit of cement products, coupled with the requirements of "Energy Efficiency Benchmark Level and Standard Level in Key Fields of High Energy-consuming Industries (2021 Edition)", the government will aim to bring the projects to up to the standards according to the comprehensive energy consumption in the kiln line. Projects below the standard level will either be upgraded and phased out within a time limit. The "Action Plan for Strict Energy Efficiency Constraints to Promote Energy Conservation and Carbon Reduction in Key Metallurgy and Building Materials Industries (2021-2025)" required that by 2025, through the implementation of energy conservation and carbon reduction actions, the industry's production capacity will exceed 30% of the benchmark level. With the continuous progress of the "dual carbon" strategy, the impact on the cement industry mainly includes: phasing out backward production capacity progressively; boosting the green development of energy conservation and carbon reduction in the industry; promoting industrial upgrading and transformation; urging cement enterprises to integrate along the industry value chain; stimulating the industry to increase investment in innovation; promoting the coordinated utilization, digitalization and deployment of new energy in the industry; increasing the use of alternative energy; promoting the research and development of carbon reduction technologies in the industry; and building a collaborative mechanism for carbon reduction in the industry.

According to the top 100 clinker production capacity list of Cement.com, by the end of 2021, the Company's total clinker production capacity ranked fourth in the PRC, of which domestic clinker production capacity ranked fifth in the PRC, and overseas clinker production capacity ranked second in the PRC.

#### 2. MAIN BUSINESS AND OPERATION MODEL OF THE COMPANY

#### (1) Main business of the Company

At the beginning of the listing on SSE, the Company engaged in manufacturing and sales of cement, cement technical services, research, manufacturing, installation and maintenance of cement equipment, as well as trading and import and export of cement. After over twenty years, through the vertical integration, eco business transformation, overseas development strategy and business expansion strategy in high-tech building materials, the Company has expanded its business to manufacturing and sales of ready-mixed concrete, aggregates, cement-based high-tech building materials, cement kiln co-processing of wastes, engineering, procurement and construction ("EPC") for cement projects in the PRC and overseas, equipment and project contracting regarding the cement kiln co-processing technology, gradually developing into a global building material group with full industry value chain integration and a global footprint.

The Company is one of the Top 500 Chinese Manufacturing Enterprises and Fortune China 500 List. By the end of 2021, the Company owned around 270 subsidiaries across 14 provinces and cities in China including Hubei, Hunan, Yunnan, Chongqing, Sichuan, Guizhou, Tibet, Henan, Guangdong, Shanghai, Jiangsu, Jiangxi, Shaanxi and Hainan, as well as in Tajikistan, Kyrgyzstan, Uzbekistan, Cambodia, Nepal, Tanzania, Zambia and Malawi, with total cement grinding capacity of 116 million tons/year (grinding capacity, including capacity in associates), cement equipment production capacity of 50,000 tons/year, ready-mixed concrete capacity of 43.80 million m³/year, aggregate capacity of 154 million tons/year, composite eco wall material capacity of 540 million units/year, aerated concrete product (brick, board) capacity of 850,000 m³/year, mortar capacity of 300,000 tons/year, UHPC capacity of 40,000 m³/year, civil building curtain wall slab production of 800,000 m²/year, industrial anti-corrosion tile production of 3 million m²/year, lime production of 690,000 tons/year, cement packaging bag production of 700 million bags/year, and wastes disposal capacity of 5.53 million tons/year (including CIPs).

In 2021, the revenue attributed by the cement business accounted for approximately 79% of the total income of the Company, while the share of non-cement business has been gradually improves.

#### (2) Operation model of the Company

**Management:** The Company has established a matrix and flat organization structure of "regional management + business operation + functional management", and by establishing a technology institute, it implements the Company's business portfolio strategy from two different directions, namely "regional management" (horizontal) and "business operation" (vertical), to form an efficient operation model that promotes and supports each other and achieves the Company's established goals.

**Production:** Production of the Company adopts a production organisation method based on sales volume. Subsidiaries formulate annual production and operation plan and organise the production based on the demand in their respective regions.

**Sales:** The Company implements a marketing model, which the headquarter of the Company leads and directly operates certain core areas, industrial parks and factory bases as units for operation and management, with equal emphasis on direct sales and distribution. With the pursuit of quality as the core, the Company strives to promote its brand and maintain its value so as to improve competitiveness in the market.

**Procurement:** The Company initiated the procurement strategy of "Unified Procurement + Online Procurement". Important raw materials and fuels are centralisedly procured by the headquarters collectively. The Company continues to develop and maintain direct supply of strategic resources. All the office supplies, IT consumables and some industrial products are procured under internal framework agreement or by external e-commerce channel. Raw materials, fuels, auxiliary materials and spare parts that are yet to be included in the scope of Unified Procurement and Online Procurement are procured through a standard and process-oriented bidding platform of the headquarters.

#### 3. COMPETITIVE STRENGTH DURING THE REPORTING PERIOD

Established in 1907, the Company has a long history and profound cultural heritage, and it is one of the top 100 large scale companies listed in "China's 500 Most Valuable Brands". By unswervingly taking efforts in management and technology innovation and scientific development, the Company has always been one of the most influential enterprises in the building materials industry with strong comprehensive competitiveness. Core competitiveness of the Company is reflected as follows:

#### (1) Advantages in scale operation and integral industry chain

Since its listing on SSE, through continuous mergers and acquisitions, the Company is now equipped with 116 million tons of cement capacity across 14 provinces and cities in China and in Tajikistan, Kyrgyzstan, Uzbekistan, Cambodia, Nepal, Tanzania, Zambia and Malawi. In the meantime, the Company advocates and fulfills the development concept of "Rational Competition, Industrial Integration and Environmental Transformation". Relying on the Company's major business of cement, the Company has steadily developed concrete, aggregates, eco wall materials, cement equipment and engineering, cement-based new building materials, and eco business relied on cement kiln co-processing, realizing vertically integrated development earlier than other companies and forming coordinated competitiveness in both upstream and downstream whole industry chain.

#### (2) Advantages in green and low-carbon development

Guided by the new development concept, the Company was the first in the industry to implement environmental transformation and development. Through extensive use of alternative fuels, green mining, improvement of the intelligence level of industrial system, and the pilot projects of co-generation and carbon reduction for integrated projects such as cement-aggregate-wall material, the Company has been a forerunner in carbon reduction practices to build competitive advantages. The Company was the first in the cement industry to release the white paper on carbon emission reduction under the "carbon peak and carbon neutrality" initiative from 2025 to 2060. The world's first "Auto Production Line of Cement Kiln CO2 Carbon Absorption to Produce Brick" jointly developed by the Company and Hunan University was successfully put into operation in Huaxin Wuxue Industrial Park. In the 2021, in the Energy Efficiency "Leader" selection event organized by the Ministry of Industry and Information Technology, the Company's Xinyang and Zhuzhou plants were selected and ranked first and second in the industry, respectively. The Company was the first amongst its to publish White Paper on Low-carbon Development, demonstrating its determination and confidence to be the avant-garde in carbon neutrality leadership.

As of the end of 2021, the Company's "Complete Technology of Efficient Ecological Utilization of Solid Wastes in Cement Kilns" with independent intellectual property rights were applied in 20 cement factories in 7 provinces and cities in China, and the environmental protection business covered 50% of cement kiln lines. The newly operated production line in Huangshi Factory with an annual production capacity of 10,000 tons has achieved a TSR of more than 40% at the peak, which is among the international leading level.

#### (3) Advantages in technology innovation

The Company has upheld the concept of "Development Driven by Innovation, Leading at the Front of the Industry". Starting from industry practical application and combining introduction and self-development, the Company has established a complete set of full-fledged technology innovation system and cultivated a strong and professional technology R&D team which maintains its leading place in technology innovation. The Company now has the overall contracting capacity in R&D, design, manufacturing, installation, commissioning and "turkey projects" of cement production facilities. It also has the capacity of exploring technology in cement kiln co-processing of wastes, as well as the capacity of commercially applying the relevant technologies in industrial production practices.

The Company was awarded the National Science and Technology Progress Award (Second Prize) (the first batch of units to finish the award) in 2009 and 2016. In 2021, the Company's technology of using alternative fuels to reduce clinker carbon emission was listed among the category of low carbon technology by the Ministry of Industry and Information. The development and application of low-carbon and nitrogen-reducing superscale cement production technology and equipment were recognized as world's leading level by the building materials association.

As at the end of 2021, the Company has registered 48 patents for invention derived from production practices and 81 patents of utility model.

#### (4) Advantages in trademark and brand

"Huaxin Castle" is a Chinese well-known trademark owned by the Company, and it is one of the oldest cement brands in China. The century-old trademark and brand are well-known and highly recognized in the industry.

In 2021, the Company was one of "China's 500 Most Valuable Brands" for seven consecutive years, ranking 80th with a brand value of RMB70.269 billion, increased by 17.4% as compared to that of 2020. Meanwhile, the Company had been listed among the Top 500 of Asian Brands for the sixth year in a row, ranking to the 167th in 2021. In addition, the Company was ranked the 306th in the Top 500 Chinese Manufacturing Enterprises and also won Top 100 Chinese Listed Enterprises Award in 2021.

#### (5) Advantages in product quality

The Company was selected as one of the national "Quality Model" enterprises. The Company was the first in cement industry that passed the certification of the GB/T19001—ISO9001 Quality Management System. All 15 types of cement products of the Company were in the roll of the first batch of national quality inspection-free products, and the quality of these products has been among the best in the national cement quality competition. The cement products of the Company have been used as building materials in construction of the national landmark buildings and key projects such as the Great Hall of the People, Wuhan Yangtze River Bridge, Beijing-Zhuhai Expressway, Qinghai-Tibet Railway, Three Gorges Project, winning widespread acclaim.

#### (6) Advantages in Strategic plan

The Company's production facilities in China are mainly located along the Yangtze River economic belt and key areas or hot spots in the western China where economy is vibrant and market demand can be guaranteed comparatively. Overseas plants are mainly set up in countries along the Belt and Road that have good relationships with China. The choice of plant location adheres to the principle of "guaranteed resources, convenient transportation and potential market growth". As for the layout of cement-based new material business and eco business of cement kiln co-processing, the Company fully considers the relevance, the coupling and the synergy with its main cement business. The Company's strategic advantages stem from the synergy from its business and market.

#### (7) Advantages in digital innovation

Through the implementation of the development strategy of "traditional industry + digital innovation", the Company focuses on the three intelligent closed loops of "industry, commerce and management". Based on energy management and data center, the Company continuously promotes the optimization of business operations and production management in 272 projects under 5 categories to support business transformation and development, thus enhancing its corporate competitiveness.

The Company has built an internal-to-external, upstream and downstream collaborative digital operation system. At the same time, unmanned industrial intelligent operation have been deployed in mining, cement production and logistics delivery. Relying on its integrated management and control platform for intelligent cement manufacturing, the Company was amongst the first batch of industrial internet enterprises in Hubei Province in 2021, and Huaxin Cement (Enshi) Co., Ltd. was amongst the second batch of cloud-based benchmark enterprises in Hubei Province.

By the end of 2021, the Company had implemented a total of 272 digital projects in 41 categories in its 33 subordinate industrial parks/bases/companies. Huaxin has built the first smart plant and opened the industry's first digital control center to provide monitoring and early warning, command and dispatch, and decision support for the Company's business operation.

#### (8) Advantages in professional, stable and efficient management team

Senior Management's leadership is the key to the Company's strategical success. Huaxin is equipped with a stable management team with advanced management concept and strong ability of learning and execution. Most of them have over 20 years of experience in the industry.

The Board of Directors presented the directors' report and the audited financial statements of the Group for the year ended 31 December 2021 set out on pages 89 to 282.

#### 1. INVESTMENT DURING THE REPORTING PERIOD

#### (1) Analysis of foreign equity investment

Unit: RMB

|                                     | Amount for     | Amount for same     |             |
|-------------------------------------|----------------|---------------------|-------------|
| Item                                | current period | period of last year | Changes (%) |
| Held-for-trading financial assets   | 711,964,323    | 1,004,581,752       | -29.13      |
| Other equity instrument investments | 55,867,066     | 33,774,995          | 65.41       |
| Other non-current financial assets  | 26,343,260     | 32,827,254          | -19.75      |

## (2) Changes in the scope of consolidation due to changes in the equity of major subsidiaries during the Reporting Period

On 14 January 2021, Huaxin entered into an equity transfer agreement with Yidu Baishui Port Industry and Trade Co., Ltd., to sell 100% equity of Huangshi Yidu Packaging Co., Ltd. in the consideration of RMB2,510,700, as a result of which Huangshi Yidu Packaging Co., Ltd. was no longer included in the scope of consolidation.

#### (3) Shareholdings in other listed companies and trading of shares in other listed companies

As of the end of the Reporting Period, the Company's shareholdings in other listed companies are as follows:

Unit: RMB

|            |                         |            | Shareholding |               |               | Gains or      |
|------------|-------------------------|------------|--------------|---------------|---------------|---------------|
|            |                         | Initial    | at the       | Shareholding  | Book value    | losses during |

#### 2. PROFIT DISTRIBUTION POLICY AND ITS IMPLEMENTATION

#### (1) The formulation and implementation of cash dividend policy

On 27 April 2021, the 2020 Annual General Meeting (the "AGM") approved the 2020 Profit Distribution Plan. On the basis 2,093,874,372 shares, being a total of 2,096,599,855 shares at the end of 2020 less 2,725,483 shares in the special repurchase account, equivalent to a cash dividend of RMB1.08 per share (tax inclusive) was distributed to all shareholders, representing 40.16% of the consolidated net profit attributable to the shareholders. The undistributed amount was retained as undistributed profit for distribution. No capitalizations of common reserve fund was made in the profit distribution plan for 2020. Shares in the special account for the share repurchase were not eligible for cash dividend.

On 10 June 2021, the Company published the 2020 Announcement on Distribution of Equity Holders. Based on the 2,094,949,878 shares outstanding (being total issued 2,096,599,855 shares at the end of 2020 less the 1,649,977 shares in the special account for the repurchase at the date of registration for dividend distribution), RMB2,262,545,868 was distributed to all shareholders, representing a cash dividend of RMB1.08 per share (tax inclusive).

The profit distribution plan was completed on 29 June 2021.

#### (2) Profit distribution plan for 2021

The net profit of the Company in 2021 amounted to RMB3,256,784,379, and the consolidated net profit attributable to the shareholders amounted to RMB5,363,525,692. The profits of the Company available for distribution was RMB8,364,839,311 as at 31 December 2021.

Based on the Company's total share capital of 2,096,599,855 shares less the shares kept in the repurchased securities account on the record date for the implementation of the profit distribution for year 2021, a cash dividend of RMB1.00 per share (tax inclusive) was proposed to be distributed to all shareholders (it was estimated cash dividends of RMB2,094,949,878 for distribution). The undistributed amount will be retained as undistributed profit for distribution. No capitalizations of common reserve fund is made in the profit distribution plan for 2021.

As at the date of this report, no shareholders waived or agreed to waive the dividend distribution plan for 2021.

The Company's shares held under the Company's repurchased securities account shall not be eligible for the cash dividend. The profit distribution plan is subject to approval at the 2021 AGM of the Company. The date of the Company's 2021 AGM and the relevant book closure arrangement, as well as the arrangement of book closure for the final dividend, will be announced in the Notice of the 2021 AGM which will be published in due course.

#### DIVIDENDS

The Board of Directors of the Company proposed to distribute a final dividend of RMB1 (tax inclusive) per share for 2021, subject to the approval at the Company's 2021 AGM. The above proposed final dividends are expected to be distributed to the shareholders of the Company before 20 July 2022.

#### 4. TAXES

Details of taxes are set out in Notes 19, 25, 42 and 54 in Note IV "Taxes" and V "Notes to Items in the Consolidated Financial Statements" of the financial statements prepared in accordance with the PRC Accounting Standards.

#### MAJOR CUSTOMERS AND SUPPLIERS

#### (1) Customers

Sales to the Top 5 customers amounted to approximately RMB909.09 million, representing approximately for 2.8% of the annual total sales for the year ended 31 December 2021. No related-party transaction was in the total Top 5 customers' sales, accounting for 0% of the annual total sales.

During the Reporting Period, the Company did not sell more than 50% of the annual total sales to a single client or rely heavily on a few customers. The following table shows the sales to the top 5 customers during the Reporting Period and their proportions in the annual total sales.

Unit: RMB10,000

|      |            |           | Percentage of the |
|------|------------|-----------|-------------------|
| Item | Customers  | Net sales | total sales (%)   |
| 1    | Customer A | 20,185    | 0.6               |
| 2    | Customer B | 19,444    | 0.6               |
| 3    | Customer C | 18,871    | 0.6               |
| 4    | Customer D | 18,698    | 0.6               |
| 5    | Customer E | 13,710    | 0.4               |

#### (2) Suppliers

Procurement from the Top 5 suppliers amounted to approximately RMB3,826.82 million, representing approximately 19.2% of the annual total purchases. No related-party transaction was in the total top 5 suppliers' purchases, accounting for 0% of the annual total purchases.

During the Reporting Period, the Company did not purchase more than 50% of the annual total purchases from a single supplier or rely heavily on a few suppliers. The following table shows the purchases of the top 5 suppliers during the Reporting Period and their proportions in the annual total purchases.

Unit: RMB10,000

|      |  |            |                 | Percentage of the   |  |  |
|------|--|------------|-----------------|---------------------|--|--|
| Item |  | Suppliers  | Purchase amount | total purchases (%) |  |  |
| 1    |  | Supplier A | 200,376         | 10.1                |  |  |
| 2    |  | Supplier B | 98,863          | 5.0                 |  |  |
| 3    |  | Supplier C | 31,602          | 1.6                 |  |  |
| 4    |  | Supplier D | 28,163          | 1.4                 |  |  |
| 5    |  | Supplier E | 23,678          | 1.2                 |  |  |

None of the Company's directors, supervisors or their respective close associates (as defined in the Hong Kong Listing Rules) or shareholders of the Company (who or which to the best knowledge of the directors of the Company) holding more than 5% of the Company's issued shares had any interest in the Company's top 5 customers or suppliers as at 31 December 2021.

#### 6. R&D EXPENSES

Unit: RMB

| R&D expenses calculated as expenses            | 71,401,459 |
|--|------------|
| R&D expenses calculated as capital expenditure | 8,342,714  |
| Total R&D expenses                             | 79,744,173 |
| % in operating income                          | 0.25       |
| % of capitalized R&D expenses                  | 1          |

#### 7. LAND LEASE, REAL ESTATE, FACTORY AND EQUIPMENT

Changes in land lease, real estate, factory and equipment of the Company for the year ended 31 December 2021 are set out in Note V (13) to the financial statements prepared in accordance with the PRC Accounting Standards.

#### 8. TOTAL ASSETS

The total assets of the Group as at 31 December 2021 determined in accordance with the PRC Accounting Standards were approximately RMB52.55 billion, representing an increase of approximately RMB8.621 billion as compared to that as at 31 December 2020.

#### 9. RESERVES

Changes in land lease, real estate, factory and equipment of the Company during this year as of 31 December 2021 are set out in Notes V (35) to (40) to the financial statements prepared in accordance with the PRC Accounting Standards.

#### 10. DEPOSITS, LOANS AND CAPITALIZED INTERESTS

Details of the Group's loans as at 31 December 2021 are set out in Note V (20), (27) and (28) to the financial statements prepared in accordance with the PRC Accounting Standards. The Group's depository banks as at 31 December 2021 were all commercial banks with good credit standing. The Group did not have any fixed time deposits that cannot be withdrawn due to maturity. During the Reporting Period, the capitalized interest of construction in progress was RMB30 million. Details are set out in Note V (14) to the financial statements prepared in accordance with the PRC Accounting Standards.

#### 11. EXCHANGE RATE RISK AND RELATED FINANCIAL INSTRUMENT HEDGING

The Group's exposure to foreign exchange risk is mainly related to US dollars. Except that several subsidiaries of the Group purchase and sell in US dollars, other major business activities of the Group are denominated and settled in RMB. The balance of other foreign currencies (mainly Hong Kong dollars, Euros and Rubles) is relatively small, so their impact on the foreign exchange risk of the Group is immaterial.

The Finance Department of the Group's headquarters is responsible for monitoring the Group's foreign currency transactions and the scale of foreign currency assets and liabilities, so as to minimize the foreign exchange risks it faces. The Group may avoid foreign exchange risks by signing forward foreign exchange contracts or currency swap contracts. In 2021, the Group did not sign any forward foreign exchange contracts or currency swap contracts.

#### 12. BUSINESS REVIEW, OUTLOOK AND MAIN RISK FACTORS

For the Group's business review, outlook for 2021 and main risk factors, please refer to the sections "III. Company Business" and "V. Management Discussion and Analysis on the Operations of the Company" of this report.

#### 13. SUFFICIENT PUBLIC FLOAT

Based on the public information obtained by the Company and to the best knowledge of the Directors of the Company, the Board of Directors confirmed that the Company maintained sufficient public float on the date of this report.

#### 14. COMPLIANCE WITH LAWS AND REGULATIONS

As a public company listed in the Mainland of China and Hong Kong, the Company formulates and continuously improves its rules and regulations in strict accordance with the *Company Law of the People's Republic of China, the Code of Corporate Governance for Listed Companies in China, Corporate Governance Code* and *Corporate Governance Report* as stipulated in Appendix 14 to *Hong Kong Listing Rules* and other applicable laws and regulations of domestic and overseas listing venues, as well as requirements of relevant documentation and the provisions of the articles of association of the Company to standardize the operation of the Company and continuously maintain and improve the Company's market image.

#### OVERVIEW OF OPERATION DEVELOPMENT

2021 marked the beginning of Fourteenth Five Year Plan, also the first year of Carbon Neutrality and Carbon Peak Initiative. Under the circumstances of overcapacity, overweight on low carbon, energy supply crunch and drastic fluctuation of supply and demand, the Group still anchored the established target of Doubling Performance in Five Years, adhered to green and low carbon development. During the Reporting Period, the Group further implemented the strategy of "Integrated Transformation Development, Overseas Expansion, High-tech Building Materials Expansion and Traditional Industry + Digital Innovation", contributing to the significant expansion of the non-cement business capacity. The Group adjusted the organization structure, thus accelerating the integrated transformation development; intensified efforts in compliance of resources, safety and environment, and strictly controlled the risks of asset, product quality, compliance and corruption to ensure the enterprise development; adhered to the business strategy of "stable price and quality, stable operation" to maintain the stability of business performance. In 2021, the Group has made breakthroughs in various aspects and achieved high quality, high speed and high efficiency development, revealing a good start for the Fourteenth Five Year Plan.

During the Reporting Period, the Company accelerated the strategic implementation of its non-cement business, aiming to transform the business with an integrated industrial chain of aggregates, concrete, wall materials, environmental protection business, packaging and equipment engineering from its core business - cement. In relation to the cement business, the acquired cement assets in Zambia and Malawi were successfully delivered during the year, increasing the capacity of cement by 1.75 million tons. The Company also completed the renovation of the cement grinding plant in Maveni, Tanzania during the Reporting Period. Moreover, after overcoming the difficulties, a cement and clinker production line with the capacity of 2,800 ton per day was officially put into operation in Narayani, Nepal on 8 January 2022. As to aggregate business, 12 aggregate production plants including Zhaotong, Chibi Phase II and Hefeng were put into operation; 10 aggregate projects are under construction, including the Yangxin 100 million tons machine-made sand project, proceeding steadily. After all the projects are put into operation, the aggregate production capacity is expected to reach 270 million tons per year, which will significantly enhance the Group's competitiveness. In addition, the concrete integration business is rapidly expanding, where 20 concrete integration sites such as Chibi, Chenzhou, Shuicheng, and Zhaotong were completed and put into operation, and Yueyang and Jingzhou grinding stations were upgraded to concrete integration stations. The Company firmly implemented the integration strategy along the Yangtze River and added two new sites based on the launch of Changzhou project, increasing the capacity of concrete production by 16.7 million cubic meters per year. Regarding the eco business, Shiyan domestic wastes disposal (phase II) was successfully expanded; Shannan household wastes (phase II), Chongqing Shuangqiao hazardous wastes, Shigatse hazardous wastes and other projects passed the environmental impact assessment and obtained approval. The Company also launched the alternative fuel project and completed standardized design in a short period, where 16 relevant projects passed the environmental impact assessment and obtained approval. More than 10 projects including Sangzhi, Diging, Dongchuan, and Fangxian are under civil engineering construction. In terms of the emerging business, the production lines of Zhuzhou eco bricks and Jianchuan eco bricks were put into operation, increasing the capacity of eco bricks by 180 million. The acquisition of the first aerated block brick/board plant in Hainan was successfully completed and the operation of Yunxian aerated block production line was put into operation, adding 850,000 cubic meters per year. Changyang ceramsite, Xiangyang lime and Wanyuan lime projects were put into operation, together increasing the capacity of lime by 390,000 tons per year. In terms of resource acquisition, the Company acquired 1.49 billion tons of lime and sand shale during the Reporting Period, and obtained mining licenses for a total of 3.6 billion tons of resource reserves.

The Company acknowledges it responsibilities on environmental protection, social responsibilities and are aware of the climate-related issues that may have impact on its business. The Company has established an ESG policies (the "ESG Policy") in accordance with the standards of Appendix 27 to the Hong Kong Listing Rules, which outlined, among others, (i) the appropriate risk governance on ESG matters, including climate-related risks and opportunities; (ii) identification of key stakeholders and the communication channels to engage with them; (iii) ESG governing structure, (iv) ESG strategy formation procedures; (v) ESG risk management and monitoring; and (vi) the identification of key performance indicators, the relevant measurements and mitigating measures. The ESG Policy also sets out the respective responsibility and authority of different parties in the above processes. The Board of the Company has the overall responsibility for overseeing and determining the Group's environmental-related, climate-related and social-related risks and opportunities impacting the Group, establishing and adopting the ESG Policy, strategies and targets of the Group, and reviewing the Group's performance annually against ESG-related targets and revising the ESG strategies as appropriate if significant variance from the target is identified. The Company will publish a separate environmental, social and governance report on the website of the SEHK (www. hkexnews.hk) and the Company's website (www.huaxincem.com) in accordance with the *Environmental*, *Social and Governance Reporting Guide* set out in Appendix 27 to the Hong Kong Listing Rules.

| Overseas  | 2,582,895,534  | 36.67           |  |
| Others    | 283,155,457    | 104.81          |  |
| Total     | 32,464,083,379 | 10.59           |  |

In 2021, operating income amounted to RMB32.464 billion, representing an increase of RMB3.108 billion or 10.59% as compared to that of the same period of the preceding year, of which the sales volume of cement and clinker amounted to 75.27 million tons, representing a decrease of 732,600 tons or 0.96% as compared to that of the same period of the preceding year, due to the impact from significant increase in steel prices and insufficient infrastructure construction. However, as the National Development and Reform Commission issued the Plan for Improving the System of Dual Control over Energy Consumption Intensity and Total Consumption, power rationing policy led to a significant increase in upstream coal prices, resulting in the rise of the average cement price by RMB12.00 per ton, representing a year-over-year increase of 3.62%, and the average clinker price increased by RMB29.97 per ton, representing a year-over-year increase of 10.60%, thereby the sales revenue of cement and clinker increased by RMB729 million. The sales volume of concrete increased by 4.4461 million cubic meters over to 9.05 million cubic meters, representing a year-over-year increase of 96.49%, which offset the influence of price decline by RMB57.2 per cubic meters or a year-over-year decrease of 14.02%. The revenue of concrete still soared to RMB1.296 billion. The sales of aggregate increased by 11.919 million tons to 34.97 million tons, representing a year-over-year increase of 51.71%, price of which also increased by RMB7.4 per ton, representing a year-over-year increase of 14.41%. The revenue of aggregate increased by RMB870 million.

Operating costs in 2021 increased by RMB3.357 billion as compared with the same period of the preceding year. Fuel and power costs for cement and clinker increased significantly due to the increase in coal prices, of which the unit costs of cement and clinker products increased by RMB25.72 per ton and RMB61.44 per ton, respectively, as compared with the same period of the preceding year. The sales volume of concrete and aggregate increased year over year, resulting an increase in operating costs by RMB1.461 billion and RMB229 million, respectively.

The increase in the cement and clinker price cannot fully offset the adverse impact of the increase of the cost and decline in the sales of cement. During the Reporting Period, the gross profit margin of cement decreased by 4.46% year-over-year.

Due to the decrease in the cement prices in Yunnan, Tibet, Chongqing and other western regions, the operating income dropped by more than 10% as compared to that of the same period of the preceding year. Due to the overseas acquisitions and equipment renovation, the overseas income increased by more than 35%.

#### Analysis of costs and expenses

Costs by products in 2021 and the changes as compared to 2020

Unit: RMB

|          |                               |                |                |                |                | Change over    |

| Clinker  | Raw materials                 | 90,614,072     | 6.9            | 80,070,006     | 8.9            | 13.2           |
|          | Fuel and power                | 849,282,754    | 64.6           | 555,480,364    | 61.5           | 52.9           |
|          | Depreciation and amortization | 94,608,433     | 7.2            | 68,380,556     | 7.6            | 38.4           |
|          | Labor and Others              | 279,601,524    | 21.3           | 198,696,612    | 22.0           | 40.7           |
| Concrete | Raw materials                 | 2,163,471,714  | 83.9           | 1,255,315,311  | 82.9           | 72.3           |
|          | Fuel and power                | 11,509,840     | 0.4            | 6,919,526      | 0.5            | 66.3           |
|          | Depreciation and amortization | 60,258,048     | 2.3            | 30,362,877     | 2.0            | 98.5           |
|          | Labor and Others              | 343,253,238    | 13.3           | 221,398,597    | 14.6           | 55.0           |
|          |                               |                |                |                |                |                |

Due to the significant increase in the coal costs, the fuel and power cost of cement and clinker increased by 5.2% and 3.1% in terms of proportion of costs, respectively, as compared to that of the same period of the preceding year.

Changes in major expense items prepared in accordance with the PRC Accounting Standards

Unit: RMB

| Items                               | 2021          | 2020          | Changes (%) |
|-------------------------------------|---------------|---------------|-------------|
| Selling and distribution expenses   | 1,331,208,970 | 1,427,678,136 | -6.76       |
| General and administrative expenses | 1,634,697,607 | 1,604,700,517 | 1.87        |
| Financial expenses                  | 170,259,608   | 305,705,509   | -44.31      |

Financial expenses decreased by 44.31% year-over-year, mainly attributable to the decrease in foreign exchange loss, and increase in interest income from deposits.

#### (3) Profitability

Unit: RMB

| Items  | 2021          | 2020          | Changes (%) |
|--|---------------|---------------|-------------|
| Operating profit                                       | 7,444,360,170 | 7,698,941,776 | -3.31%      |
| Gross profit before tax                                | 7,372,995,844 | 7,663,645,289 | -3.79%      |
| Net profit attributable to shareholders of the Company | 5,363,525,692 | 5,630,598,812 | -4.74%      |

As a result of the decrease in sales volume of cement and clinker, and increase in the fuel costs, the gross profit of cement and clinker decreased by RMB15 per ton. The Group recorded total profit of RMB7.373 billion, net profit attributable to shareholders of the Company of RMB5.364 billion, representing a decrease of 3.79% and 4.74%, respectively.

|---|------------------------------|--|------------------------|---|---|---|
| Accounts payable                            | 7,112,302,355                | 13.53  | 5,297,633,770          | 12.06   | 34.25   | Increase in procurement amount due to the expansion of the Company's operation scale                                      |
| Non-current liabilities due within one year | 1,213,650,184                | 2.31   | 1,874,484,159          | 4.27  | -35.25  | Corporate bonds due for payment   |
| Long-term borrowings                        | 5,081,924,506                | 9.67   | 3,504,279,973          | 7.98  | 45.02   | Increase in project loans   |
| Bonds payable                               | 3,327,860,620                | 6.33   | 1,943,763,447          | 4.42  | 71.21   | New issuance of corporate bonds of RMB1.3 billion   |
| Long-term payables                          | 463,257,160                  | 0.88   | 191,011,663            | 0.43  | 142.53  | Increase in installment payments for mining rights  |
| Long-term employee benefits payable         | 54,458,394                   | 0.10   | 127,205,104            | 0.29  | <b>-</b> 57.19  | Due to the upcoming grant of the long-term incentives, the amount of the incentive was transferred to current liabilities |
| Provisions                                  | 347,473,462                  | 0.66   | 233,393,286            | 0.53  | 48.88   | Increase in environmental restoration and management fees for mines   |
| Deferred tax liabilities                    | 572,865,342                  | 1.09   | 284,920,603            | 0.65  | 101.06  | Increase in deferred tax<br>liabilities due to the<br>increase in the valuation<br>on M&A in Africa                       |

Among the above, overseas assets amounted to RMB6,569,672,736, representing approximately 12.5% of the Company's total assets.

#### Breakdown of major assets as at the end of the Reporting Period

|  | RM |  |
|--|----|--|
|  |    |  |

| Cash and bank balances     |  | 285,964,244 |
|----------------------------|--|-------------|
| Notes receivable           |  | 23,000,000  |
| Financing with receivables |  | 236,214,382 |
| Fixed assets               |  | 5,413,440   |
| Intangible assets          |  | 11,088,579  |

Note: The equity of some subsidiaries of the Company was pledged to banks to obtain long-term loans. The total balance of the net book values of such equity was RMB5,080,267,607.

#### Liquidity and funding sources

An analysis of the Company's bank loans and their interest maturities as at the end of the Reporting Period is as follows:

Unit: RMB

| Items         | Closing balance | Opening balance |
|---------------|-----------------|-----------------|
| Within 1 year | 1,493,826,837   | 1,149,266,910   |
| 1–2 years     | 1,899,342,560   | 481,909,403     |
| 2–5 years     | 3,074,885,639   | 2,359,921,562   |
| Over 5 years  | 107,696,307     | 662,449,008     |
| Total         | 6,575,751,343   | 4,653,546,883   |

As at the end of the Reporting Period, the accumulative balance of bank loans and interest of the Company amounted to RMB6.576 billion, representing an increase of RMB1.922 billion from the beginning of the year, which was mainly due to the new borrowings used for project construction during the Reporting Period.

In addition to the above borrowings, the Company had RMB3.2 billion of corporate bonds due within 2–5 years as at the end of the Reporting Period.

#### Analysis of cash flow

Unit: RMB

| Items                                   | Amount for 2021 | Amount for 2020 | Changes (%) |
|---|-----------------|-----------------|-------------|
| Net cash flow from operating activities | 7,594,957,122   | 8,405,472,760   | -9.64       |
| Net cash flow from investing activities | -6,794,063,625  | -5,008,041,912  | -35.66      |
| Net cash flow from financing activities | -632,252,873    | 187,685,399     | -436.87     |

Note: The net cash flow from investing activities decreased by 35.66% as compared to that of the same period of the preceding year, primarily due to the increase in investment in aggregate and concrete projects and continuous investment in the projects under construction.

The net cash flow from financing activities decreased by 436.87% as compared to that of the same period of the preceding year, primarily due to settlement of maturing corporate bonds.

#### 3. OUTLOOK FOR 2022

#### (1) Industrial pattern and trend of development

The year 2022 is a critical year connecting to the first year and initiating the second year of "Fourteenth Five Year Plan". While the Chinese economy will be maintained at a reasonable range to maintain social stability, and that the government fully implements "3060" carbon peak, carbon neutrality, the cement industry in China will face both opportunities and challenges in 2022, under the backdrop of current social and economic stability, and the PRC government's goal to achieve carbon peak by 2030 and carbon neutrality by 2060, and the industry outlooks are as follows:

Differentiating demand of cement in different regions and overall demand is being stable. As Chinese economy faces mounting pressure, it is stated in the PRC central government economic working conference that the directive is to maintain a stable economy in 2022 with appropriate timing of policies stimulus. The central government proposes infrastructure investment in certain regional development supported by accelerating the issuance special bonds. For real estate, the central government continues to stabilize land price, housing price and manage expectation, promoting construction of affordable housing, driving a virtuous circle and healthy development of the real estate industry under policies aligning with local conditions. Demand for cement in 2022 is expected to vary by regions, while demand for cement in economic active regions continuous urbanization will remain steady.

"Capacity reduction" remaining the key note in the industry. Decrease in demand highlighted the issue of overcapacity in the cement industry. Cement industry is still the key industry of supply side structure reform. As the "plan continue to dual carbon" plan continue to advances, low carbon expectation is expected to be high, thus normalization of off-peak production, electricity limit and dual control on energy consumption and intensity will be the major means to reduce supply and effectively solve and phase out overcapacity. In addition, strict control on high consumption and high intensity projects including cement project will facilitate the merger and acquisition of the industry, further optimizing the industry structure.

Energy conservation, carbon reduction, industry chain expansion becoming the new battlefield for industry competition. Dual carbon, dual control on consumption and intensity will accelerate the industry development and transformation in "green, intelligent and digital". The leading enterprises of cement industry will keep expanding the industry chain, increasing technology investment, stimulating synergy, and developing in digital and new energy to improve energy efficiency and utilization of resources; whereas the backward cement production capacity which are not up to standard will be phased out.

Cement price under pressure and cost rising, stabilizing industry performance being more difficult. With the market-oriented reform on grid electricity price of coal-fired power generation, the coal price recent surge has resulted in an increase in electricity cost for cement industry. Compiled with the rising standards in energy consumption, safety, environmental protection, transportation and quarry remediation are intensified, cement enterprises need to invest more in technology enhancement for compliance, leading to the rise of production cost. Against the backdrop of overcapacity, the only way to maintain demand supply equilibrium is to step up efforts in off-peak production, as well as eco-friendly and output limit. Otherwise, cement price will face mounting pressure and fluctuation will be aggravated.

#### (2) Development strategy of the Company

2022 is the turning point for the double performance plan of the Group. The Group will promote the corporate culture of "trust, dedication, pragmatism, innovation," and adhere to the values of "safety first, customer centric, result orientated, act with integrity, ensure sustainable growth and people oriented" to pursue the vision of "Beautiful world starts with us". Following the mission of "Clean our living environment, supply reliable building materials", the Company will strive to implement and deepen four strategies of "integrated transformation, overseas development, expansion to high tech building material, traditional industry + digitization". Leveraging the stable operation of domestic cement business, the Company will accelerate the strategic integration development of aggregate, wall material, concrete and expand the eco business of hazardous wastes treatment, as well as accelerate its overseas business and gain breakthroughs in its new materials business.

#### (3) Business plan

Completion of the 2021 business plan: In 2021, the Company achieved operating income of RMB32.464 billion, achieving 88.73% of the annual budget, among which revenue of cement and clinker achieved 92.59% of the budget; concrete sales revenue achieved 66.11% of the budget; aggregate sales revenue achieved 83.23% of the budget; and the eco business sales revenue achieved 85.07% of the budget. In 2021, the actual budget achievement rate on the overall investment was 49.36%. By the end of 2021, total assets of the Company was RMB52.5 billion, and the asset-liability ratio was 44.1%.

The Company will advance four strategies across the Board in order to improve the Company's performance in 2022:

- (1) Adhere to the lifeline of "safety and environmental protection", and establish a benchmark for clean and civilized production in the industry. Implement health and safety improvement plans, carry out on-site safety audits, and build dual prevention mechanisms in all plants to meet the requirements of the new requirements of the Safety Production Law; carry out environmental audits in a targeted manner, establish a model for ultralow emissions based on proprietary technologies, and is used for internal promotion.
- (2) Continue to strengthen compliance supervision to guard against and eliminate potential business risks. Organize production in strict accordance with national product quality standards to ensure 100% qualified products; promote plants to obtain mining resources at a reasonable price; introduce digitalization to speed up the intelligent management of legal affairs and prevent legal risks in operation; further promote the creation of "clean and honest Huaxin" activities, to create a clean and upright corporate culture.
- (3) Constantly launch marketing innovation to promote integration development. Expand market along Yangtze River, increase customers layout; optimize the brand system to ensure unified and standard brand; fully utilize digital advantages to extend intelligent marketing to aggregate, concrete and logistics.
- (4) Optimize energy consumption indicators through AFR collaborative utilization, and continue to reduce procurement costs by means of centralized procurement and unified procurement. Increase the proportion of alternative fuel synergy utilization, and the company's overall TSR is expected to reach more than 10% in 2022. Continue to implement cost benchmarking, formulate targeted cost savings plans with the best practice sharing; expand the scope of centralized procurement in the central and western regions, continue to seek for cooperation, and purchase high-quality coal resources for overseas plants.

- (5) Unswervingly push for the integrated development of the industry chain. With cement as the core business, promote the integration of the industrial chain of aggregate, concrete, wall materials, eco disposal, packaging, and equipment engineering.
- (6) Promote the implementation of industrial intelligent products, continue to improve and enhance the industrial intelligence level of plants; realize the upgrade of business systems such as marketing, procurement, and logistics; further refine monitoring indicators and monitor and analyze early warning conditions.

The above business strategies do not constitute the Company's performance commitment to investors. Investors should maintain sufficient risk awareness and understand the difference between business plans and performance commitments.

#### (4) Potential risks

Risks relating to safe production and compliant operation of low carbon. The Company's production operations span across quarry exploitation, cement and cement product production, hazardous waste, household garbage, sludge disposal and other businesses. With stricter requirements for enterprise safety production and environmental protection discharge, any safety and eco accidents will cause damages to the Company's reputation and property, and adversely affect the Company's operations. Additionally, against the backdrop of "carbon reduction", the quota for energy consumption will be more stringent. As the key industry of dual control, cement plants that fail to reach the standard will be deemed as backward production capacity and be phased out.

Risk relating to overcapacity domestically and price pressure which may result to downward performance. Cement demand is highly relevant to national economic development and fixed asset investment and is cyclical. China is accelerating to construct a new development landscape, intensifying control on the real estate, coupled with price rise of bulk raw material and fuel, cement demand of China is likely to weaken. Unless the overcapacity issue improves, the competition in the market will continue to intensify and price will be under pressure.

Risk relating to surging production cost. Fuel is the largest cost component in cement production. Demand and policy fuelled the rising coal and power price in 2021. With the goal of carbon peak and carbon neutrality, requirements of energy consumption, safety, environmental protection, transportation overload and quarry treatment requirements are becoming more important. Therefore, enterprises need to invest more in technology upgrade, leading to an increase in costs. In addition, the cost of obtaining quarry right is surging as well.

Risk relating to overseas operation. Overseas development is one of the four strategies of Huaxin. Different countries have various political, economic, social and religious environment as well as legal systems. Staff retention, the epidemic, fluctuating foreign exchange, trade conflict and other uncertainties will pose challenges to the international operation.

To respond to the above risks, the Company shows the sense of responsibility of a large enterprise to actively implement national policies and measures such as "carbon reduction", "dual control of energy consumption and intensity", and local government off-peak production to promote the healthy development of the industry. Apart from that, Huaxin adheres to "innovation, compliance operation, integrated development" to enhance the competitiveness of enterprises. It also adheres to the concept of "safe and environmental discharge as the lifeline of production", increase investment in safe and environmental protection to further eliminate/prevent potential environmental risks. By adhering to the customer-centric concept, innovating products, focusing on differentiated competition strategies, and building a digital marketing ecosystem, Huaxin tries to create differentiated advantages. Huaxin also optimizes energy consumption indicators through AFR collaborative utilization, and continue to reduce procurement costs by means of centralized procurement and unified procurement. Through technological transformation and digital technology innovation, we will build a highly intelligent "unmanned plant" to improve operational efficiency and reduce production costs. Strengthen the cultivation and introduction of compound talents to provide a strong guarantee for "going global".

#### 1. COMMITMENTS

There were no commitments made by the de facto controllers, shareholders, related parties, purchasers and the Company during the Reporting Period or continuing to the Reporting Period.

#### APPROPRIATION OF THE COMPANY'S FUNDS FOR NON-OPERATING PURPOSE

During the Reporting Period, the Company's controlling shareholder and its related parties did not appropriate the Company's funds for non-operational purposes. The detailed statement issued by Deloitte Touche Tohmatsu Certified Public Accountants LLP will be disclosed on the websites of the SSE, SEHK and the Company on the same day as this report is issued.

### 3. ANALYSIS AND EXPLANATION OF THE REASONS AND EFFECTS OF CHANGES IN ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES

During the Reporting Period, changes in the Company's accounting policies are set out in Note III (33) to the financial statements prepared in accordance with the PRC Accounting Standards.

#### 4. AUDITORS AND REMUNERATION

Current

Name of PRC auditors Deloitte Touche Tohmatsu Certified Public Accountants LLP

Remuneration of domestic CPA RMB4,202,500

Year of auditing by domestic CPA

During the Reporting Period, Deloitte Touche Tohmatsu Certified Public Accountants LLP, Deloitte Management Consulting (Shanghai) Co., Ltd. and Deloitte Consulting (Shanghai) Co., Ltd. provided audit services of RMB3,363,215 and other non-audit services of RMB3,042,110 due to the Company's listing on the SEHK.

Name Remuneration
Internal control auditor Deloitte Touche Tohmatsu Certified Public RMB500,200

Accountants LLP

During the Reporting Period, the Company did not change or dismiss its auditors, and paid RMB2,455,681 to external auditors for their audit services.

#### 5. INSOLVENCY OR RESTRUCTURING

During the Reporting Period, the Group did not experience insolvency or restructuring.

#### 6. MATERIAL LITIGATIONS AND ARBITRATIONS

During the Reporting Period, the Company was not involved in any litigation or arbitration that had been disclosed in the extraordinary announcements but had no further progress.

The table below sets out the litigations and arbitrations that were not disclosed in extraordinary announcements or that had further progress:

Unit: RMB10,000

| Plaintiff/ Applicant                         | Defendant/<br>Respondent   | Туре         | Basic information  | Amount        | Estimated amount of contingent liability | Progress   | Consequence and impact   | Enforcement  |
|--|--|--------------|--|---------------|--|--|--|--|
| Huaxin Concrete<br>(Xiangyang) Co., Ltd.     | Xiangyang Jianshan<br>Technology<br>Co., Ltd.,<br>Xiangyang<br>Xingshida<br>Plastics<br>Company, Liu<br>Jianshan | Civil action | The Defendant borrowed money from the Plaintiff many times, but by June 2015, it still owed RMB24,773,900 and failed to repay. Thus, the Plaintiff filed a lawsuit in July 2015. | 2,477.39      | Nil                                      | On 31 May 2021, the Xiangyang<br>Intermediate People's Court<br>made a final ruling.   | The Defendant paid<br>RMB24.7739<br>million to the<br>Plaintiff. | In July 2021, the<br>Company<br>applied to the<br>People's Court<br>of Xiangyang<br>High-tech Zone<br>for compulsory<br>execution. |
| Moncement Building Materials LLC             | Huaxin Cement Co.,<br>Ltd.   | Arbitration  | See Note 1 for details   | USD35,724,600 | Nil                                      | The ICC will hear the case on 27 March 2023.   |  |  |
| The People's Government<br>of Fengjie County | Huaxin Cement Co.,<br>Ltd., Huaxin<br>Environmental<br>Engineering<br>(Fengjie) Co.,<br>Ltd.                     | Civil action | See Note 2 for details   | 5,945.58      | Nil                                      | On 6 February 2022, the Tieshan<br>District People's Court ruled<br>that the case should be<br>settled as the Plaintiff's<br>withdrawal of prosecution.  |  |  |
| Huaxin Cement Co., Ltd.                      | The People's Government of Fengjie County  | Civil action | See Note 2 for details   | 1,227.34      | Nil                                      | The Tieshan District People's Court made a first-instance judgment on 12 November 2021, ruling that the Defendant should pay the Plaintiff a waste disposal fee of RIMB12,184,699.75 and corresponding interest within 15 days from the date this judgment takes effect. The Defendant refused to accept the first-instance judgment and filled an appeal, which was accepted by the Huangshi Intermediate People's Court but has not yet heard. |  |  |

Note 1: The applicant and the defendant signed an EPC contract on 19 July 2013. Both parties signed the Temporary Acceptance Certificate on 20 September 2017, and the project acceptance was completed. In January 2018, the consulting company employed by the applicant issued a technical opinion, stating that the defendant had errors in design, material selection and construction, and issued a defect notice to the defendant. The defendant responded positively, explained the problems proposed by the applicant and submitted the corresponding supporting materials, and asked the applicant to pay the balance (5% of the total contract value), but the applicant refused to reply. On 30 July 2020, the applicant applied to the ICC for arbitration. On 21 October 2020, the Company submitted its defence and counterclaims to the ICC Secretariat, requiring the applicant to pay the contract balance and interest.

Note 2: In August 2012, the defendant and the plaintiff signed the *Cooperation Agreement on Disposal of Municipal Solid Wastes in Fengjie County*, which stipulated that the defendant would invest in an ecological factory for the harmless disposal of municipal solid wastes in Fengjie County and that the plaintiff should pay the waste disposal fees as agreed. The cooperation period is 30 years. In March 2014, the ecological factory built by the defendant in Fengjie was put into operation. Due to policy implementation and other reasons, the transportation of RDF formed after the harmless disposal of municipal solid wastes by the defendant was hindered several times. Since September 2018, the plaintiff transported the RDF to the surrounding districts and counties for final disposal by other companies, and refused to pay the defendant waste disposal fees.

On 27 July 2020, the defendant counterclaimed the plaintiff in the People's Court of Tieshan District, Huangshi City, requiring it to pay a waste disposal fee of RMB12,273,372.75, compensation for loss of interest, and all legal costs of the case.

On 9 February 2021, the plaintiff required the defendant to pay related expenses of RMB59,455,841.66 on the grounds that municipal solid wastes in Fengile County were transported to surrounding counties for disposal.

# 7. PUNISHMENT ON DIRECTORS, SUPERVISORS, SENIOR MANAGEMENT, CONTROLLING SHAREHOLDER, AND DE FACTO CONTROLLERS OF THE COMPANY AND THE RECTIFICATION

During the Reporting Period, Chen Bing, former vice president of the Company, was investigated by the Supervisory Committee of Xisaishan District in Huangshi City, and he was detained since 3:00 p.m. on 9 September 2021.

Chen Bing submitted a written resignation letter to the Board of Directors on 10 September 2021, applying to resign as vice president of the Company. His resignation took effect from the date the letter was served to the Board of Directors.

### 8. THE INTEGRITY OF THE COMPANY, ITS CONTROLLING SHAREHOLDERS AND DE FACTO CONTROLLERS

During the Reporting Period, none of the Company, its controlling shareholders and de facto controllers failed to perform the effective judgment of the court, nor did there exist any large amount of outstanding debts.

#### MATERIAL RELATED PARTY TRANSACTIONS

#### Related party transactions related to day-to-day operations or continuing related party transactions

On 11 June 2021, Huaxin (Hainan) Investment Co., Ltd., a subsidiary of the Company, entered into an agreement to acquire 24.9% and 50.1% (75% in total) of CHILANGA Cement Plc held by Financière Lafarge SAS and its whollyowned subsidiary Pan African Cement respectively, and 100% of Portland Cement (MALAWI) Limited held by Pan African Cement. Both Financière Lafarge SAS and Pan African Cement are subsidiaries of Holcim Limited, the controlling shareholder of the Group.

On 30 November 2021, the Group acquired 75% of equity interest held by Financière Lafarge SAS and Pan African Cement in CHILANGA Cement Plc at a consideration of RMB720,353,664. On 23 December 2021, the Group acquired 100% of equity interest held by Financière Lafarge SAS and Pan African Cement in Portland Cement (MALAWI) Limited at a consideration of RMB68,647,360. For details, see Note VI (1) and Note X (5) of the financial statements prepared in accordance with the PRC Accounting Standards. The total amount of guarantees provided by the Company to subsidiaries was RMB1.99 billion. As of the end of the Reporting Period, the balance of the Company's external guarantees was RMB7.04 billion, accounting for 26.32% of the Company's net assets at the end of the Reporting Period. The details are as follows:

|   | Unit: RMB     |
|---|---------------|
| The Company's external guarantees (excluding guarantees for subsidiaries)                         |               |
| Total guarantee amount during the Reporting Period (excluding guarantee for subsidiaries)         | 0             |
| Guarantee amount left at the end of the Reporting Period (A) (excluding guarantee for             |               |
| subsidiaries)   | 0             |
| Guarantee provided by the Company or subsidiaries for its subsidiaries                            |               |
| Total guarantee amount for subsidiaries occurred during the Reporting Period                      | 1,989,582,141 |
| Guarantee amount left at the end of the Reporting Period (B)                                      | 7,036,507,634 |
| Total guarantee amount (including guarantee for subsidiaries)                                     |               |
| Total guarantee amount (A+B)  | 7,036,507,634 |
| Proportion in net assets of the Company (%)   | 26.32         |
| Including   |               |
| Guarantee amount provided for the Company's shareholders, de facto controller and its             |               |
| related parties (C)   | 0             |
| Debt guarantee amount provided directly or indirectly for subjects whose asset-liability ratio is |               |
| over 70% (D)  | 3,466,757,110 |
| Guarantee amount in excess of 50% of the net assets (E)   | 0             |
| Total guarantee amount of the above three (C+D+E)   | 3,466,757,110 |
|   |               |

#### 11. FINANCIAL ENTRUSTMENT AND LOAN ENTRUSTMENT

In light of the Company's daily find arrangements and utilized fund situation and to ensure efficient use of unutilised funds, the Company utilised part of its own funds for financial entrustment after comprehensive consideration of security and return rate. Particulars of the financial entrustments conducted and subsisting during the Reporting Period are as follows:

Unit: RMB100 million

|                   | Accumulated amount for the | Accumulated amount for the year (redeemed |              | Unredeemed     |
|-------------------|----------------------------|---|--------------|----------------|
| Investment type   | year (buy in)              | or due)                                   | Undue amount | amount but due |
| RMB monetary fund | 20                         | 23  | 7            | <u>-</u>       |

### **IMPORTANT MATTERS**

#### 12. SIGNIFICANT EVENTS

#### (1) Construction Project of Huangshi Huaxin Green Building Materials Industrial Park

On 28 January 2021, the Company adopted the *Proposal on the Construction of Huangshi Huaxin Green Building Materials Industrial Park* at the first extraordinary general meeting in 2021. Huangshi Huaxin Green Building Materials Industrial Park was invested by Huangshi Huaxin Green Building Materials Industry Co., Ltd. (the Company held 58.26% of its shareholding) which would invest about RMB10 billion to build an active calcium and deep-processing product production line with an annual output of 2 million tons, a machine-made sand production line with an annual output of 100 million tons, and a wall material production line with an annual output of 2 billion pieces.

During the Reporting Period, the phase 1 of the project (40 million tons/year machine-made sand production line) of the machine-made sand production line with an annual output of 100 million tons commenced according to the construction schedule, and was expected to be put into operation in mid-2022.

### (2) Change in the listing venue for domestic listed foreign shares and the listing and trading on the Main Board of the SEHK by way of introduction

The Company adopted the Proposal on Changing Listing Venue for Domestic Listed Foreign Shares and the Listing and Trading on the Main Board of The Stock Exchange of Hong Kong Limited by Way of Introduction at the fifth extraordinary general meeting on 13 September 2021.

The Company received the letters of approval from the CSRC on 27 December 2021 and the Listing Committee of the SEHK on 25 February 2022, respectively. The Company's H Shares were listed on the Main Board of the SEHK on 28 March 2022.

#### (3) Public issuance of corporate bonds in 2021

On 27 May 2021, the Company reviewed and approved the *Proposal on the Public Issuance of Corporate Bonds in 2021* at the second extraordinary general meeting in 2021. The Company decided to issue corporate bonds of no more than RMB2.2 billion with a term of no more than 7 years to professional investors (the bonds may be issued in installments depending on market conditions).

The issuance of the first tranche was completed on 25 August 2021, with an amount of RMB1.3 billion and a coupon rate of 3.26%.

Except for the above-mentioned events or those disclosed in this report, there was no event that had a significant impact on the Group at the end of the Reporting Period and up to the date of this report.

#### TOTAL NUMBER AND STRUCTURE OF SHARES

In 2021, the total number and structure of the Company's shares remained unchanged.

As approved by the CSRC and the SEHK, the Company's domestically listed foreign shares were listed and traded on the Main Board of the SEHK by way of introduction on 28 March 2022.

After the above-mentioned foreign shares were listed and traded on the Main Board of the SEHK, the Company has 2,096,599,855 ordinary shares, comprising of 1,361,879,855 A Shares, representing 64.96% of the total issued share capital, and 734,720,000 H Shares, representing 35.04% of the total issued share capital.

#### 2. SHAREHOLDERS

#### 9. STAFF HOUSING

According to the relevant regulations of the PRC government, the Group shall pay contributions of the housing provident fund based on a certain percentage of employees' salaries. Saved for the above, the Group has no other accommodation related liabilities. For the year ended 31 December 2021, the total amount of housing provident fund paid by the Group was about RMB160 million.

#### 10. TRAINING PLAN

In 2021, overcoming the impact of the COVID-19 epidemic, the Company carried out diversified and differentiated training for different levels and types of employees, such as management, technology, procurement, finance, security, and internal trainers, through both online and offline methods, promoting the learning atmosphere in the Group, and continuously improving the Company's core competitiveness.

#### 11. LABOR OUTSOURCING

Unit: RMB

Total payment for labor outsourcing

58,408,572

#### 12. EMPLOYEE STOCK OWNERSHIP PLAN OR OTHER EMPLOYEE INCENTIVE MEASURES

The Company formulated the 2020–2022 Core Employee Stock Ownership Plan, which was reviewed and approved by the Company's second extraordinary general meeting in 2020 on 25 September 2020 in order to promote the Company's "milestone" development strategic plan for 2020–2025, establish and improve the benefit sharing mechanism between employees and shareholders.

The employee stock ownership plan includes Plan A and Plan B. Plan A is a long-term incentive plan related to the Company's annual performance assessment, and Plan B is a long-term incentive plan linked to the Company's milestone performance assessment. The total capital of the plan didn't exceed RMB610 million, of which the total capital of Plan A didn't exceed RMB210 million, and the total capital of Plan B didn't exceed RMB400 million. The stocks applicable to this plan are all the A-shares of the Company repurchased with the Company's special account for repurchase. The stock grants under this plan shall, in principle, match with the cycle for determination and assignment of the annual performance appraisal indicators by the Board of Directors, and shall generally be completed before 31 May of each year. For the 2020–2022 Core Employee Stock Ownership Plan, see http://static.sse.com.cn/disclosure/listedinfo/announcement/c/2020–09–26/600801\_20200926\_3.pdf

On 18 May 2021, the second meeting of the tenth session of board of directors of the Company reviewed and approved the *Proposal on the Grant Date, Grant Price and Grant Quantity of A-1.1 and A-1.2 in 2021 of the 2020–2022 Core Employee Stock Ownership Plan*, which clarifies the grant date, grant price, and the number of shares to be granted to the A-1.1 and A-1.2 batches in 2021.

#### DISCUSSION OF CORPORATE GOVERNANCE

There is no material deviation from the corporate governance practices and provisions on governance of listed companies in all applicable laws, administrative regulations and CSRC regulations.

The Company's corporate governance structure conforms to the requirements of modern enterprise system and the *Code of Corporate Governance for Listed Companies*. The Company constantly improves the corporate governance structure and standardizes the company operation in strict accordance with the *Company Law*, the *Securities Law*, the *Code of Corporate Governance for Listed Companies*, the *SSE Listing Rules* and other laws, regulations and normative documents, combined with the actual situation of the Company,

The Company also complies with the *Corporate Governance Code* as set out in Appendix 14 to the Hong Kong Listing Rules (the "Corporate Governance Code"). The Company's corporate governance practices:

- (1) Shareholders and shareholders' general meetings: The Company convened and held shareholders' general meetings in accordance with the *articles of association of the Company*, *Procedural Rules of the Shareholders' General Meeting* and other relevant provisions. During the Reporting Period, the Company held the first Extraordinary General Meeting in 2021, the 2020 Annual General Meeting, the second Extraordinary General Meeting in 2021, the fourth Extraordinary General Meeting in 2021, the fifth Extraordinary General Meeting in 2021 and the sixth Extraordinary General Meeting in 2021. When deliberating relevant proposals, the Company offered shareholders to vote online to protect the rights and interests of shareholders. The convening and voting procedures of previous shareholders' general meetings of the Company were all witnessed by lawyers on the spot and legal opinions were also issued. The resolutions of the shareholders' general meetings are legal and valid. During the Reporting Period, none of the shareholders engaged in insider dealing or damaged the interests of the Company and other shareholders.
- (2) The relationship between the controlling shareholders and the Company: The Company and the controlling shareholders are independent from each other in terms of personnel, assets, finance, organization and business, and each of them has independent accounting and bears responsibilities and risks independently. The controlling shareholders exercised the rights of investors and undertook obligations in strict accordance with the provisions of the *Company Law of the People's Republic of China* and the *articles of association of the Company*. The controlling shareholders abode by the code of conduct, and did not constitute horizontal competition with the Company, did not directly or indirectly interfere in the decision-making and business activities of the Company, and did not appropriate the Company's funds or require guarantee for it or for others. The Board of Directors, Board of Supervisors and internal departments of the Company operated independently.
- (3) Directors and the Board of Directors: All directors of the Company exercised their rights and obligations according to laws and their own professional knowledge and ability to make independent, objective and fair judgments on the proposals submitted to the Board of Directors in good faith, diligence and responsibility in strict accordance with the articles of association of the Company, Procedural Rules of the Board of Directors and relevant laws and regulations. In the deliberation of proposals on connected transactions, directors that are connected abstained from voting to ensure the fairness and reasonableness of connected transactions.
- (4) Information disclosure and transparency: The Company, in strict accordance with the provisions of the listing rules of the place where the Company's shares are listed, truly, accurately, completely and timely fulfilled its obligation of information disclosure in a just, fair and open way and ensured confidentiality before information disclosure, so that all shareholders can have equal access to the information.

- (5) Investor relations and stakeholders: The Company attached great importance to the maintenance of investor relations. The Company designated the secretary to the Board of Directors and the representative of securities affairs to be responsible for information disclosure and investor relations management, and took seriously the visit and consultation of shareholders and investors. The Company fully respected and safeguarded the legitimate rights and interests of creditors, customers, suppliers and other stakeholders, strived for balance of interests among shareholders, employees, society and the other, actively participated in public welfare undertakings, valued its social responsibility, and promoted the steady and sustainable development of the Company.
- (6) Registration and management of insiders who have access to inside information: During the Reporting Period, the Company implemented the *Registration System for Insiders Who Have Access to Inside Information* in strict accordance with the requirements of regulators. In accordance with the Registration System, the Company has registered and put on record the information of insiders involved in the disclosure of inside information in the Company's regular reports. During the Reporting Period, there was no illegal insider dealing of the Company's stocks.
- (7) Anti-corruption, anti-fraud and reporting system and policies: The Company has formulated anti-bribery and anti-corruption regulations in accordance with the Basic Internal Control Norms for Enterprises and other relevant laws and regulations, combined with the actual situation of the Company, to safeguard the legitimate rights and interests of the Company and shareholders and to reduce risks faced by the Company.

As at the end of the Reporting Period, the corporate governance structure of the Company has been perfected, meeting the requirements of the *Company Law of the People's Republic of China* and CSRC. The Company has adopted the principles and provisions of the *Corporate Governance Code*. During the Reporting Period, the Company complied with the provisions contained in the Corporate Governance Code.

The shareholders' general meeting, the Board of Directors and the Board of Supervisors operated effectively in strict accordance with the *articles of association the Company* and their respective procedural rules. For the disclosure required under the *Corporate Governance Report* set out in Appendix 14 to the Hong Kong Listing Rules, please refer to the section headed "IV. Directors' Report", this section and other sections.

### 2. COMPLIANCE WITH THE MODEL CODE FOR SECURITIES TRANSACTIONS BY DIRECTORS OF LISTED ISSUERS

The Company has adopted the *Model Code for Securities Transactions by Directors of Listed Issuers* under the Hong Kong Listing Rules (the "Model Code") as the code of conduct for all directors, supervisors and relevant employees (as defined in the *Corporate Governance Code*) for securities transactions of the Company. Having made enquiries to the directors and supervisors, the directors and supervisors confirmed that they have strictly complied with the provisions set out in the *Model Code* during the Reporting Period. At the same time, to the best of the Company's knowledge, there were no violations of the *Model Code* by employees.

3. SPECIFIC MEASURES TAKEN BY CONTROLLING SHAREHOLDERS AND DE FACTO CONTROLLERS TO ENSURE THE INDEPENDENCE IN TERMS OF ASSETS, PERSONNEL, FINANCE, ORGANIZATION AND BUSINESS OF THE COMPANY, SOLUTIONS ADOPTED RELATING TO THE COMPANY'S INDEPENDENCE AS WELL AS SCHEDULES AND FOLLOW-UP WORK PLANS

#### 5. RIGHTS OF SHAREHOLDERS

#### (1) Convening extraordinary general meetings

In accordance with the articles of association of the Company, shareholders separately or aggregately holding no less than 10% of the Company's issued shares have the right to propose the Board of Directors to convene an extraordinary general meeting by way of written request(s). The Board shall reply in writing regarding the acceptance or refusal to convene an extraordinary general meeting within ten days upon receiving the request in accordance with the requirements of the laws, administrative regulations and the articles of association of the Company. If the Board of Directors agrees to convene the extraordinary general meeting, notice convening the meeting shall be issued within five days after the Board resolved to do so. If the Board makes alterations to the original proposal in the notice, consent has to be obtained from the related shareholders. If the Board of Directors does not agree to convene the extraordinary general meeting or does not reply within ten days upon receiving the request, shareholders separately or aggregately holding no less than 10% of the Company's issued shares have the right to propose the Board of Supervisors to convene an extraordinary general meeting by way of written request(s). If the Board of Supervisors agrees to convene the extraordinary general meeting, notice convening the extraordinary general meeting shall be issued within five days upon receiving the request. Should there be alterations to the original requests in the notice, consent has to be obtained from the related shareholders. If the Board of Supervisors does not issue notice of the extraordinary general meeting within the required period, it will be considered as not going to convene and preside over the extraordinary general meeting, and shareholders separately or aggregately holding no less than 10% of the shares of the Company for ninety or more consecutive days have the right to convene and preside over the meeting on their own. The Company shall bear costs and expenses necessary for the extraordinary general meetings, which are convened by the Board of Supervisors or shareholders on their own initiative.

#### (2) Procedures for shareholders' making inquiries to the Board of Directors

In accordance with the *articles of association of the Company*, when a shareholder demands for inspection of information mentioned in the preceding article or demands for any information, it shall provide written proof of the class and number of shares held by him/her, and such information shall be provided upon his/her shareholder capacity being verified.

#### (3) Procedures for shareholders' presenting proposals to shareholders' general meetings

In accordance with the *articles of association of the Company*, shareholders independently or collectively holding not less than 3% of the shares of the Company may propose an extraordinary motion to the convener in writing ten days before the convening of such general meeting. The convener shall issue a supplementary notice of the general meeting to announce the content of the extraordinary motion within two days after receiving the proposed motions. The convener shall not amend the proposals listed in the aforesaid notice or add any new proposals subsequent to the dispatch of a notice of the general meeting.

The notice of general meetings shall include the following information: the venue, date and duration of the meeting; the delivery time and place of the authorization letter for proxy voting of the meeting; the record date of registration of shareholders entitled to attend the general meeting; the name and phone number of the regular contact person for the meeting; the time, procedure, and deliberation of online voting or communication voting.

#### 6. BOARD OF DIRECTORS

The Board of Directors serves as the permanent body of the Company for making operational decisions and is responsible to the shareholders' general meeting. The Board of Directors is composed of nine directors including three independent non-executive directors. The Board of Directors strictly abides by the *articles of association of the Company*, the *Procedural Rules of the Board of Directors* and relevant laws and regulations in performing its duties.

The Directors confirm their individual and collective responsibility for preparing the financial statements of the Company for the year ended 31 December 2021. The Board has set up special committees including the audit committee, the nomination committee, the remuneration and assessment committee, the strategy committee and the governance and compliance committee etc. Those special committees have formulated their respective terms of references, are responsible to the Board of Directors, and make proposals and advisory opinions to the Board of Directors for deliberation under the unified leadership of the Board. Those special committees may engage an intermediary agency to provide independent professional advice, and the relevant expenses shall be borne by the Company. During the Reporting Period, aimed at making more scientific decisions and operating in a more standard and more effective manner, the Board of Directors actively expanded channels for information exchange, strengthened communication with the management, and timely responded to major issues.

During the Reporting Period, all directors worked diligently and in strict accordance with the *articles of association* of the Company and the Procedural Rules of the Board of Directors. As of the date of this report, the Tenth Session of Board of Directors of the Company is composed of nine members: Mr. Li Yeqing and Mr. Liu Fengshan as executive directors, Mr. Xu Yongmo, Ms. Geraldine Picaud, Mr. Lo Chi Kong and Ms. Tan Then Hwee as non-executive directors, and Mr. Wong Kun Kau, Mr. Zhang Jiping and Mr. Jiang Hong as independent non-executive directors. Each of the directors serves a term of three years.

There is no financial, business, family or other relationship between the members of the Board of Directors, and between the Chairman and the Chief Executive Officer (i.e. the President).

Objections raised by directors to matters relating to the Company

☐ Applicable √ Not applicable

#### Directors' training

All Directors (Mr. Li Yeqing, Mr. Liu Fengshan, Mr. Xu Yongmo, Ms. Geraldine Picaud, Mr. Lo Chi Kong, Ms. Tan Then Hwee, Mr. Wong Kun Kau, Mr. Zhang Jiping and Mr. Jiang Hong) have participated in the Continuing Professional Development Programme during the Reporting Period for knowledge and skill update, so that they can continue to make informed and relevant contributions to the Board of Directors and that they are fully aware of their responsibilities, duties and obligations as directors of a dual-listed company.

As of 31 December 2021, the executive directors (Mr. Li Yeqing and Mr. Liu Fengshan) have participated in the Hubei Listed Company's 2021 Training of Directors, Supervisors, and Senior management and have completed the relevant examination.

#### FULFILLMENT OF CORPORATE GOVERNANCE DUTIES BY THE BOARD OF DIRECTORS

In accordance with the regulatory requirements governing securities in the place of listing of the Company's shares, the Board of Directors strictly implemented the provisions of the Procedural Rules of the Board of Directors in performing its corporate governance duties, including but not limited to:

- Formulating and reviewing corporate governance policies and practices of the Company and giving suggestions.
- Reviewing and monitoring the training and continuing professional development of directors and senior management. During the Reporting Period, the Board of Directors communicated relevant regulatory laws and regulations to the directors and senior management in a timely manner to help them continuously develop their professional competence and better perform their duties.
- Reviewing and monitoring the Company's abidance by laws and regulations in terms of policies and practices.
   The Board of Directors continuously monitored the Company's operational compliance. The Company set up a Legal Department and engaged law firms to reduce legal and regulatory risks.
- Reviewing the Company's compliance with Corporate Governance Code contained in Appendix 14 to the Hong Kong Listing Rules and its disclosures in the Corporate Governance Report. The Board of Directors required the Company to strictly comply with the requirements on corporate governance set forth in the listing rules of the place where the shares of the Company are listed and disclose relevant corporate governance information in a timely manner.

#### 8. CHAIRMAN AND PRESIDENT

To ensure power balance and enhance independence and accountability, the position of Chairman and President (i.e. chief executive officer as defined in the *Corporate Governance Code*) of the Company are held by Mr. Xu Yongmo and Mr. Li Yeqing, respectively.

The Chairman shall exercise the following functions and powers: to preside in shareholders' general meetings and to convene and preside in board meetings; to supervise and inspect the implementation of resolutions of the Board of Directors; to sign securities to be issued by the Company; to sign significant documents to be issued by the Board of Directors; other functions and powers conferred by the Board of Directors or listing rules of the stock exchanges where the Company's shares are listed. The Chairman shall be accountable to the Board of Directors and report on works to the Board of Directors.

The President is the legal representative of the Company and shall exercise the following functions and powers: to be in charge of the Company's operation and management, and to organize the implementation of the resolutions of the Board of Directors and report on works to the Board of Directors; to organize the implementation of the Company's annual business plan and investment proposals; to draft plans for the establishment of the Company's internal management structure; to draft the Company's basic management regulations; to formulate specific rules and regulations for the Company; to propose the appointment or dismissal by the Board of Directors of the Company's deputy vice president and head of finance; to appoint or dismiss management personnel other than those required to be appointed or dismissed by the Board of Directors; other functions and powers conferred by the articles of association of the Company or the Board of Directors. As requested by the Board of Directors, the President shall timely provide the Board of Directors with important information concerning the Company, including but not limited to the operating results, major transactions and contracts, financial data and business viability, and submit truthful, objective and complete reports to the Board of Directors.

The respective duties of the Chairman and the President are clearly defined and set out in the *articles of association* of the Company.

#### 9. INDEPENDENT NON-EXECUTIVE DIRECTORS

According to the *Procedural Rules of the Board of Directors*, Directors shall serve a term of three years and may serve a consecutive term if re-elected, but the term of independent non-executive directors shall not be more than six years. As of the date of this report, the Board of Directors of the Company comprised of nine directors, including three independent non-executive directors, Mr. Jiang Hong, an independent non-executive director, is qualified for accounting and financial management. The composition of the Board of Directors complies with Rule 3.10(1) "The Board of Directors must include at least three independent non-executive directors", Rule 3.10A "Independent non-executive director must represent at least one-third of the Board" and Rule 3.10(2) "At least one of the independent non-executive directors must have appropriate professional qualifications or accounting or related financial management expertise" of the Hong Kong Listing Rules.

The Company has received annual confirmation letters from independent non-executive directors, Mr. Zhang Jiping, Mr. Jiang Hong and Mr. Wong Kun Kau, regarding their independence in accordance with Rule 3.13 of the Hong Kong Listing Rules. The Company acknowledges their independence and considers all independent non-executive directors as independent third parties.

#### 10. SPECIAL COMMITTEES TO THE BOARD OF DIRECTORS

The Board of Directors has set up five special committees including the Audit Committee, the Nomination Committee, the Remuneration and Assessment Committee, the Strategy Committee and the Governance and Compliance Committee. Those committees performed their duties and authorities assigned by the Board of Directors with due diligence and in accordance with laws, regulations, the *articles of association* of the Company and their respective terms of references, and have played a positive role in improving the corporate governance structure and the development of the Company. During the Reporting Period, the Board of Directors did not raise any objection to the board proposals and non-board proposals for the year.

(1) The Company has set up the Strategy Committee in accordance with the Code of Corporate Governance for Listed Companies. The Strategy Committee is mainly responsible for conducting feasibility study on the Company's long-term strategic plan and major strategic investment, reporting to and accountable to the Board of Directors. The terms of reference of the Strategy Committee have been published on the websites of the Company and SSE.

(2) The Company has set up the Audit Committee in accordance with Rules 3.21 and 3.22 of the Hong Kong Listing Rules and the requirements of CSRC and SSE. The Audit Committee is responsible for conducting internal audit and supervision on the Company's financial income, expenditure and economic activities, reporting to and accountable to the Board of Directors. The terms of reference of the Audit Committee have been published on the websites of the Company and SSE.

During the Reporting Period, the Audit Committee held meetings to jointly review the Company's financial and accounting policies, internal control systems and relevant financial matters; express opinions on matters relating to the engagement of external auditors; receive external auditor's reports on the audit and review of the financial report, and analyze and review financial data in combination with other relevant information of the Company according to the requirements of laws, regulations and rules, so as to ensure the integrity, fairness and accuracy of the Company's financial statements, reports and other relevant data; guide the internal audit, evaluate the work of the finance department, audit department and their responsible persons; supervise the improvement of the Company's risk management and internal control system; assess the effectiveness of risk management and internal control; review continuing connected transactions, conduct interest conflict management and audit the Company's entrusted wealth management business; and establish a sound and effective internal control system.

During the Reporting Period, in accordance with the *Company Law*, the *Securities Law*, the *Accounting Law of the People's Republic of China*, the *Basic Internal Control Norms for Enterprises* and its supporting guidelines, the *Guidelines of SSE for the Internal Control of Listed Companies* and other regulatory rules on internal control, the Audit Committee identified, assessed and sorted out the important risks faced by the Company and improved the Company's risk management control measures, to ensure that the control measures targeted towards major risks are well-founded, relevant resources are in place and properly applied, and the risks are well under control. The Audit Committee believes that the Company's risk control system and internal control operation comply with the requirements of the governance code for listed companies issued by the CSRC.

During the Reporting Period, the Audit Committee held three meetings with the audit institutions engaged by the Company.

(3) The Company has set up a Nomination Committee in accordance with Rule B.3.1 of the Corporate Governance Code and the requirements of CSRC and SSE. The Nomination Committee is mainly responsible for raising proposals on the replacement of directors and senior management and recommending new candidates to the Board of Directors, and evaluating the independence of independent non-executive directors. The terms of reference of the Nomination Committee have been published on the websites of the Company, SSE and SEHK.

The Company has formulated the *Board Diversity Policy*, which involves: (1) Policy statement: When deciding the composition of the Board of Directors, the Company will take into account the board diversity from various aspects, including but not limited to gender, age, cultural and educational background, race, professional experience, skills, expertise and term of service. All appointments to the Board of Directors will be made based on competence of the candidates, as well as the diversity under objective conditions. (2) Measurable objectives: The Company will select candidates based on a variety of criteria, including but not limited to gender, age, cultural and educational background, race, professional experience, skills, expertise and term of service. The male-female ratio of board members is 7: 2 (compared to 3.5:1 of all the staff).

The Company acknowledges that the composition of the Board of Directors, members' background and procedures for selecting new directors comply with the requirements of the *Hong Kong Listing Rules* on board diversity and the requirements of the Company's *Board Diversity Policy*.

- (4) The Company has established a Remuneration and Assessment Committee in accordance with Rules 3.25 and 3.26 of the Hong Kong Listing Rules and the requirements of CSRC and SSE. The Remuneration and Assessment Committee is mainly responsible for the formulation, management and assessment of the remuneration system for directors and senior management of the Company, and making suggestions on the remuneration for executive directors and senior management to the Board of Directors. The Remuneration and Assessment Committee reports to and is accountable to the Board of Directors. The terms of reference of the Remuneration and Assessment Committee have been published on the websites of the Company, SSE and SEHK.
- (5) During the Reporting Period, the members and meetings of the Audit Committee, the Nomination Committee, the Remuneration and Assessment Committee, the Strategy Committee and the Governance and Compliance Committee of the Company are as follows:

Members of special committees to the Board of Directors

| Types of special committees               | Name of member  |
|---|---|
| Audit Committee                           | Chairman: Jiang Hong (Independent Non-executive Director). Members: Wong Kun Kau (Independent Non-executive Director), Zhang Jiping (Independent Non-executive Director); Xu Yongmo (Non-executive Director and Chairman); Geraldine Picaud (Non-executive Director). |
| Nomination<br>Committee                   | Chairman: Zhang Jiping (Independent Non-executive Director). During the Reporting Period, the Company did not hold any meeting between the Chairman of the Board of Directors and independent non-executive directors.

The Board of Supervisors had no objection to the supervision matters during the Reporting Period.

### 11. JOINT COMPANY SECRETARIES

Mr. Ye Jiaxing serves as the Joint Company Secretary of the Company and is responsible for advising the Board of Directors on corporate governance matters. In addition, to ensure good corporate governance and compliance with the Hong Kong Listing Rules, the Company has appointed Ms. Mak Sze Man, Senior Manager of the Corporate Services Division of Tricor Services Limited and an associate of The Hong Kong Chartered Governance Institute and The Chartered Governance Institute in the United Kingdom, as the Joint Company Secretary to assist Mr. Ye Jiaxing in fulfilling his obligations and responsibilities. The main contact within the Company for Ms. Mak Sze Man is Mr. Ye Jiaxing (Vice President and Secretary to the Board of Directors of the Company).

In 2021, both Mr. Ye Jiaxing and Ms. Mak Sze Man complied with the training requirements set out in Rule 3.29 of the Hong Kong Listing Rules.

#### 12. DIRECTORS' RESPONSIBILITIES FOR FINANCIAL STATEMENTS

The financial statements and results announcement of the Company for the year ended 31 December 2021 have been reviewed by the Audit Committee. All directors agreed and confirmed their and individual and collective responsibility for preparing the accounts as contained in the financial report for the year under review. The Directors are responsible for the preparation of the financial statements for the relevant accounting periods under applicable statutory and regulatory requirements which gave a true and fair view of the financial status, the results of operations and cash flows of the Group. In preparing the financial statements for the year ended 31 December 2021, applicable accounting policies have been adopted and applied consistently. The Directors are not aware of any uncertain events or circumstances which may materially affect the Company's ability to continue as a going concern.

| been fully protected  |      |     |

## 14. DEVELOPMENT AND IMPLEMENTATION OF INTERNAL CONTROL POLICIES DURING THE REPORTING PERIOD

#### (1) Internal control responsibility statement

The Board of Directors of the Company is responsible for establishing, improving and effectively implementing the internal control system, evaluating system effectiveness and truthfully disclosing the report on internal control effectiveness. In accordance with the *Company Law*, the *Securities Law*, the *Accounting Law of the People's Republic of China* and the *Guidelines of SSE for the Internal Control of Listed Companies, Basic Internal Control Norms for Enterprises* and other internal control rules, the Board of Directors has established and improved its risk control measures. i.e. risk-oriented internal control system, that cover various links in the Company's operation and management. The system is designed to manage, rather than eliminate, the risk of failure to achieve business objectives, and the Board of Directors can only give reasonable instead of absolute assurance that there will be no material misstatement or loss. In the year, the Company, by testing the effectiveness of the internal control system on the spot, monitored risk level and provided reasonable assurance in terms of well-founded and standard application of operational risk control activities, secure asset security, as well as true, accurate and complete financial report and information disclosure, which promoted the Company's development.

### (2) Development of the Company's risk control and internal control systems

### (1) Risk control & internal control and their characteristics

The Company has always been committed to building an internal control system that meets regulatory requirements. The Company has established such an internal control system that meets regulatory requirements and has organically integrated risk control and internal control through continuous optimization of the internal control mechanism, which contributes to significantly improved risk prevention and control capacity and means and is effective in the Company's management.

The Company enabled effectively running internal control system by promoting collaboration among three aspects, namely the self-inspection on the operation of internal control by the functional management/business operation departments, the independent evaluation by the internal audit department, and the internal control audit by the external accounting firm. At the same time, the Company launched an internal control management platform and some other measures to strengthen the ability of business departments to directly respond to risk control, thereby establishing a normalized risk-oriented internal control mechanism with extensive involvement among employees, making it more efficient for the Company to achieve the strategic objectives.

### ② Organization structure regarding risk control and internal control

The Board of Directors of the Company is responsible for the establishment, improvement and effective implementation of risk-oriented internal control, and shall assess its effectiveness at least once a year. Under the guidance and supervision of the Audit Committee to the Board of Directors, the Internal Audit and Internal Control Department of the Company is responsible for supervising, reviewing and evaluating the implementation of risk-oriented internal control by the Company and its subsidiaries, and coordinating internal control audit and other related matters. The Company's management is responsible for the effective operation of the risk-oriented internal control system. During the Reporting Period, the Company conducted special audits on the effectiveness of risk control activities implemented by its 26 subordinate units and 22 audits on business process in high-risk fields such as procurement and sales and logistics, and organized annual internal control self-assessment within the headquarters and 164 subordinate units. The Company engaged Deloitte Touche Tohmatsu Certified Public Accountants LLP to audit the effectiveness of internal control over financial report, and a standard unqualified auditor's report has been issued. During the Reporting Period, the Board of Directors assessed and confirmed the effectiveness and adequacy of the Company's internal control system.

### ③ Procedures for identifying, assessing and control material risks

The Company has established an internal monitoring system for material information, procedures for processing and releasing stock price-sensitive data and internal monitoring measures, a *Material Internal Events Report Policy* to define the specific scope of material internal events, and an effective communication mechanism. The obligor for reporting material internal events is responsible for submitting data to the Secretary to the Board of Directors in a timely, accurate, true and complete manner. The Secretary to the Board of Directors is required to analyze the material information received, make a judgment and report to the President of the Company in time. Material information involving a disclosure obligation shall be reported to the Board of Directors and the Board of Supervisors and disclosed to the public according to relevant regulations.

In terms of information disclosure, the Company has formulated the *Administrative Measures for Information Disclosure and the Registration System for Insiders Who Have Access to Inside Information* to prevent improper use and dissemination of sensitive information. The Registration System for Insiders Who Have Access to Inside Information clearly stipulates the confidentiality management of inside information, the registration of insiders who have access to inside information and the accountability. The Company regularly reminded the directors and employees to comply with all policies adopted in relation to inside information, including compliance with the Model Code set out in Appendix 10 to the *Hong Kong Listing Rules* for the trading of the Company's securities. At the same time, the Company disclosed information truthfully, accurately, completely and in a timely manner in accordance with the *Hong Kong Listing Rules*, the *SSE Listing Rules* and the *articles of association of the Company*, to ensure that all investors have equal and timely access to information about the Company.

### Measures for major internal control deficiencies

The Company has formulated the evaluation process and criteria for the lack of internal control. In case of a major lack of internal control that causes failure in achieving strategic objectives, asset security, business and compliance objectives, the internal audit department will promptly coordinate with responsible units to rectify it and report to the management, Audit Committee and Board of Directors. The Audit Committee and the Board of Directors will analyze and assess the impact on the Company and supervise the rectification. During the Reporting Period, the Company did not find any material internal control deficiency through internal control audit conducted by the accounting firm and internal audit and internal control self-assessment conducted by the internal audit department.

### (3) Description of the internal control auditor's report

Deloitte Touche Tohmatsu Certified Public Accountants LLP engaged by the Company has audited the effectiveness of internal controls relating to the Company's financial report and issued a standard unqualified auditor's report.

The standard unqualified auditor's report has been disclosed together with the Annual Report. For details, please refer to the website of SSE (www.sse.com.cn).

# (4) Rectification of problems found in self-inspection of special corporate governance actions for the Company

The Company identified 5 problems according to the list of corporate governance problems, and all problems have been rectified.

#### (5) Remuneration for independent auditors

Deloitte Touche Tohmatsu Certified Public Accountants LLP was appointed as an independent auditor of the Group during the Reporting Period.

The remuneration paid/payable to Deloitte Touche Tohmatsu Certified Public Accountants LLP Deloitte Business Consulting (Shanghai) Co., Ltd. and Deloitte Management Consulting (Shanghai) Co., Ltd. during the Reporting Period is set out below:

| Non-audit services — primarily internal control services                               | 3,542,310                      |
|  |                                |
|  | 11,108,025                     |

### (6) Communication with the shareholders

The Company has adopted the Shareholders' Communications Policy with the objective of ensuring that the shareholders will have equal and timely access to information about the Company in order to enable the shareholders to exercise their rights in an informed manner and allow them to engage actively with the Company.

The shareholders are informed mainly through the Company's financial reports, annual general meetings and other extraordinary general meetings that may be held, as well as published disclosures submitted to the SEHK.

### (7) Constitutional documents

Amendments were made to the articles of association of the Company in the 2020 AGM on 27 April 2021, the third EGM on 12 July 2021, and the fifth EGM on 13 September 2021, respectively.

The currently effective *articles of association* of the Company are available on the websites of the SEHK (www. hkexnews.hk) and the Company (www.huaxincem.com).

De Shi Bao (Shen) Zi (22) No. P01804

TO THE SHAREHOLDERS OF HUAXIN CEMENT CO., LTD.,

#### I. OPINION

We have audited the financial statements of Huaxin Cement Co., Ltd. (the "Company"), which comprise the consolidated and Company's balance sheets as at 31 December 2021, the consolidated and Company's income statements, the consolidated and Company's cash flow statements and the consolidated and Company's statements of changes in shareholders' equity for the year then ended, and the notes to the financial statements.

In our opinion, the accompanying financial statements are present fairly, in all material respects, the consolidated and Company's financial position as at 31 December 2021, and the consolidated and Company's results of operations and cash flows for the year then ended are in accordance with the China Accounting Standards for Business Enterprises ("CASBES").

#### II. BASIS FOR OPINION

We conducted our audit in accordance with China Standards on Auditing ("CSAs"). Our responsibilities under those standards are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section of our report. We are independent of the Company in accordance with the Code of Ethics for Certified Public Accountants ("the Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### III. KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be key audit matters to be communicated in our report.

### (I) Expected credit loss ("ECL") of accounts receivable

### 1. Description of the matter

As set out in Note VII(4) to the financial statements prepared in accordance with the PRC Accounting Standards, the carrying amount of accounts receivable amounting to RMB956,580,152 was included in the consolidated balance sheet as at 31 December 2021 net provision for ECL of RMB164,229,940. As set out in Note V(10) to the consolidated financial statements, accounts receivable are subsequently measured at amortized cost and the ECL is the present value of the difference between the contractual cash flows receivable and the cash flows expected to be received. In determining the ECL of accounts receivable, the management is required to appropriately consider the Group's historical credit losses, macro-economic environment and other present conditions and reasonably predict the future economic conditions. As the amount of accounts receivable was significant and the determination of ECL required significant judgement of the management, we identified the ECL of accounts receivable as a key audit matter.

De Shi Bao (Shen) Zi (22) No. P01804

### III. KEY AUDIT MATTERS - continued

### (I) Expected credit loss ("ECL") of accounts receivable - continued

### 2. How our audit addressed the key audit matter

Our procedures in relation to ECL of accounts receivable mainly included:

- Understood, tested and evaluated the key internal controls in relation to the ECL of accounts receivable;
- Obtained the ECL model for accounts receivable prepared by the management for determination of ECL of accounts receivable, tested the underlying data used in the calculation on a sample basis including testing the aging of accounts receivable and the calculation of historical credit losses, understood the Company's credit policy, and evaluated the appropriateness of the methodologies and reasonableness of management't key assumptions and judgements used;
- Verified the mathematical accuracy of the amount of ECL calculated by the management using the above ECL model;
- Understood the management's special consideration for measurement of ECL in respect of the receivables for which bad debt provision is individually assessed, obtained the related supporting documents and evaluated the reasonableness of ECL determined by the management.

### IV. OTHER INFORMATION

The Company's management is responsible for the other information. The other information comprises the information included in the annual report for the year of 2021, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

De Shi Bao (Shen) Zi (22) No. P01804

# V. RESPONSIBILITIES OF MANAGEMENT AND THOSE CHARGED WITH GOVERNANCE FOR THE FINANCIAL STATEMENTS

The management of the Company is responsible for preparation and fair presentation of the financial statements in accordance with the CASBEs and designing, implementing and maintaining the internal control that is necessary to enable that the financial statements are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis unless the management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the financial reporting process of the Company.

#### VI. AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with CSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with CSAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- (1) Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- (2) Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances.
- (3) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.

De Shi Bao (Shen) Zi (22) No. P01804

### VI. AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE FINANCIAL STATEMENTS - continued

- (4) Conclude on the appropriateness of the management's use of the going concern assumption and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required by CSAs to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- (5) Evaluate the overall presentation (including the disclosures), structure and content of the financial statements, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- (6) Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Company to express an opinion on the financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

De Shi Bao (Shen) Zi (22) No. P01804

### VI. AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE FINANCIAL STATEMENTS - continued

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Deloitte Touche Tohmatsu CPA LLP Shanghai, China Chinese Certified Public Accountant:

#### I. BASIC INFORMATION ABOUT THE COMPANY

### 1. Company profile

Huaxin Cement Co., Ltd. (the "Company") is a limited company incorporated in the People's Republic of China (the "PRC"). In 1994, as approved by Hubei Provincial People's Government, the Company's shares were listed on the Shanghai Stock Exchange. In 2006, as approved by the Ministry of Commence of the PRC, the legal status of the Company was changed to a foreign-invested limited company. In April 2019, based on its total share capital of 1,497,571,325 shares at the end of 2018, the Company allotted shares from its capital surplus at 4 shares for every 10 shares, amounting to RMB599,028,530. As a result, the total shares of the Company increased to 2,096,599,855, including 1,361,879,855 A shares and 734,720,000 B shares, both of which are issued domestically.

The Company and its subsidiaries (collectively referred to as the "Group") are principally engaged in manufacturing and sales of cement, concrete, clinker, aggregate and other construction materials. The address of the Company's registered office is No. 600, East Daqi Avenue, Huangshi City, Hubei Province and the office address of the headquarter is Huaxin Plaza, No. 426 Gaoxin Avenue, Donghu New Technology Development District, Wuhan City, Hubei Province.

The Company's and consolidated financial statements were authorized for issue by the Company's Board of Directors on 29 March 2022.

### 2. Scope of consolidated financial statements

Principal subsidiaries included in the scope of consolidation are listed in Note VII "Equity Interests in Other Entities". For the detailed changes in the scope of consolidated financial statements in the current year, refer to Note VI "Changes in Sco pe of Consolidation".

#### II. BASIS OF PREPARATION OF FINANCIAL STATEMENTS

#### 1. Basis of preparation

The Group adopts the Accounting Standard for Business Enterprises and relevant regulations issued by the Ministry of Finance. Besides, the Group also discloses financial information in accordance with the Preparation Convention of Information Disclosure by Companies Offering Securities to the Public No.15 — General Rules on Financial Reporting (Revised in 2014). In addition, the financial statements also include the relevant disclosures required by Hong Kong Companies Ordinance and the Hong Kong Listing Rules.

#### 2. Going concern

The Group assessed its ability to continue as a going concern for the 12 months from 31 December 2021 and did not notice any events or circumstances that may cast significant doubt upon its ability to continue as a going concern. Therefore, the financial statements have been prepared on a going concern basis.

FOR THE YEAR ENDED 31 DECEMBER 2021

#### II. BASIS OF PREPARATION OF FINANCIAL STATEMENTS - continued

### 3. Basis of accounting and principle of measurement

The Group has adopted the accrual basis of accounting. Except for certain financial instruments which are measured at fair value, the Group adopts the historical cost as the principle of measurement in the financial statements. Where assets are impaired, provisions for asset impairment are made in accordance with relevant requirements.

Where the historical cost is adopted as the measurement basis, assets are recorded at the amount of cash and cash equivalents paid or the fair value of the consideration given to acquire them at the time of their acquisition. Liabilities are recorded at the amount of proceeds or assets received or the contractual amounts for assuming the present obligation, or, at the amounts of cash and cash equivalents expected to be paid to settle the liabilities in the normal course of business.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Regardless of whether that price is directly observable or estimated using another valuation technique, fair value for measurement and disclosure purposes in the financial statements is determined on such a basis.

In the measurement of non-financial assets at fair value, market participants' ability to best utilize such assets to generate most economic benefits, or the ability to sell such assets to other market participants who are able to best utilize the assets to generate economic benefits is taken into account.

For financial assets of which transaction prices are the fair value on initial recognition, and of which valuation technique involving unobservable input is used in subsequent measurement, the valuation technique in the course of valuation is adjusted to enable the result of initial recognition based on the valuation technique equal to the transaction price.

Fair value measurements are categorized into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than inputs within Level 1, that are directly or indirectly observable for the asset or liability;
- Level 3 inputs are unobservable inputs for the asset or liability.

FOR THE YEAR ENDED 31 DECEMBER 2021

#### III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES

Tips on specific accounting policies and accounting estimates:

The Group determines specific accounting policies and accounting estimates based on actual business operation characteristics, including the method of bad debt provision for receivables (Note III (10)), the depreciation of fixed assets and the amortization of intangible assets (Note III (16), (19)) and the time point of revenue recognition (Note III (27)) etc.

The key judgements made by the Group in determining significant policies are detailed in Note III (32).

#### 1. Statement of compliance with the ASBEs

The financial statements of the Company have been prepared in accordance with Accounting Standards for Business Enterprises ("ASBEs"), and present truly and completely, the Company's and consolidated financial position as at 31 December 2021, and the Company's and consolidated results of operations, changes in shareholders' equity and cash flows for the year then ended.

### 2. Accounting period

The accounting year of the Group is from 1 January to 31 December.

#### 3. Operating cycle

An operating cycle refers to the period since an enterprise purchases assets for processing purpose until the realization of those assets in cash or cash equivalents. The Group's operating cycle is 12 months.

### 4. Functional currency

Renminbi ("RMB") is the currency of the primary economic environment in which the Company and its domestic subsidiaries operate. Therefore, the Company and its domestic subsidiaries choose RMB as their functional currency. The Company's foreign subsidiaries, namely, Huaxin Gayur (Sogd) Cement LLC, Huaxin Yovon Cement LLC, Cambodian Cement Chakrey Ting Factory Co., Ltd., Yuzhno-Kyrgyzskyi Cement CJSC, Huaxin Cement Dzizak Co., Ltd., Maweni Limestone Ltd., Huaxin Cement Narayani Co., Ltd., CHILANGA Cement PLC and Portland Cement (MALAWI) Limited determine TJS, TJS, USD, SOM, UZS, Shilling, RUB, Kwacha and MWK as their functional currencies based on the currency of the primary economic environment in which they operate. The Company adopts RMB to present its financial statements.

FOR THE YEAR ENDED 31 DECEMBER 2021

#### III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES - continued

5. The accounting treatment of business combinations involving enterprises under common control and business combinations not involving enterprises under common control

Business combinations are classified into business combinations involving enterprises under common control and business combinations not involving enterprises under common control. The Group has only business combinations not involving enterprises under common control.

5.1 Business combinations not involving enterprises under common control and goodwill

A business combination not involving enterprises under common control is a business combination in which all of the combining enterprises are not ultimately controlled by the same party or parties before and after the combination.

The cost of combination is the aggregate of the fair values, at the acquisition date, of the assets given, liabilities incurred or assumed, and equity securities issued by the acquirer in exchange for control of the acquiree. The intermediary expenses incurred by the acquirer in respect of audit, legal services, valuation and consultancy services, etc. and other associated administrative expenses attributable to the business combination are recognized in profit or loss when they are incurred.

The acquiree's identifiable assets, liabilities and contingent liabilities, acquired by the acquirer in a business combination, that meet the recognition criteria shall be measured at fair value at the acquisition date.

Where the cost of combination exceeds the acquirer's interest in the fair value of the acquiree's identifiable net assets, the difference is treated as an asset and recognized as goodwill, which is measured at cost on initial recognition. Where the cost of combination is less than the acquirer's interest in the fair value of the acquiree's identifiable net assets, the acquirer firstly reassesses the measurement of the fair value of the acquiree's identifiable assets, liabilities and contingent liabilities and measurement of the cost of combination. If after that reassessment, the cost of combination is still less than the acquirer's interest in the fair value of the acquiree's identifiable net assets, the acquirer recognizes the remaining difference immediately in profit or loss for the current period.

If either the fair values of identifiable assets, liabilities and contingent liabilities acquired in a combination or the cost of business combination can be determined only provisionally by the end of the period in which the business combination was effected, the acquirer recognizes and measures the combination using those provisional values. Any adjustments to those provisional values within twelve months after the acquisition date are treated as if they had been recognized and measured on the acquisition date.

Goodwill arising on a business combination is measured at cost less accumulated impairment losses, and is presented separately in the consolidated financial statements.

FOR THE YEAR ENDED 31 DECEMBER 2021

### III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES - continued

### 6. Preparation of consolidated financial statements

The scope of consolidation in the consolidated financial statements is determined on the basis of control. Control is the power over the investee, exposures or rights to variable returns from its involvement with the investee, and the ability to use its power over the investee to affect the amount of the investor's returns. The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes in the above elements of the definition of control.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary.

For a subsidiary disposed of by the Group, the results of operation and cash flows before the date of disposal (the date when control is lost) are included in the consolidated income statement and consolidated cash flow statement, as appropriate.

For a subsidiary acquired through a business combination not involving enterprises under common control, the results of operation and cash flows from the acquisition date (the date when control is obtained) are included in the consolidated income statement and consolidated cash flow statement, as appropriate.

The significant accounting policies and accounting periods adopted by the subsidiaries are determined based on the uniform accounting policies and accounting periods set out by the Company.

The portion of subsidiaries' equity that is not attributable to the Company is treated as minority interests and presented as "minority interests" in the consolidated balance sheet within shareholders' equity. The portion of net profit or loss of subsidiaries and other comprehensive income for the period attributable to minority interests is presented as "profit or loss attributable to minority interests" below the "net profit" and "other comprehensive income attributable to minority interests, net of tax" below the "other comprehensive income, net of tax" in the consolidated income statement.

When the amount of loss for the period attributable to the minority shareholders of a subsidiary exceeds the minority shareholders' portion of the opening balance of owners' equity of the subsidiary, the excess amount is still allocated against minority interests.

FOR THE YEAR ENDED 31 DECEMBER 2021

#### III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES - continued

### 6. Preparation of consolidated financial statements - continued

All significant balances of receivables and payables, transactions and unrealized profits within the Group are offset when the consolidated financial statements are prepared. The unrealized internal transaction gains and losses arising from the sale of assets by the Company to its subsidiaries shall fully offset the net profit attributable to the shareholders of the parent company; the unrealized internal transaction gains and losses arising from the sale of assets by the subsidiaries to the Company shall be proportionally offset between the net profit attributable to the shareholders of the parent company and the gains and losses of minority shareholders based on distribution ratio of the Company to its subsidiaries. The unrealized internal transaction gains and losses arising from the sale of assets between subsidiaries shall be offset by the distribution proportion of the parent company to the subsidiaries of the seller between the net profit attributable to the shareholders of the parent company and the gains and losses of minority shareholders.

If the identification of the same transaction with the Group as the accounting entity and the Company or subsidiary as the accounting entity is different, the transaction shall be adjusted from the perspective of the Group.

#### 7. Classification of joint arrangements and accounting treatment of joint operations

A joint arrangement is classified into joint operation and joint venture, depending on the rights and obligations of the parties to the arrangement, which is assessed by considering the structure and the legal form of the arrangement, the terms agreed by the parties in the contractual arrangement and, when relevant, other facts and circumstances. A joint operation is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the assets, and obligations for the liabilities, relating to the arrangement. A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint arrangement.

The Group accounts for investments in joint ventures using the equity method. Refer to Note (III) 15.3.2 "Long-term equity investments accounted for using the equity method" for details.

### 8. Recognition criteria of cash and cash equivalents

Cash comprises cash on hand and deposits that can be readily withdrawn on demand. Cash equivalents are the Group's short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Restricted bank deposits are not regarded as cash or cash equivalents in the preparation of cash flow statements.

FOR THE YEAR ENDED 31 DECEMBER 2021

### III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES - continued

### 9. Translation of transactions and financial statements denominated in foreign currencies

## 9.1 Transactions denominated in foreign currencies

A foreign currency transaction is recorded, on initial recognition, by applying the spot exchange rate on the date of the transaction.

At the balance sheet date, foreign currency monetary items are translated into the functional currency using the spot exchange rates at the balance sheet date. Exchange differences arising from the differences between the spot exchange rates prevailing at the balance sheet date and those on initial recognition or at the previous balance sheet date are recognized in profit or loss for the period, except that exchange differences related to a specific-purpose borrowing denominated in foreign currency that qualify for capitalization are capitalized as part of the cost of the qualifying asset during the capitalization period.

Foreign currency non-monetary items measured at historical cost are translated to the amounts in functional currency at the spot exchange rates on the dates of the transactions and the amounts in functional currency remain unchanged.

## 9.2 Translation of financial statements denominated in foreign currencies

For the purpose of preparing the consolidated financial statements, financial statements of a foreign operation are translated from the foreign currency into RMB using the following method: assets and liabilities on the balance sheet are translated at the spot exchange rate prevailing at the balance sheet date; shareholders' equity items are translated at the spot exchange rates at the dates on which such items arose; all items in the income statement as well as items reflecting the distribution of profits are translated at the spot exchange rates on the dates of the transactions. The difference between the translated assets and the aggregate of liabilities and shareholders' equity items is recognized as other comprehensive income and included in shareholders' equity.

Cash flows arising from a transaction in foreign currency and the cash flows of a foreign subsidiary are translated at the spot exchange rate on the date of the cash flows. The effect of exchange rate changes on cash and cash equivalents is regarded as a reconciling item and presented separately in the cash flow statement as "effect of exchange rate changes on cash and cash equivalents".

The opening balances and the comparative figures of prior year are presented at the translated amounts in the prior year's financial statements.

FOR THE YEAR ENDED 31 DECEMBER 2021

### III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES - continued

### 10. Financial instruments

Financial assets and financial liabilities are recognized when the Group becomes a party to the contractual provisions of the instrument.

For regular purchase or sale of financial assets, assets to be received or liabilities to be assumed are recognized on the date of transaction, or assets already sold are derecognized on the date of transaction.

Financial assets and financial liabilities are initially measured at fair value. For financial assets and financial liabilities at fair value through profit or loss, transaction costs are immediately recognized in profit or loss. For other financial assets and financial liabilities, transaction costs are included in their initially recognized amounts. When the Group initially recognizes accounts receivable without significant financing components or without considering significant financing components in the contract of no more than 1 year in accordance with the Accounting Standards for Business Enterprises No. 14 — Revenue (the "revenue standard"), the accounts receivable are initially measured at the transaction price defined in the revenue standard.

The effective interest method is a method of calculating the amortized cost of a financial asset or a financial liability and of allocating the interest income or interest expense over the relevant period, using the effective interest rate.

The effective interest rate is the rate that exactly discounts estimated future cash flows through the expected life of the financial asset or financial liability to the carrying amount of a financial asset or to the amortized cost of a financial liability. When calculating the effective interest rate, the Group estimates future cash flows by considering all the contractual terms of the financial asset or financial liability (for example, prepayment, extension, call option or similar options) but shall not consider the expected credit losses.

The amortized cost of a financial asset or a financial liability is the amount of a financial asset or a financial liability initially recognized net of principal repaid, plus or less the cumulative amortized amount arising from amortization of the difference between the amount initially recognized and the amount at the maturity date using the effective interest method, net of cumulative credit loss allowance (only applicable to financial assets).

## 10.1 Classification, recognition and measurement of financial assets

Subsequent to initial recognition, the Group's financial assets of various categories are subsequently measured at amortized cost, at fair value through other comprehensive income or at fair value through profit or loss.

If contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding, and the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows, such asset is classified into financial asset measured at amortized cost, which include cash and bank balances, notes receivable, accounts receivable, other receivables, debt investments, and long-term receivables etc.

FOR THE YEAR ENDED 31 DECEMBER 2021

### III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES - continued

### 10. Financial instruments - continued

## 10.1 Classification, recognition and measurement of financial assets - continued

Financial assets that meet the following conditions are classified as at fair value through other comprehensive income ("FVTOCI"): the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling the financial assets; and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Notes receivable classified as at FVTOCI upon acquisition are presented as financing with receivables.

On initial recognition, the Group may irrevocably designate non-trading equity instruments, other than contingent consideration recognized through business combination not involving enterprises under common control, as financial assets at FVTOCI on an individual basis. Such financial assets at FVTOCI are presented as other equity instrument investments.

A financial asset is classified as held-for-trading if one of the following conditions is satisfied:

- It has been acquired principally for the purpose of selling in the near term;
- On initial recognition, it is part of a portfolio of identified financial instruments that the Group manages together and there is objective evidence that the Group has a recent actual pattern of short-term profit-taking;
- It is a derivative that is not designated as a financial guarantee contract and effective as a hedging instrument.

Financial assets that are not qualified to be classified as financial assets at amortized cost or financial assets at FVTOCI are classified as financial assets at FVTPL. Such financial assets mainly include money market funds and stock investments in the secondary market, etc.

The financial assets at FVTPL are presented as held-for-trading financial assets and those due after one year from the balance sheet date (or with no fixed term) and expected to be held for more than one year are presented as other non-current financial assets.

### 10.1.1 Financial assets measured at amortized cost

The financial assets measured at amortized cost are subsequently measured at amortized cost using the effective interest method. Gain or loss arising from impairment or derecognition is recognized in profit or loss.

FOR THE YEAR ENDED 31 DECEMBER 2021

## III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES - continued

### 10. Financial instruments - continued

## 10.1 Classification, recognition and measurement of financial assets - continued

10.1.1 Financial assets measured at amortized cost - continued

The Group recognizes interest income from financial assets classified as financial assets at amortized cost using the effective interest method. The Group calculates and recognizes interest income through account balance of financial assets multiplying effective interest rate, except for the following circumstances:

- For purchased or originated credit-impaired financial asset, the Group calculates and recognizes its interest income based on amortized cost of the financial asset and the effective interest through credit adjustment since initial recognition.
- For purchased or originated financial asset without credit impairment incurred while with credit impairment incurred in subsequent periods, the Group calculates and recognizes its interest income based on amortized cost of the financial asset and the effective interest in subsequent periods. If the credit risk of the financial asset is improved during subsequent periods and credit impairment does not exist, and the improvement can be related to an event occurring after application of aforesaid provisions, the Group shall calculate and recognize interest income through account balance of financial assets multiplying effective interest rate.

10.1.2 Financial assets classified as at fair value through other comprehensive income (FVTOCI)

Impairment losses or gains related to financial assets at FVTOCI, interest income measured using effective interest method are recognized into profit or loss for the current period, except for the above circumstances, changes in fair value of the financial assets are included in other comprehensive income. Amounts charged to profit or loss for every period equal to the amount charged to profit or loss as it is measured at amortized costs. When the financial asset is derecognized, the cumulative gains or losses previously recognized in other comprehensive income shall be removed from other comprehensive income and recognized in profit or loss.

## 10.1.3 Financial assets designated as at FVTOCI

Subsequent to the designation of non-trading equity investments to financial assets at FVTOCI, the changes in fair value of such financial assets are recognized in other comprehensive income. Upon derecognition of the financial assets, the cumulative gains or losses previously recognized in other comprehensive income are transferred and included in retained earnings. During the period in which the Group holds the non-trading equity instruments, revenue from dividends is recognized in profit or loss for the current period when (1) the Group has established the right of collecting dividends; (2) it is probable that the associated economic benefits will flow to the Group; and (3) the amount of dividends can be measured reliably.

FOR THE YEAR ENDED 31 DECEMBER 2021

### III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES - continued

### 10. Financial instruments - continued

## 10.1 Classification, recognition and measurement of financial assets - continued

10.1.4 Financial assets at fair value through profit or loss (FVTPL)

Financial assets at FVTPL are subsequently measured at fair value. Any gains or losses arising from changes in the fair value and any dividend or interest income earned on the financial assets are recognized in profit or loss.

## 10.2 Impairment of financial instruments

The Group recognizes loss allowance for financial assets classified as at amortized cost and financial assets at FVOCI based on ECL.

The Group measures loss allowance for notes receivable and accounts receivable arising from transactions regulated by the Revenue Standard based on the amount of lifetime ECL.

For other financial instruments, except for the purchased or originated credit-impaired financial assets, at each balance sheet date, the Group assesses changes in credit risk of relevant financial instruments since initial recognition. If the credit risk of the above financial instruments has increased significantly since initial recognition, the Group measures loss allowance based on the amount of lifetime ECL; if credit risk of the financial instrument has not increased significantly since initial recognition, the Group recognizes loss allowance based on 12-month ECL of the financial instrument. Increase in or reversal of credit loss allowance is included in profit or loss as losses/gains on impairment, except for financial assets classified as at fair value through other comprehensive income. The Group recognizes credit loss allowance for financial assets at FVTOCI in other comprehensive income and recognizes losses/gains on impairment in profit or loss for the period, without reducing the carrying amount of the financial assets presented in the balance sheet.

The Group measured loss allowance at the lifetime ECL of the financial instruments in the prior accounting period. However, as at the balance sheet date for the current period, for the above financial instruments, due to failure to qualify as significant increase in credit risk since initial recognition, the Group measures loss allowance for the financial instrument at 12-month ECL at the balance sheet date for the current period. Relevant reversal of loss allowance is included in profit or loss as gains on impairment.

## 10.2.1 Significant increase in credit risk

In assessing whether the credit risk has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument as at the balance sheet date with the risk of a default occurring on the financial instrument as at the date of initial recognition.

FOR THE YEAR ENDED 31 DECEMBER 2021

### III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES - continued

### 10. Financial instruments - continued

## 10.2 Impairment of financial instruments - continued

10.2.1 Significant increase in credit risk — continued

In particular, the following information is taken into account when assessing whether credit risk has increased significantly:

- (1) Existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant change in the borrower's ability to meet its debt obligations;
- (2) An actual or expected significant change in the operating results of the borrower;
- (3) An actual or expected significant adverse change in the regulatory, economic, or technological environment of the borrower;
- (4) Significant changes in the value of the collateral supporting the obligation or in the quality of third-party guarantees, which are expected to reduce the borrower's economic incentive to make scheduled contractual payments or to otherwise have an effect on the probability of a default occurring;
- (5) Significant changes that are expected to reduce the borrower's economic incentive to make scheduled contractual payments;
- (6) Expected changes in the loan documentation including an expected breach of contract that may lead to covenant waivers or amendments, interest rate step-ups, requiring additional collateral or guarantees, or other changes to the contractual framework of the instrument;
- (7) Significant changes in the expected performance and behavior of the borrower;
- (8) Changes in the Group's credit management approach in relation to the financial instrument.

Irrespective of whether the credit risk has increased significantly after the above assessment, taking into account the characteristics of the industries and the contractual stipulations, the Group considers that when the contractual payment for the financial instruments is overdue for 180 (inclusive) days, it indicates that the credit risk on the financial instruments has increased significantly.

FOR THE YEAR ENDED 31 DECEMBER 2021

### III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES - continued

### 10. Financial instruments - continued

## 10.2 Impairment of financial instruments - continued

10.2.1 Significant increase in credit risk - continued

The Group assumes that the credit risk on a financial instrument has not increased significantly since initial recognition if the financial instrument is determined to have lower credit risk at the balance sheet date. A financial instrument is determined to have lower credit risk if: i) it has a lower risk of default, ii) the borrower has a strong capacity to meet its contractual cash flow obligations in the near term and iii) adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the borrower to fulfil its contractual cash flow obligations.

#### 10.2.2 Credit-impaired financial assets

A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

- (1) significant financial difficulty of the issuer or the borrower;
- (2) a breach of contract by the debtor, such as a default or delinquency in interest or principal payments;
- (3) the lender(s) of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession(s) that the lender(s) would not otherwise consider;
- (4) it is becoming probable that the borrower will enter bankruptcy or other financial reorganization.

Based on the Group's internal credit risk management, if the information acquired internally or externally indicates that the debtor of the financial instrument is not able to repay the creditor (including the Group) in full regardless of any guarantees obtained, the Group believes that the default has occurred.

## 10.2.3 Determination of ECL

The Group recognizes the credit loss on other receivables, long-term receivables and debt investments as well as credit-impaired accounts receivable, etc. on an individual basis, and the remaining accounts receivable with impairment matrix on a collective basis. The Group classifies the remaining accounts receivable into different groups based on different types.

FOR THE YEAR ENDED 31 DECEMBER 2021

### III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES - continued

### 10. Financial instruments - continued

## 10.2 Impairment of financial instruments - continued

10.2.3 Determination of ECL - continued

The Group determines ECL of relevant financial instruments using the following methods:

- For a financial asset, the credit loss is the present value of difference between the contractual cash flows receivable and the expected cash flows to be received.
- For credit-impaired financial assets other than the purchased or originated credit-impaired financial assets at the balance sheet date, credit loss is the difference between the account balance of financial assets and the present value of expected future cash flows discounted at original effective interest rate.

The Group's measurement of ECL of financial instruments reflects factors including unbiased probability weighted average amount recognized by assessing a series of possible results, time value of money, reasonable and supportable information related to historical events, current condition and forecast of future economic position that is available without undue cost or effort at the balance sheet date.

### 10.2.4 Write-off of financial assets

The Group shall directly reduce the account balance of a financial asset when the Group has no reasonable expectations of recovering a financial asset in its entirety or a portion thereof. A write-off constitutes a derecognition event.

### 10.3 Transfer of financial assets

The Group derecognizes a financial asset if one of the following conditions is satisfied: (1) the contractual rights to the cash flows from the financial asset expire; (2) the financial asset has been transferred and substantially all the risks and rewards of ownership of the financial asset is transferred to the transferee, or (3) the financial asset has been transferred. Although the Group neither transfers nor retains almost all the risks and rewards of the ownership of the financial asset, it does not retain control over the financial asset.

If the Group neither transfers nor retains substantially all the risks and rewards of ownership of a financial asset, and it retains control of the financial asset, it recognizes the financial asset to the extent of its continuing involvement in the transferred financial asset and recognizes an associated liability. The Group measures the relevant liabilities based on the following method: for transferred financial assets carried at amortized cost, the carrying amount of relevant liabilities is the carrying amount of financial assets transferred with continuing involvement less amortized cost of the Group's retained rights (if the Group retains relevant rights upon transfer of financial assets) with addition of amortized cost of obligations assumed by the Group (if the Group assumes relevant obligations upon transfer of financial assets). Relevant liabilities are not designated as financial liabilities at FVTPL.

FOR THE YEAR ENDED 31 DECEMBER 2021

### III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES - continued

### 10. Financial instruments - continued

#### 10.3 Transfer of financial assets - continued

For a transfer of a financial asset in its entirety that satisfies the derecognition criteria, the difference between (1) the carrying amount of the financial asset transferred at the derecognition date; and (2) the sum of the consideration received from the transfer of financial assets and any cumulative gain or loss allocated to the part derecognized which has been previously recognized in other comprehensive income, is recognized in profit or loss. If the financial assets transferred by the Group are designated as equity instrument investments at fair value through other comprehensive income that are not held for trading, the cumulative gains or losses previously recognized in other comprehensive income are transferred out and included in retained earnings.

If a part of the transferred financial asset qualifies for derecognition, the overall carrying amount of the financial asset prior to transfer is allocated between the part that continues to be recognized and the part that is derecognized, based on the respective fair value of those parts at the date of transfer. The difference between (1) the carrying amount allocated to the part derecognized on the date of derecognition; and (2) the sum of the consideration received for the part derecognized and any cumulative gain or loss allocated to the part derecognized which has been previously recognized in other comprehensive income, is recognized in profit or loss. If the financial assets transferred by the Group are designated as equity instrument investments at fair value through other comprehensive income that are not held for trading, the cumulative gains or losses previously recognized in other comprehensive income are transferred out and included in retained earnings.

For a transfer of a financial asset in its entirety that does not satisfy the derecognition criteria, the Group will continue to recognize the transferred financial asset in its entirety and recognize the consideration received as financial liabilities.

### 10.4 Classification of liabilities and equity

On initial recognition, financial instruments or their components issued by the Group are classified into financial liabilities or equity instruments on the basis of the substance of the contractual arrangements and the economic nature not only its legal form, together with the definition of financial liability and equity instrument.

## 10.4.1 Classification and measurement of financial liabilities

On initial recognition, financial liabilities are classified into financial liabilities at FVTPL and other financial liabilities.

FOR THE YEAR ENDED 31 DECEMBER 2021

### III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES - continued

### 10. Financial instruments - continued

10.4 Classification of liabilities and equity - continued

10.4.1 Classification and measurement of financial liabilities — continued

10.4.1.1 Financial liabilities at FVTPL

Financial liabilities at FVTPL consist of financial liabilities held for trading (including derivatives of financial liabilities) and those designated as at FVTPL. Except that the derivative financial liabilities are presented separately, financial liabilities at FVTPL are presented as held-for-trading financial liabilities.

A financial liability is classified as held-for-trading if one of the following conditions is satisfied:

- It has been acquired principally for the purpose of repurchasing in the near term;
- On initial recognition it is part of a portfolio of identified financial instruments that
  the Group manages together and there is objective evidence that the Group has
  a recent actual pattern of short-term profit-taking;
- It is a derivative that is not designated as a financial guarantee contract and effective as a hedging instrument.

A financial liability may be designated as at FVTPL upon initial recognition only when one of the following conditions is satisfied: (1) Such designation eliminates or significantly reduces a measurement or recognition inconsistency (2) The financial liability forms part of a group of financial liabilities or a group of financial assets and financial liabilities, which is managed and its performance is evaluated on a fair value basis, in accordance with the Group's documented risk management or investment strategy, and information about the grouping is reported to key management personnel on that basis. (3) The qualified hybrid contract which includes an embedded derivative.

Held-for-trading financial liabilities are subsequently measured at fair value. Any gains or losses arising from changes in the fair value or any dividend or interest expenses related to the financial liabilities are recognized in profit or loss.

FOR THE YEAR ENDED 31 DECEMBER 2021

## III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES - continued

10. Financial instruments - continued

10.4 Classification of liabilities and equity - continued

10.4.1 Classification and measurement of financial liabilities - continued

10.4.1.1 Financial liabilities at FVTPL — continued

For financial liabilities designated as at FVTPL, the changes in fair value arising from the Group's credit risk change are included in other comprehensive income, other changes in fair value are recognized in profit or loss. Upon derecognition of the above financial liabilities, cumulative changes in fair value arising from credit risk change that have previously recognized in other comprehensive income are transferred to retained earnings. Dividend or interest expenses related to such financial liabilities are included in profit or loss. If the accounting for the effect of the credit risk change of such financial liabilities based on the above method leads to or expands the accounting mismatch in profit or loss, the Group shall recognize all gains or losses (including the amount affected by the credit risk change) of such financial liabilities in profit or loss.

10.4.2 Derecognition of financial liabilities

10.4.2.1 Other financial liabilities

Other financial liabilities except for the financial liabilities arising from the transferred financial assets that do not qualify for derecognition or financial liabilities arising from continuing involvement in the transferred financial asset, and financial guarantee contracts, are classified as financial liabilities measured at amortized cost, and are subsequently measured at amortized cost, with gain or loss arising from derecognition or amortization recognized in profit or loss.

If the Group modifies or renegotiates the contract with the counterparty and the financial liability subsequently measured at amortized cost is not derecognized, but the cash flow of the contract changes, the Group shall re-calculate the carrying amount of the financial liability and recognize the relevant gains or losses in profit or loss of the period. The re-calculated carrying amount of the financial liability shall be determined by the Group according to the cash flow of the renegotiated or modified contract based on the present value discounted at the original effective interest rate of the financial liability. For all the costs or expenses arising from the modification or renegotiation of the contract, the Group shall adjust the modified carrying amount of the financial liability and amortize them within the remaining term of the financial liability.

FOR THE YEAR ENDED 31 DECEMBER 2021

### III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES - continued

### 10. Financial instruments - continued

## 10.4 Classification of liabilities and equity - continued

10.4.2 Derecognition of financial liabilities — continued

10.4.2.1 Other financial liabilities — continued

The Group derecognizes a financial liability (or part of it) when the underlying present obligation (or part of it) is discharged. An agreement between the Group (an existing borrower) and an existing lender to replace the original financial liability with a new financial liability with substantially different terms is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability.

When the Group derecognizes a financial liability or a part of it, it recognizes the difference between the carrying amount of the financial liability (or part of the financial liability) derecognized and the consideration paid (including any non-cash assets transferred or new financial liabilities assumed) in profit or loss.

## 10.4.3 Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities. Equity instruments issued (including refinanced), repurchased, sold and cancelled by the Group are recognized as changes in equity. Change in fair value of equity instruments is not recognized by the Group. Transaction costs related to equity transactions are deducted from equity.

The Group recognizes the distribution to holders of the equity instruments as distribution of profits, and dividends paid do not affect total amount of shareholders' equity.

## 10.5 Derivatives and embedded derivatives

Derivative financial instruments include interest rate swaps. Derivatives are initially measured at fair value at the date when the derivative contracts are entered into and are subsequently re-measured at fair value.

For hybrid contract constituted by embedded derivatives and host contract, if the host contract is a financial asset, the embedded derivative is not separated from the hybrid contract, and the hybrid contract shall be taken as a whole to apply to the accounting standards for the classification of financial assets.

FOR THE YEAR ENDED 31 DECEMBER 2021

### III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES - continued

### 10. Financial instruments - continued

### 10.5 Derivatives and embedded derivatives - continued

If the host contract included in the hybrid contract is not a financial asset and satisfies all the following criteria, the embedded derivative shall be separated from the hybrid contract by the Group and treated as a stand-alone derivative.

- (1) The economic characteristics and risks of the embedded derivative are not closely related to the economic characteristics and risks of the host contract.
- (2) A stand-alone instrument with the same terms as the embedded derivative conforms to the definition of a derivative.
- (3) The hybrid instrument is not designated as a financial asset or financial liability at FVTPL.

If the embedded derivative is separated from the hybrid contract, the host contract shall be accounted for in accordance with the appropriate standards. If the Group is unable to measure reliably the fair value of an embedded derivative on the basis of its terms and conditions, the fair value of the embedded derivative is the difference between the fair value of the hybrid contract and the fair value of the host. If the Group is still unable to measure the fair value of the embedded derivative separately either at acquisition or at a subsequent balance sheet date after the above methods are applied, it designates the entire hybrid contract as a financial instrument at FVTPL.

## 10.6 Offsetting financial assets and financial liabilities

Where the Group has a legal right that is currently enforceable to set off the recognized financial assets and financial liabilities, and intends either to settle on a net basis, or to realize the financial asset and settle the financial liability simultaneously, a financial asset and a financial liability shall be offset and the net amount is presented in the balance sheet. Except for the above circumstances, financial assets and financial liabilities shall be presented separately in the balance sheet and shall not be offset.

## 11. Financing with receivables

For the notes receivable classified as at fair value through other comprehensive income, the portion within one year (inclusive) since acquisition is presented as financing with receivables. For the relevant accounting policies, refer to Note III (10.1), (10.2) and (10.3).

FOR THE YEAR ENDED 31 DECEMBER 2021

### III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES - continued

### 12. Inventories

## 12.1 Categories of inventories

The Group's inventories mainly include raw materials, work in progress, finished goods, spare parts, auxiliary materials, etc. Inventories are initially measured at cost. Cost of inventories comprises all costs of purchase, costs of conversion and other expenditures incurred in bringing the inventories to their present location and condition.

## 12.2 Valuation method of inventories upon delivery

The actual cost of inventories upon delivery is calculated using the weighted average method.

## 12.3 Basis for determining net realizable value of inventories

At the balance sheet date, inventories are measured at the lower of cost and net realizable value. If the net realizable value is below the cost of inventories, a provision for decline in value of inventories is made.

Net realizable value is the estimated selling price in the ordinary course of business less the estimated costs of completion, the estimated costs necessary to make the sale and relevant taxes. Net realizable value is determined on the basis of clear evidence obtained, and takes into consideration the purposes of holding inventories and effect of post balance sheet events.

For large quantity and low unit price items of inventories, provision for decline in value is made based on categories of inventories. Provision for decline in value of other inventories is made based on the excess of cost of inventory over its net realizable value on an item-by-item basis.

After the provision for decline in value of inventories is made, if the circumstances that previously caused inventories to be written down below cost no longer exist so that the net realizable value of inventories is higher than their cost, the original provision for decline in value is reversed and the reversal is included in profit or loss for the period.

## 12.4 Inventory count system

The perpetual inventory system is maintained for stock system.

## 12.5 Amortization method for spare parts and auxiliary materials

Spare parts and auxiliary materials are amortized using the immediate write-off method.

FOR THE YEAR ENDED 31 DECEMBER 2021

### III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES - continued

### 13. Contract assets

## 13.1 Methods and standards for the recognition of contract assets

Contract assets are the rights of the Group to receive consideration for goods or services which have been transferred to a customer and which are subject to factors other than the passage of time. The Group's unconditional rights to collect consideration from clients (i.e., dependent only on the passage of time) are shown separately as receivables.

## 13.2 The determination of ECL and accounting treatment regarding to contract assets

For the determination of ECL and accounting treatment regarding to contract assets, please refer to Note (III) 10.2 "Impairment of financial instruments".

#### 14. Held-for-sale assets

When the Group recovers the carrying amount of an asset mainly by selling rather than continuing to use a non-current asset or disposal group, it is classified as held-for-sale.

Non-current assets or disposal groups classified as held-for-sale need to satisfy the following conditions: (1) according to the usual practice of selling such assets or disposal groups in similar transaction, they can be sold immediately in the current situation; (2) the probability of being sold is high, which means the Group has made a decision on a sale plan and obtained a definite purchase commitment, and the sale is expected to be completed within one year.

The Group measures the non-current assets or disposal groups classified as held for sale at the lower of their carrying amount and fair value less costs to sell. Where the carrying amount is higher than the net amount of fair value less costs to sell, carrying amount should be reduced to the net amount of fair value less costs to sell, and such reduction is recognized in impairment loss of assets and included in profit or loss for the period. Meanwhile, provision for impairment of held-for-sale assets is made. When there is increase in the net amount of fair value of non-current assets held for sale less costs to sell at the balance sheet date, the original deduction should be reversed in impairment loss of assets recognized after the classification of held-for-sale category, and the reversal amount is included in profit or loss for the period. No reversing in impairment loss of assets will be allowed before the classification of held-for-sale category.

Non-current assets classified as held-for-sale or non-current assets in disposal groups are not depreciated or amortized, and the interest and other costs of liabilities of disposal groups classified as held for sale are recognized on a recurring basis.

FOR THE YEAR ENDED 31 DECEMBER 2021

### III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES - continued

## 15. Long-term equity investments

## 15.1 Criteria for determining joint control and significant influence

Control exists when the investor has power over the investee; is exposed, or has rights, to variable returns from its involvement with the investee; and has the ability to use its power over the investee to affect its returns. Joint control is the contractually agreed sharing of control over an economic activity, and exists only when decisions relating to the activity require the unanimous consent of the parties sharing control. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies. When determining whether an investing enterprise is able to exercise control or significant influence over an investee, the effect of potential voting rights of the investee (for example, warrants and convertible debts) held by the investing enterprises or other parties that are currently exercisable or convertible shall be considered.

## 15.2 Determination of initial investment cost

For a long-term equity investment acquired through business combination not involving enterprises under common control, the investment cost of the long-term equity investment on the purchase date is the cost of acquisition.

The intermediary expenses incurred by the acquirer in respect of audit, legal services, valuation and consultancy services, etc. and other associated administrative expenses attributable to the business combination are recognized in profit or loss when they are incurred.

Long-term equity investment acquired otherwise than through a business combination is initially measured at its cost.

### 15.3 Subsequent measurement and recognition of profit or loss

15.3.1 Long-term equity investments accounted for using the cost method

The Company's separate financial statements adopt cost method to account for the long-term equity investments of subsidiaries. A subsidiary is an investee that is controlled by the Group.

Under the cost method, a long-term equity investment is measured at initial investment cost. When additional investment is made or the investment is recouped, the cost of the long-term equity investment is adjusted accordingly. Investment income is recognized in the period in accordance with the attributable share of cash dividends or profit distributions declared by the investee.

FOR THE YEAR ENDED 31 DECEMBER 2021

### III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES - continued

## 15. Long-term equity investments - continued

## 15.3 Subsequent measurement and recognition of profit or loss - continued

15.3.2 Long-term equity investments accounted for using the equity method

The Group accounts for investment in associates and joint ventures using the equity method. An associate is an entity over which the Group has significant influence; a joint venture refers to a joint venture arrangement in which the Group has rights only to the net assets of the arrangement.

Under the equity method, where the initial investment cost of a long-term equity investment exceeds the Group's share of the fair value of the investee's identifiable net assets at the time of acquisition, no adjustment is made to the initial investment cost. Where the initial investment cost is less than the Group's share of the fair value of the investee's identifiable net assets at the time of acquisition, the difference is recognized in profit or loss for the period, and the cost of the long-term equity investment is adjusted accordingly.

Under the equity method, the Group recognizes its share of the net profit or loss and other comprehensive income of the investee for the period as investment income and other comprehensive income for the period. Meanwhile, carrying amount of long-term equity investments is adjusted: the carrying amount of long-term equity investments is decreased in accordance with its share of the investee's declared profit or cash dividends; Other changes in owners' equity of the investee other than net profit or loss and other comprehensive income are correspondingly adjusted to the carrying amount of the long-term equity investments, and recognized in the capital reserve. The Group recognizes its share of the investee's net profit or loss based on the fair value of the investee's individual identifiable assets, etc. at the acquisition date after making appropriate adjustments. When the investees' accounting policies and accounting period are inconsistent with those of the Company, the Company recognizes investment income and other comprehensive income after making appropriate adjustments to conform to the Company's accounting policies and accounting period. However, unrealized gains or losses resulting from the Group's transactions with its associates and joint ventures, which do not constitute a business, are eliminated based on the proportion attributable to the Group and then investment gains or losses are recognized. However, unrealized losses resulting from the Group's transactions with its associates and joint ventures which represent impairment losses on the transferred assets are not eliminated.

## 15.4 Disposal of long-term equity investments

On disposal of a long term equity investment, the difference between the proceeds actually received and receivable and the carrying amount is recognized in profit or loss for the period.

FOR THE YEAR ENDED 31 DECEMBER 2021

## III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES - continued

### 16. Fixed assets

## (1) Recognition criteria for fixed assets

Fixed assets are tangible assets that are held for use in the production or supply of goods or services, for rental to others, or for administrative purposes, and have useful lives of more than one accounting year. Fixed assets comprise buildings, machinery and equipment, office equipment and motor vehicles. A fixed asset is recognized only when it is probable that economic benefits associated with the asset will flow to the Group and the cost of the asset can be measured reliably. Fixed assets are initially measured at cost.

Subsequent expenditures incurred for the fixed asset are included in the cost of the fixed asset if it is probable that economic benefits associated with the asset will flow to the Group and the subsequent expenditures can be measured reliably. Meanwhile the carrying amount of the replaced part is derecognized. Other subsequent expenditures are recognized in profit or loss in the period in which they are incurred.

## (2) Depreciation method

A fixed asset is depreciated over its useful life using the straight-line method since the month subsequent to the one in which it is ready for intended use. The depreciation method, useful life, estimated net residual value rate and annual depreciation rate of each category of fixed assets are as follows:

The useful life, estimated net residual value rate and annual depreciation rate of fixed assets are as follows:

|                         |                      | Depreciation   | Residual   | Annual depreciation |
|-------------------------|----------------------|----------------|------------|---------------------|
| Category                | Depreciation method  |                | value rate | rate                |
| Buildings               | Straight-line method | 25-40<br>years | 4%         | 2.4% to 3.8%        |
| Machinery and equipment | Straight-line method | 5-18 years     | 4%         | 5.3% to 19.2%       |
| Office equipment        | Straight-line method | 5-10 years     | 4%         | 9.6% to 19.2%       |
| Motor vehicles          | Straight-line method | 4-12 years     | 4%         | 8.0% to 24.0%       |

Estimated net residual value of a fixed asset is the estimated amount that the Group would currently obtain from disposal of the asset, after deducting the estimated costs of disposal, if the asset were already of the age and in the condition expected at the end of its useful life.

FOR THE YEAR ENDED 31 DECEMBER 2021

### III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES - continued

## 16. Fixed assets - continued

## (3) Other explanations

If a fixed asset is upon disposal or no future economic benefits are expected to be generated from its use or disposal, the fixed asset is derecognized. When a fixed asset is sold, transferred, retired or damaged, the amount of any proceeds on disposal of the asset net of the carrying amount and related taxes is recognized in profit or loss for the period.

The Group reviews the useful life and estimated net residual value of a fixed asset and the depreciation method applied at least once at each financial year-end, and accounts for any change as a change in accounting estimate.

### 17. Construction in progress

Construction in progress is measured at its actual costs. The actual costs include various construction expenditures during the construction period, borrowing costs capitalized before it is ready for intended use and other relevant costs. Construction in progress is not depreciated. Construction in progress is transferred to a fixed asset when it is ready for intended use.

## 18. Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying asset are capitalized when expenditures for such asset and borrowing costs are incurred and activities relating to the acquisition, construction or production of the asset that are necessary to prepare the asset for its intended use or sale have commenced. Capitalization of borrowing costs ceases when the qualifying asset being acquired, constructed or produced becomes ready for its intended use or sale. If the assets eligible for capitalization are abnormally interrupted in the process of acquisition and construction or production, and the interruption continues for more than 3 months, the capitalization of borrowing costs shall be suspended until the acquisition and construction of assets or production activities restart. Other borrowing costs are recognized as expenses in the period in which they are incurred.

Where funds are borrowed under a specific-purpose borrowing, the amount of interest to be capitalized is the actual interest expense incurred on that borrowing for the period less any bank interest earned from depositing the borrowed funds before being used on the asset or any investment income on the temporary investment of those funds. Where funds are borrowed under general-purpose borrowings, the Group determines the amount of interest to be capitalized on such borrowings by applying a capitalization rate to the weighted average of the excess of cumulative expenditures on the asset over the amounts of specific-purpose borrowings. The capitalization rate is the weighted average of the interest rates applicable to the general-purpose borrowings.

FOR THE YEAR ENDED 31 DECEMBER 2021

### III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES - continued

## 19. Intangible assets

## (1) Measurement method, useful life and test on impairment of intangible assets

Intangible assets include land use rights, concession right, mining rights, mine restoration fees, and computer software, etc.

An intangible asset is measured initially at cost. When an intangible asset with finite useful life is available for use, its original cost is amortized over its estimated useful life using the straight-line method. The estimated useful life of each category of intangible assets is as follows:

| Category                                | Estimated useful life |  |  |
|---|-----------------------|--|--|
| Land use rights                         | 40-50 years           |  |  |
| Concession right                        | 10-20 years           |  |  |
| Mining rights and mine restoration fees | 5-50 years            |  |  |
| Computer software and others            | 5-10 years            |  |  |

The Group is entitled to collect fees from the subjects to which the services are provided within a certain period of time after the relevant infrastructure is completed, but the amount of the fees is uncertain. The Group shall initially recognize the intangible assets based on the fair value of the consideration payable for the construction services. The concession right is amortized using the straight-line method over the operation period agreed in the contract.

For an intangible asset with finite useful life, the Group reviews the useful life and amortization method at the end of the period, and makes adjustments when necessary.

## (2) Accounting policies for internal research and development expenditure

Expenditure during the research phase is recognized in profit or loss for the period in which it is incurred.

Expenditure during the development phase that meets all of the following conditions at the same time is recognized as intangible asset. Expenditure during development phase that does not meet the following conditions is recognized in profit or loss for the period.

- 1) it is technically feasible to complete the intangible asset so that it will be available for use or sale;
- 2) the Group has the intention to complete the intangible asset and use or sell it;
- 3) the Group can demonstrate the ways in which the intangible asset will generate economic benefits, including the evidence of the existence of a market for the output of the intangible asset or the intangible asset itself or, if it is to be used internally, the usefulness of the intangible asset;

FOR THE YEAR ENDED 31 DECEMBER 2021

### III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES - continued

### 19. Intangible assets - continued

- (2) Accounting policies for internal research and development expenditure continued
  - 4) the availability of adequate technical, financial and other resources to complete the development and the ability to use or sell the intangible asset;
  - 5) the expenditure attributable to the intangible asset during its development phase can be reliably measured.

If the expenditures cannot be distinguished between the research phase and development phase, the Group recognizes all of them in profit or loss for the period. Costs of intangible assets generated from internal development activities only include total expenditures incurred from the point of time that qualify for capitalization till the intangible asset is ready for intended use. Expenditures which have been recognized as expenses into profit or loss before the same intangible asset that qualify for capitalization during the development course will not be adjusted any longer.

## 20. Impairment of long-term assets

The Group reviews the long-term equity investments, fixed assets, construction in progress and intangible assets with finite useful lives at each balance sheet date to determine whether there is any indication that they have suffered an impairment loss. If any impairment indication appears, the recoverable amount will be estimated. Intangible assets with indefinite useful life and intangible assets not yet available for use are tested for impairment annually, irrespective of whether there is any indication that the assets may be impaired.

Recoverable amount is estimated on an individual basis. If it is not practical to estimate the recoverable amount of an individual asset, the recoverable amount of the asset group to which the asset belongs will be estimated. The recoverable amount of an asset or asset group is the higher of its fair value less costs of disposal and the present value of the future cash flows expected to be derived from the asset.

If the recoverable amount of the asset is less than its carrying amount, a provision for impairment losses in respect of the deficit is recognized in profit or loss for the period.

When determining the impairment loss of the assets related to the contract cost, the Group shall first determine the impairment loss of the other assets related to the contract that are recognized in accordance with the accounting standards of other relevant enterprises. Then, for the assets related to the contract cost, if the carrying amount is higher than the difference between the following two items, the excess part shall be withdrawn as impairment provision and recognized as the impairment loss of the asset: (1) the remaining consideration that the Group is expected to obtain from the transfer of the goods or services related to the asset; (2) estimate the costs to be incurred for the transfer of the relevant goods or services.

FOR THE YEAR ENDED 31 DECEMBER 2021

### III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES - continued

## 20. Impairment of long-term assets - continued

Goodwill is tested for impairment at least at the end of each year. For the purpose of impairment testing, goodwill is considered together with the related asset groups and portfolios, i.e., goodwill is reasonably allocated to the related asset groups and portfolios or each of asset group or portfolio expected to benefit from the synergies of the combination. An impairment loss is recognized if the recoverable amount of the asset groups and portfolios (including goodwill) is less than its carrying amount. The impairment loss is firstly allocated to reduce the carrying amount of any goodwill allocated to such asset groups and portfolios, and then to the other assets of the group pro-rata on the basis of the carrying amount of each asset (other than goodwill) in the group.

Except for impairment loss of assets related to contract costs, once the above impairment loss is recognized, it cannot be reversed in the subsequent accounting periods. After the provision for impairment of assets related to contract costs is made, if the factors of impairment in prior periods change so that the difference between the above two is higher than the carrying amount of the asset, the original provision for impairment of the asset is reversed and recognized in profit or loss for the period, provided that the carrying amount of the asset after the reversal does not exceed the carrying amount of the asset at the date of reversal assuming no provision for impairment was made.

## 21. Long-term prepaid expenses

Long-term prepaid expenses represent expenses incurred that should be borne and amortized over the current and subsequent periods (together of more than one year), including mine development costs, relocation expenses and so on. Mine development costs refer to expenditures in connection with infrastructure, exploitation preparation and removal of debris and trees on mines, removal of non-mining raw materials and impurities from ores, after obtaining the right of mining, so as to make it ready for exploitation, and are capitalized in the period in which they are incurred. Long-term prepaid expenses are amortized using the straight-line method over the expected periods in which benefits are derived.

## 22. Contract liabilities

Contract liabilities refer to the obligations of the Group to transfer goods or services to clients for consideration received or receivable from clients. Contract assets and contract liabilities under the same contract are shown on a net basis.

FOR THE YEAR ENDED 31 DECEMBER 2021

### III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES - continued

## 23. Employee benefits

## (1) Accounting treatment of short-term benefits

Short-term benefits include wages, bonuses, allowances and subsidies, employee welfare, medical insurance, employment injury insurance, maternity insurance, housing provident fund, trade unions and education funds. Actually occurred short-term employee benefits are recognized as liabilities, with a corresponding charge to the profit or loss for the period or in the costs of relevant assets in the accounting period in which employees provide services to the Group. Staff welfare expenses incurred by the Group are recognized in profit or loss for the period or the costs of relevant assets based on the actually occurred amounts when it actually occurred. Non-monetary staff welfare expenses are measured at fair value.

## (2) Accounting treatment of post-employment benefits

Post-employment benefits are classified into defined contribution plans and defined benefit plans.

The Group's defined contribution plans include pension insurance and unemployment insurance, etc. During the accounting period in which employees provide services to the Group, amount which should be paid according to defined contribution plans is recognized as liabilities, and recognized in profit or loss or related costs of assets.

The Group's defined benefit plans include subsidies for retirees and benefits for early retired employees, etc. For defined benefit plans, the Group calculates defined benefit plan liabilities using projected unit credit method and the service cost resulting from employee service in the current period is recorded in profit or loss or the cost of related assets. Defined benefit costs are categorized as follows:

- Service cost (including current service cost, past service cost, as well as gains and losses on settlements);
- Net interest of net liabilities or assets of defined benefit plans (including interest income of planned assets, interest expenses of defined benefit plan liabilities and effect of asset ceiling); and
- Changes arising from remeasurement of net liabilities or net assets of defined benefit plans.

Service costs and net interest of net liabilities and net assets of defined benefit plans are recognized in profit or loss of current period or costs of related assets. Remeasurements of the net defined benefit liability (asset) (including actuarial gains and losses, the return on planned assets, excluding amounts included in net interest on the net defined benefit liability (asset), and any change in the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability (asset)) are recognized in other comprehensive income.

FOR THE YEAR ENDED 31 DECEMBER 2021

### III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES - continued

## 23. Employee benefits - continued

## (3) Accounting treatment of termination benefits

A liability for a termination benefit is recognized in profit or loss at the earlier of when the Group cannot unilaterally withdraw from the termination benefits offered as a result of termination of employment or redundancy offer, when it recognizes any costs or expenses in relation to the restricting that involving the payment of termination benefits.

## Early retirement benefits

The Group provides early retirement benefits to employees who accept voluntary redundancy in exchange for these benefits. Early retirement benefits are the payments of wages or salaries and social insurance for the employees who accept termination plan before the normal retire age. The early retirement benefit plan covers the period from the starting date of termination benefit plan to the normal retire age during which retirement benefits will be paid to the early retired employees. The Group accounts for the early retirement benefits according to the normal standards, when it meets the relevant condition to recognize the early retirement benefits, where the Group terminates the employment relationship with employees before the end of the employment contract, a provision for early retirement benefits for the compensation arising from termination of the employment relationship with employees to the retire age is recognized as liabilities, with a corresponding charge to profit or loss. The difference from change of actuarial assumptions and adjustment on benefit is recognized in profit or loss for the period.

Termination benefits required to be paid within one year starting from the balance sheet date are presented as current liabilities.

## 24. Provisions

Provisions are recognized when the Group has a present obligation related to the contingencies (pending litigation or mine restoration), it is probable that an outflow of economic benefits will be required to settle the obligation, and the amount of the obligation can be measured reliably.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the balance sheet date, taking into account factors pertaining to a contingency such as the risks, uncertainties and time value of money. Where the effect of the time value of money is material, the amount of the provision is determined by discounting the related future cash outflows.

## 25. Share-based payments

A share-based payment is a transaction which the Group grants equity instruments, or incurs liabilities for amounts that are determined based on the price of equity instruments, in return for services rendered by employees.

FOR THE YEAR ENDED 31 DECEMBER 2021

### III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES - continued

## 25. Share-based payments - continued

## 25.1 Equity-settled share-based payments

Equity-settled share-based payments in exchange for services rendered by employees are measured at the fair value of the equity instruments granted to employees at the grant date. Such amount is recognized as related costs or expenses on a straight-line basis over the vesting period, based on the best estimate of the number of equity instruments expected to vest, with a corresponding increase in capital reserve.

At each balance sheet date during the vesting period, the Group makes the best estimate according to the subsequent latest information of change in the number of employees who are granted with options that may vest, etc. and revises the number of equity instruments expected to vest. The effect of the above estimate is recognized as related costs or expenses, with a corresponding adjustment to capital reserve.

## 25.2 Cash-settled share-based payments

Cash-settled share-based payments are measured at the fair value of the liabilities incurred by the Group, which are determined based on the price of the share or other equity instruments. Until the liability is settled, the Group re-measures the fair value of the liability at each balance sheet date and at the date of settlement, with any changes in fair value recognized in profit or loss for the period.

### 26. Preference shares and other financial instruments

Other financial instruments including preference shares issued by the Group are measured as equity instruments when they satisfy all the following criteria:

- (1) The financial instruments do not include cash or other financial assets delivered to other parties, or contractual obligations to exchange financial assets or liabilities with other parties under potential disadvantages;
- (2) When the Group's own equity instrument is required to or available to be used for settlement of the financial instrument, it does not include the contractual obligations to settle the Group's own variable equity instruments if it is a non-derivative instrument; if it is a derivative instrument, the Group can only settle the instrument by exchanging certain amount of its own equity instruments with fixed amount of cash or other financial assets.

Other preference shares issued by the Group that do not satisfy the above criteria are classified as financial liabilities.

For preference shares classified as financial liabilities, any gains or losses arising from changes in fair value and the dividends or interest expenses related to such financial liabilities, and any gains or losses arising from repurchase or redemption are recognized in profit or loss for the period.

FOR THE YEAR ENDED 31 DECEMBER 2021

### III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES - continued

### 27. Revenue

## 27.1 Accounting policies used for revenue recognition and measurement

The Group's revenue is mainly from sales of building materials including cement, concrete, clinker and aggregate, etc.

The Group shall recognize revenue based on transaction price allocated to the performance obligation when the Group satisfies a performance obligation in the Contract, namely, when the customer obtains control over relevant goods or services. Performance obligations refer to commitment of the Group to transfer a distinct good or service to the customer. The transaction price is the amount of consideration to which the Group expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties and amounts expected to be refunded to a customer.

It is a performance obligation satisfied during a period of time if one of the following conditions is met, and the Group will recognize revenue during a period of time based on the progress of performance: (i) the customer obtains and consumes the economic benefits at the same time of the Group's performance; (ii) the customer is able to control goods in progress during the Group's performance; (iii) goods generated during the Group's performance have irreplaceable utilization, and the Group is entitled to the payment for the performance completed to date. Otherwise, the Group will recognize revenue at the point in time when the customer obtains control over relative goods or services.

The Group will recognize revenue at the point in time when the customer obtains control over relative goods or services. When judging whether the customer has obtained control over the goods or services, the Group will consider the following indications: (i) the Group has a present right of receivables for the goods or services; (ii) the Group has transferred the physical goods to the customer; (iii) The Group has transferred the legal title or the significant risks and rewards of ownership of the goods to the customer; (iv) the customer has accepted the goods or services, etc.

If there are two or more of performance obligations included in the contract, at the contract inception, the Group allocates the transaction price to each single performance obligation based on the relative stand-alone selling price of good or service promised. However, if there is conclusive evidence indicating that the contract discount or variable consideration relates one or more (not the whole) performance obligations in the contract, the Group will allocate the contract discount or variable consideration to one or more performance obligations related. Stand-alone selling price refers to the price at which sales of goods or services separately to a customer. If the stand-alone selling price is not directly observed, the Group estimates the stand-alone selling price through comprehensive consideration of all reasonably acquired relative information and maximum use of observable inputs.

FOR THE YEAR ENDED 31 DECEMBER 2021

### III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES - continued

### 27. Revenue - continued

## 27.1 Accounting policies used for revenue recognition and measurement - continued

In case of the existence of variable consideration (such as sales discount etc.) in the contract, the Group shall determine the best estimate of variable consideration based on the expected value or the most likely amount. The transaction price includes variable consideration only to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognize will not occur when the uncertainty is subsequently resolved. At each balance sheet date, the Group re-estimates the amount of variable consideration which should be included in transaction price.

For sales with quality warranty terms, if the quality warranty provides customer with a separate service in addition to the assurance that the good or service complies with agreed-upon specifications, such quality warranty constitutes a single performance obligation. Otherwise, the Group will account for the quality warranty liability in accordance with the Accounting Standards for Business Enterprises No. 13 — Contingencies.

In case of the existence of a significant financing component in the contract, the Group shall determine the transaction price at an amount that the customer would have paid cash when obtaining the control over the goods or services. Differences between transaction price and contract consideration are amortized using effective interest method during the contract life. At contract inception, the Group estimates the period between the customer obtain the control of good or service and the time customer pays for that good or service is one year or less, and does not consider the significant component in the contract.

When a customer pays consideration in advance for a good or service, the advance payment is first recognized as a contract liability and then transferred to revenue when the related performance obligation has been satisfied. When the advance payment is non refundable and it is probable that the customer may not exercise all or part of its contractual rights, the Group recognizes the expected amounts as revenue in proportion to the pattern of rights exercised by the customer, if the Group expects to be entitled to the amounts relating to the customer's unexercised contractual rights; otherwise, the Group recognizes the expected amount as revenue when the likelihood of the customer's demanding to satisfy the remaining performance obligation becomes remote.

## 28. Contract cost

## 28.1 Costs of obtaining a contract

The incremental costs of obtaining a contract (i.e. it would not have incurred if the contract had not been obtained) are recognized as an asset if they are expected to be recovered, amortized to profit and loss on the basis that is consistent with the revenue recognition of goods or services to which the asset relates. If the amortization period of the asset is less than one year, it will be recognized in profit or loss when incurred. Other costs incurred to obtain the contract are recognized in profit or loss when incurred, unless those costs are explicitly chargeable to the customer.

FOR THE YEAR ENDED 31 DECEMBER 2021

## III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES - continued

### 28. Contract cost

#### 28.2 Costs to fulfil a contract

If the costs incurred in fulfilling a contract are not within the scope of accounting standards for the business enterprises other than Revenue Standard, the costs to fulfill a contract will be recognized as an asset only if those costs meet all of the following criteria: (1) the costs relate directly to a contract or to an anticipated contract that the Group can specifically identify; (2) the costs generate or enhance resources of the Company that will be used in satisfying performance obligations in the future; and (3) the costs are expected to be recovered. The aforesaid asset shall be amortized on a basis that is consistent with the revenue recognition of the goods or services to which the asset relates and recognized in profit or loss for the period.

### 29. Government grants

Government grants are transfer of monetary assets and non-monetary assets from the government to the Group at no consideration. A government grant is recognized only when the Group can comply with the conditions attaching to the grant and the Group will receive the grant.

If a government grant is in the form of a monetary asset, it is measured at the amount received or receivable.

## 29.1 Determining basis and accounting treatment for government grants related to assets

The government grants related to assets refer to the government grants obtained by the Group for purchase or construction or forming the long-term assets by other ways.

Government grants related to assets are recognized as deferred income, and systematically amortized to profit or loss within the useful life of the related asset.

## 29.2 Determining basis and accounting treatment for government grants related to income

The government grants related to income refer to all the government grants except those related to assets.

For a government grant related to income, if the grant is a compensation for related expenses or losses to be incurred in subsequent periods, the grant is recognized as deferred income and recognized in profit or loss over the periods in which the related costs or losses are recognized; if the grant is a compensation for related expenses or losses already incurred, the grant is recognized immediately in profit or loss.

A government grant related to the Group's daily activities is recognized in other income based on the substance of economic activities. A government grant not related to the Group's daily activities is recognized in non-operating income and expenses.

Finance discount received by the Group are deducted in borrowing expenses.

FOR THE YEAR ENDED 31 DECEMBER 2021

### III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES - continued

#### 30. Deferred tax assets/Deferred tax liabilities

The income tax expenses include current income tax and deferred income tax.

#### 30.1 Current income tax

At the balance sheet date, current income tax liabilities (or assets) for the current and prior periods are measured at the amount expected to be paid (or recovered) according to the requirements of tax laws.

#### 30.2 Deferred tax assets and deferred tax liabilities

For temporary differences between the carrying amounts of certain assets or liabilities and their tax base, or between the nil carrying amount of those items that are not recognized as assets or liabilities and their tax base that can be determined according to tax laws, deferred tax assets and liabilities are recognized using the balance sheet liability method.

Deferred tax is generally recognized for all temporary differences. Deferred tax assets for deductible temporary differences are recognized to the extent that it is probable that taxable profits will be available against which the deductible temporary differences can be utilized. However, for temporary differences associated with the initial recognition of goodwill and the initial recognition of an asset or liability arising from a transaction (not a business combination) that affects neither the accounting profit nor taxable profits (or deductible losses) at the time of transaction, no deferred tax asset or liability is recognized.

For deductible losses and tax credits that can be carried forward, deferred tax assets are recognized to the extent that it is probable that future taxable profits will be available against which the deductible losses and tax credits can be utilized.

Deferred tax liabilities are recognized for taxable temporary differences associated with investments in subsidiaries and associates, except where the Group is able to control the timing of the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with investments in subsidiaries, associates and joint ventures are only recognized to the extent that it is probable that there will be taxable profits against which to utilize the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

At the balance sheet date, deferred tax assets and liabilities are measured at the tax rates, according to tax laws, that are expected to apply in the period in which the asset is realized or the liability is settled.

Current and deferred tax expenses or income are recognized in profit or loss for the period, except when they arise from transactions or events that are directly recognized in other comprehensive income or in shareholders' equity, in which case they are recognized in other comprehensive income or in shareholders' equity; and when they arise from business combinations, in which case they adjust the carrying amount of goodwill.

FOR THE YEAR ENDED 31 DECEMBER 2021

## III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES - continued

### 30. Deferred tax assets/Deferred tax liabilities - continued

### 30.2 Deferred tax assets and deferred tax liabilities - continued

At the balance sheet date, the carrying amount of deferred tax assets is reviewed and reduced if it is no longer probable that sufficient taxable profits will be available in the future to allow the benefit of deferred tax assets to be utilized. Such reduction in amount is reversed when it becomes probable that sufficient taxable profits will be available.

## 30.3 Offsetting income tax

When the Group has a legal right to settle on a net basis and intends either to settle on a net basis or to realize the assets and settle the liabilities simultaneously, current tax assets and current tax liabilities are offset and presented on a net basis.

When the Group has a legal right to settle current tax assets and liabilities on a net basis, and deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities which intend either to settle current tax assets and liabilities on a net basis or to realize the assets and liabilities simultaneously, in each future period in which significant amounts of deferred tax assets or liabilities are expected to be reversed, deferred tax assets and deferred tax liabilities are offset and presented on a net basis.

### 31. Leases

A lease is a contract whereby the lessor conveys to the lessee in return for a consideration the right to use an asset for an agreed period of time.

The Group assesses whether a contract is or contains a lease at inception date. Such contract will not be reassessed unless the terms and conditions of the contract are subsequently changed.

### 31.1 The Group as a lessee

## 31.1.1 Separating components of a lease

If the contract contains one or more lease and non-lease components, the Group will separate the individual lease and non-lease components and allocate contract consideration according to the relative proportion of the sum of the stand-alone prices of the lease components and the stand-alone prices of the non-lease components.

FOR THE YEAR ENDED 31 DECEMBER 2021

### III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES - continued

### 31. Leases - continued

## 31.1 The Group as a lessee - continued

31.1.2 Right-of-use assets

Except for short-term leases and leases of low-value assets, the Group recognizes the right-of-use assets for leases at the commencement date of the lease. The commencement date of the lease is the date on which the lessor makes an underlying asset available for use by the Group. The Group measures the right-of-use assets at cost. The cost of right-of-use assets comprises:

- the amount of the initial measurement of the lease liabilities;
- any lease payments made at or before the commencement date, less any lease incentives (if any).

The Group depreciates right-of-use assets by reference to the relevant depreciation provisions of the ASBEs No. 4-Fixed Assets. The right-of-use assets are depreciated over the remaining useful lives of the leased assets where the Group is reasonably certain to obtain the ownership of the underlying assets at the end of the lease term. Otherwise, right-of-use assets are depreciated over the shorter of the lease term and the remaining useful lives of the leased assets.

The Group determines whether the right-of-use assets have been impaired and makes accounting treatment in accordance with the relevant provisions of the "ASBEs No. 8 — Impairment of Assets".

## 31.1.3 Lease liabilities

Except for short-term leases and leases of low-value assets, at the commencement date of the lease, the Group measures the lease liabilities at the present value of the lease payments that are not paid at that date. In calculating the present value of lease payments, the Group uses the interest rate implicit in the lease as the discount rate. The Group uses the incremental borrowing rate if the interest rate implicit in the lease is not readily determinable.

Lease payments refer to payments relating to the right to use leased assets during the lease term which are made by the Group to the lessor, including: fixed payments and in-substance fixed payments, less any lease incentives (if any).

After the commencement date of the lease, the Group calculates interest expenses of lease liabilities for each period of the lease term based on fixed periodic rate, and recognizes such expenses in profit or loss or cost of related assets.

FOR THE YEAR ENDED 31 DECEMBER 2021

### III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES - continued

### 31. Leases - continued

## 31.1 The Group as a lessee - continued

31.1.3 Lease liabilities - continued

After the commencement date of the lease, due to the changes in the lease term, the Group remeasures the lease liabilities based on the present value calculated by the lease payments after the change and the revised discount rate, and adjusts the right-of-use assets accordingly. If the carrying amount of the right-of-use assets has been reduced to zero, but the lease liabilities need to be reduced further, the Group will recognize the difference in profit or loss for the period:

### 31.1.4 Short-term leases and leases of low-value assets

The Group chooses not to recognize right-of-use assets and lease liabilities for short-term leases of machinery and equipment and building and leases of low-value assets. A short-term lease is a lease that, at the commencement date, has a lease term of 12 months or less and does not contain a call option. A lease of low-value assets, is a lease that the single underlying asset, when is new, is of low value. For short-term leases and leases of low-value assets, the Group recognizes the lease payments in profit or loss, or in the cost of relevant assets on a straight-line basis over each period within the lease term.

### 31.1.5 Lease modification

The Group accounts for a lease modification as a separate lease if:

- The lease modification expanded the scope of the lease by adding the right-of-use of one or more leased assets;
- The increased consideration is equivalent to the amount of stand-alone price of the expanded lease scope adjusted according to the contract.

If the lease modification is not accounted for as an individual lease, on the effective date of the lease modification, the Group reallocates the consideration of the contract after the change, re-determines the lease term, and re-measures lease liabilities based on the changed lease payments and the present value calculated by the revised discount rate.

If the lease modification results in a reduction in the lease scope or lease term, the carrying amount of the right-of-use assets will be reduced, and the gains or losses relevant to the lease partially of fully terminated will be included in profit or loss for the period; for other lease modifications resulting in the remeasurement of lease liabilities, the carrying amount of right-of-use assets is adjusted accordingly.

FOR THE YEAR ENDED 31 DECEMBER 2021

### III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES - continued

### 31. Leases - continued

## 31.2 The Group as a lessor

31.2.1 Classification of leases

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

31.2.1.1 The Group as a lessor under finance leases

Rental income from operating leases is recognized in profit or loss on a straight-line basis over the term of the relevant lease. Initial direct costs related to operating leases incurred by the Group are capitalized when incurred, and are amortized on the same basis as recognition of rental income over the lease term and recognized in profit or loss in installments.

The variable receipts of lease received by the Group that are related to operating leases and not included in receipts of lease are recognized in profit or loss for the period when they are incurred.

31.2.2 Sale and leaseback transactions

The Group acts as the seller and lessee.

The Group assesses whether the transfer of assets in a sale and leaseback transaction is a sale in accordance with the ASBEs No. 14 — Revenue. If the transfer of the asset does not belong to sales, the Group shall continue to recognize the transferred asset, and at the same time recognize a financial liability equal to the transfer income, and make accounting treatment of the financial liability in accordance with the ASBEs No. 22 — Recognition and Measurement of Financial Instruments. If the transfer of the asset belongs to sales, the Group shall measure the right-of-use assets formed by the sale and leaseback according to the part of the carrying amount of the original asset which is related to the use right obtained by the leaseback, and recognize the relevant profit or loss only on the rights transferred to the lessor.

FOR THE YEAR ENDED 31 DECEMBER 2021

### III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES - continued

## 32. Other significant accounting policies and accounting estimates

The Group continually evaluates the critical accounting estimates and key judgments applied based on historical experience and other factors, including expectations of future events that are believed to be reasonable.

The critical accounting estimates and key judgements that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are outlined below:

## (1) Accounting estimate on impairment of goodwill

In assessing the impairment of goodwill, it is required to calculate the present value of estimated future cash flows expected to be derived from the related asset groups or asset group portfolio, including the prediction of the future cash flows of the asset groups or asset group portfolio, and determine an appropriate pre-tax discount rate, which is able to reflect the time value of money and specific risks related to assets. The management reviews the significant estimates and assumptions at the end of each year, and recognizes the impairment of goodwill in profit or loss of the period.

Changes in the estimate of key parameters or assumptions such as the revenue growth rate, the gross profit margin and the discount rate adopted by the management in the calculation of the future cash flows of the asset groups and asset group portfolio may cause significant adjustments to the result of impairment of goodwill.

If the effective gross profit margin, the growth rate or the pre-tax discount rate is above or below the management's estimate, the provision for impairment losses of goodwill that has been previously made cannot be reversed by the Group.

### (2) Provision for ECL of accounts receivable

In the evaluation of the ECL of accounts receivable, the Group needs to summarize the existing information and use significant accounting estimates, such as the aging of accounts receivable and history recovery rates, and review the amount of lifetime ECL of accounts receivable in combination with the forward-looking information, such as the current external market environment and changes in customer situation to estimate the amount of ECL of accounts receivable. The Group regularly monitors and reviews assumptions relating to the calculation of history recovery rates and ECL.

FOR THE YEAR ENDED 31 DECEMBER 2021

### III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES - continued

### 32. Other significant accounting policies and accounting estimates - continued

## (3) Deferred taxation

Deferred tax assets arising from related accumulated deductible losses, tax credits and other deductible temporary differences have been recognized on respective dates of financial statements. The estimate for deferred tax assets requires an estimate of taxable income and applicable tax rates in future years. The realization of deferred tax assets depends on whether the Group is likely to obtain sufficient taxable income and taxable temporary differences in the future. Income tax expense (income) and balance of deferred tax may be variable due to changes in applicable tax rates and reversal of temporary differences. Changes in estimate mentioned above may cause significant adjustment to deferred tax.

## (4) Provisions - Mine restoration obligations

The obligations of mine restoration and environmental clean-up are determined by the management based on the historical experience and best estimate of future expenditure after taking into account the existing laws and regulations with expected expenditure discounted to its net present value. With the progress of the current mining activities and the revision and improvement of relevant laws and regulations, the estimation for the related cost may be revised constantly when the restoration plan becomes evident.

## 33. Changes in significant accounting policies and accounting estimates

## 33.1 New Lease Standards

The Group has adopted the "ASBEs No. 21 — Leases" revised by the Ministry of Finance in 2018 (hereinafter referred to as the "New Lease Standards") since 1 January 2021 (the "first implementation date"), and the changes in accounting policies have been reviewed and approved by the Group's Board of Directors on 27 March 2021. The New Lease Standards improve the definition of a lease, and add the identification, separation and combination of a lease; cancel the classification of the operating lease and finance lease of a lessee; require to recognize right-of-use assets and lease liabilities of all leases other than short-term leases and leases of low value assets at the commencement date of the lease, and recognize depreciation and interest expenses respectively; improve subsequent measurement of leases by the lessee, add the accounting treatment under circumstances of option re-evaluation and lease modification, and also the relevant disclosure requirements. In addition, the New Lease Standards enrich disclosures by a lessor. The revised accounting policies on the recognition and measurement of leases with the Group as a lessee and lessor are set out in Note III (31).

For contracts that existed before the first implementation date, the Group chose not to re-assess whether they were leases or contained leases on the first implementation date.

FOR THE YEAR ENDED 31 DECEMBER 2021

## III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES - continued

33. Changes in significant accounting policies and accounting estimates - continued

### 33.1 New Lease Standards - continued

The Group as a lessee

The Group adjusts the amounts of retained earnings and other related items in the financial statements on the first implementation date based on the cumulative impact of the first implementation of the New Lease Standards, and does not adjust the information in comparable periods.

For operating leases other than leases of low-value assets before the first implementation date, the Group chooses to adopt one or more of the following simplified treatments according to each lease:

- Leases that will be completed within 12 months from the date of first implementation are treated as short-term leases;
- When measuring lease liabilities, the same discount rate will be used for leases with similar characteristics
- The measurement of right-of-use assets does not include initial direct costs;
- If there is an option to renew or terminate the lease, the Group shall determine the lease term according to the actual exercise of the option prior to the first exercise and other latest conditions;
- If a lease modification occurs before the first implementation date, the Group shall perform accounting treatment according to the final arrangement of the lease modification;
- As an alternative to the impairment test of the right-of-use assets, the Group assesses whether the contract containing the lease is an onerous contract before the first implementation date according to the "ASBEs No. 13-Contingencies", and adjusts the right-of-use assets based on the provision for losses included in assets and liabilities before the first implementation date;
- For operating leases before the first implementation date, the Group measures the lease liabilities at the present value of remaining lease payments discounted by the lessee's incremental borrowing interest rate on the first implementation date, and measures the right-of-use assets at the amount equal to the lease liabilities based on necessary adjustments to the prepaid rent.

At 1 January 2021, the Group recognized the lease liabilities of RMB159,162,026 and the right-of-use assets of RMB165,832,759. For the operating lease prior to the first implementation date, the Group measures the lease liabilities using the present value discounted by the incremental borrowing interest rate on the first implementation date. The weighted average of the incremental borrowing interest rate for 1 to 5 years is 4.75%, and the weighted average of the incremental borrowing interest rate for more than 5 years is 4.90%.

FOR THE YEAR ENDED 31 DECEMBER 2021

### III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES - continued

33. Changes in significant accounting policies and accounting estimates - continued

#### 33.1 New Lease Standards - continued

The Group as a lessee - continued

The impact of the implementation of the New Lease Standards on the items in the Group's balance sheet as at 1 January 2021 is set out below:

|                                    | 31 December  |                           | 1 January     |  |

Information on the difference between the Group's lease liabilities recognized at 1 January 2021 and the significant operating lease commitments disclosed in the 2020 financial statements is as follows:

| Items   | 1 January 2021 |
|---|----------------|
| 1. Operating lease commitments at 31 December 2020                            | 204,486,359    |
| Less: Effect of adjustments to borrowing interest rate on 1 January 2021      | 44,268,836     |
| Lease liabilities discounted at the incremental borrowing rate on the initial |                |
| implementation date   | 160,217,523    |
| Less: Recognition exemption — Short-term leases                               | 702,304        |
| Recognition exemption — Leases of low-value assets                            | 353,193        |
| Lease liabilities recognized under New Lease Standards that are related to    |                |
| previous operating leases   | 159,162,026    |
| 2. Lease liabilities at 1 January 2021  | 159,162,026    |
| Presented as:   |                |
| Other non-current liabilities due within 1 year                               | 30,331,816     |
| Lease liabilities   | 128,830,210    |
|   |                |

FOR THE YEAR ENDED 31 DECEMBER 2021

#### III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES - continued

#### 33. Changes in significant accounting policies and accounting estimates - continued

#### 33.1 New Lease Standards - continued

The Group as a lessee - continued

The carrying amount of the right-of-use assets as at 1 January 2021 consists of:

| Items  | 1 January 2021 |
|--|----------------|
| Right-of-use assets:   |                |
| Right-of-use assets recognized for the operating leases prior to the first |                |
| implementation date  | 159,162,026    |
| Reclassification of prepaid rent (Note 1)                                  | 6,670,733      |
|  |                |
| Total  | 165,832,759    |

Right-of-use assets as at 1 January 2021 are disclosed by categories as follows:

| Items                            | 1 January 2021 |
|----------------------------------|----------------|
| Land and mine use rights         | 78,272,699     |
| Buildings and related facilities | 80,855,915     |
| Machinery and equipment          | 6,704,145      |
|                                  |                |
| Total                            | 165,832,759    |

Note 1: The prepaid rent of RMB6,670,733 in the leases of the Group was reported as prepayments at 31 December 2020 and was reclassified to right-of-use assets on the first implementation date.

The Group as a lessor

The Group doesn't adjust leases as lessor in accordance with the transition provisions and accounts for them in accordance with the New Lease Standards from the initial implementation date. The implementation of the New Lease Standards has no significant impact on the Group's balance sheet as at 1 January 2021.

#### 33.2 Accounting Standards for Business Enterprises Interpretation No. 14

On 26 January 2021, the Ministry of Finance issued the Accounting Standards for Business Enterprises Interpretation No. 14 (Cai Kuai [2021] No. 1, hereinafter referred to as "Interpretation No. 14"), which is effective from the date of issuance.

Interpretation No.14 stipulates the accounting treatment for the PPP projects by private capital parties and the changes in the basis for determining the relevant contractual cash flows due to the reform of the benchmark interest rate.

FOR THE YEAR ENDED 31 DECEMBER 2021

#### III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES - continued

## 33. Changes in significant accounting policies and accounting estimates - continued

### 33.2 Accounting Standards for Business Enterprises Interpretation No. 14 - continued

After assessment, the Group believes that the Interpretation No. 14 has no significant impact on the Group's financial position and results of operations, and the application of Interpretation No. 14 has no significant impact on the consolidated balance sheet at 1 January 2021.

## 33.3 Accounting Standards for Business Enterprises Interpretation No. 15

On 30 December 2021, the Ministry of Finance issued the Accounting Standards for Business Enterprises Interpretation No. 15 (Cai Kuai [2021] No. 35, hereinafter referred to as "Interpretation No. 15"), pursuant to which the presentation about the centralized management of funds is effective from 30 December 2021.

Interpretation No. 15 stipulates relevant requirements on the presentation and disclosure about the centralized management of funds. The funds deposited by the subsidiaries at the account of the parent company are presented under "Other receivables" in the balance sheet of the subsidiaries and "Other payables" in the balance sheet of the parent company. Disclosure and presentation adopted by the Group are consistent with this interpretation, thus no adjustments are made to the financial data of comparative periods.

### 33.4 Transportation Cost

According to the Q&A on the Implementation of the fifth batch of Accounting Standards for Business Enterprises for 2021 issued by the Accounting Department of the Ministry of Finance on 1 November 2021, the Group's amortization of the relevant transportation costs incurred in transportation services that do not constitute a single performance obligation for the purpose of performing the customer's contract before the transfer of control of the goods to the customer before the transfer of control of the goods to the customer is shown in the "Operating Costs" of the income statement.

The Group's data for comparable periods are adjusted as follows:

Consolidated income statement :

|                                   | Unadjusted for |               | Adjusted for   |  |
|-----------------------------------|----------------|---------------|----------------|--|

As part of the Group's credit risk management, the Group assesses the ECL of accounts receivable from various businesses based on aging of accounts receivable. These businesses involve a large number of clients and share identical risk characteristics, therefore, the aging information can reflect the solvency of such clients when the receivables are due.

The Group participates in the basic pension insurance and unemployment insurance plans established by government agencies according to the regulations. According to the plans, except for the reduction for social assurance in part of the month based on the national policy, the Group contributes monthly to the plans based on 12–19% and 0.5–0.7% of the employee's basic salary respectively in the rest month in 2021. In addition to the above monthly contributions, the Group shall not undertake any further payment obligations. The corresponding expenditure is recognized in profit or loss or the cost of related assets when it occurs.

FOR THE YEAR ENDED 31 DECEMBER 2021

#### V. NOTES TO ITEMS IN THE CONSOLIDATED FINANCIAL STATEMENTS - continued

#### 24. Employee benefits payable - continued

#### (3) Defined contribution plan - continued

The Group shall pay RMB254,380,159 and RMB10,014,570 (2020: RMB50,769,493 and RMB1,720,543) to the basic pension insurance and unemployment insurance plans respectively for the current year. As at 31 December 2021, the Group has outstanding contributions to pension insurance and unemployment plans that are due as at the reporting period amounting to RMB6,397,076 and RMB378,767 (31 December 2020: RMB10,920,195 and RMB771,941). The relevant outstanding expenses have been paid after the reporting period.

Note 1: In August 2021, the Group's subsidiary Huaxin Hong Kong (Tanzania) Investment Limited entered into a subscription agreement with China-Africa Fund Limited, pursuant to which the Group's subsidiary issued 19.25 million preference shares at a price of USD1 per share for a total cash consideration of USD 19.25 million. These preference shares were issued and paid up in August 2021. The principal terms of the preference shares are as follows:

#### • Terms on redemption:

If the subsidiary of the Group triggers a specific event (such as a breach of the provisions of the transaction documents by the subsidiary of the Group or a condition such as the change of control or the expiration of the eighth anniversary of the date of settlement), the shareholders of preference shares may submit a written request to the subsidiary of the Group to redeem the preference shares. The redemption price of preference shares is determined based on the unit price per share subscribed by the shareholders and the dividend received prior to the redemption date.

FOR THE YEAR ENDED 31 DECEMBER 2021

#### V. NOTES TO ITEMS IN THE CONSOLIDATED FINANCIAL STATEMENTS — continued

#### 29. Bonds payable - continued

#### (1) Bonds payable - continued

#### Dividend policy:

From the date of settlement to the date on which the payment is completed, each shareholder of preference shares is entitled to a dividend of 6%/year of the subscription price per share in preference to the shareholders of ordinary shares. Payment is made only when the Board of Directors decides to distribute the profits, and accrued and unpaid interest is calculated at 6%/year. During the period in which shareholders of ordinary shares hold the ordinary shares after the exercise of the rights to transfer the shares, the Group's subsidiary Huaxin Hong Kong (Tanzania) Investment Limited shall urge the project company (Maweni Limestone Limited) to declare and distribute dividends of not less than 70% of the distributable profits (if any) of each financial year, and the Group's subsidiary also commits to distribute annually all the distributable profits for the year as dividends.

#### • Terms on transfer of shares:

The shareholders of preference shares are entitled to convert their preference shares into ordinary shares at any time from the date of settlement to the maturity date with no consideration by application. From the date of settlement to the third anniversary of the date of settlement (inclusive), the shareholders of preference shares are entitled to convert their preference shares into ordinary shares at a ratio of 1:1; from the third anniversary of the date of settlement to the sixth anniversary of the date of settlement (inclusive), the shareholders of preference shares are entitled to convert their preference shares into ordinary shares at a ratio of 1:0.8571428; from the sixth anniversary of the date of settlement to the maturity date, the shareholders of preference shares are entitled to convert their preference shares to ordinary shares at a ratio of 1:0.7142857.

#### Liquidation priority:

In the event of liquidation, termination or dissolution of a subsidiary of the Group, if there are still any preference shares, the shareholders of preference shares are entitled to receive, in preference to other shareholders, an amount equal to the subscription price per share plus the accumulated but undistributed dividends (including fruits) on such shares (collectively referred to as the "amount of priority liquidation"). After the Group's subsidiary has paid the amount of priority liquidation to all shareholders of preference shares, the remaining assets shall be distributed to the shareholders of ordinary shares in proportion to their shareholdings.

During the reporting period, the Group's subsidiary does not pay any dividends to the shareholders of preference shares.

## 31. Long-term payables - continued

31.2 Long-term payables by nature - continued

**RMB** 

| Item   | Closing balance | Opening balance |
|--|-----------------|-----------------|
| Transaction fees of mining rights paid in installments | 769,068,821     | 253,712,506     |
| Finance lease payable                                  | 23,258,673      | 84,155,203      |
| Others   | <u> </u>        | 4,076,613       |
| Less: Transaction fees of mining rights paid by        |                 |                 |
| installments due within one year                       | 305,811,661     | 87,382,509      |
| Finance lease payable due within 1 year                | 23,258,673      | 63,550,150      |
| Total  | 463,257,160     | 191,011,663     |

As at 31 December 2021, finance lease payable amounted to RMB23,258,673 which were guaranteed by finance deposit of RMB15,000,000 (Note V (1)).

Finance lease payable is the balance of the minimum lease payments of the Group's fixed assets under finance lease less unrecognized finance costs. The future payment plan of finance lease payable is as follows:

|   | Closing balance | Opening balance |
|---|-----------------|-----------------|
| 1st year subsequent to the balance sheet date             | 23,258,673      | 63,550,150      |
| 2 <sup>nd</sup> year subsequent to the balance sheet date | _               | 23,258,673      |
| Total future repayments                                   | 23,258,673      | 86,808,823      |
| Interest expenses   | _               | 2,653,620       |
| Finance lease payable                                     | 23,258,673      | 84,155,203      |
| Including: Finance lease payable due within 1 year        | 23,258,673      | 63,550,150      |
| Finance lease payable due after 1 year                    | _               | 20,605,053      |
|   |                 |                 |

FOR THE YEAR ENDED 31 DECEMBER 2021

#### V. NOTES TO ITEMS IN THE CONSOLIDATED FINANCIAL STATEMENTS - continued

#### 32. Long-term employee benefits payable

#### (1) Long-term employee benefits payable by nature

**RMB** 

| Item   | Closing balance | Opening balance |
|--|-----------------|-----------------|
| I. Compensation for retired staff (Note 1)   | 30,028,742      | 29,834,608      |
| II. Early-retired employee benefits (Note 2) | 35,052,846      | 30,917,902      |
| III. Long-term employee incentives (Note 3)  | 111,762,003     | 171,757,079     |
| Less: To be paid within one year             | 122,385,197     | 105,304,485     |
|  |                 |                 |
| Total  | 54,458,394      | 127,205,104     |

Note 1: Compensation for retired staff: Pursuant to the Group's policies, the Company and its certain subsidiaries are obliged to pay basic pension insurance, allowances and material and supplementary medical insurance to certain retired employees until they pass away.

Management determines the provision for employee benefits based on expected accumulated benefit unit method.

At the balance sheet date, the key assumptions for the calculation of Group's retired staff compensation payable are as follows:

| Item                    | At the end of the period | At the beginning of the period |
|-------------------------|--------------------------|--------------------------------|
| Discount rate           | 2.36%~3.75%              | 2.36%~3.75%                    |
| Salary/wage growth rate | 10%                      | 10%                            |
| Average life expectancy | 77                       | 77                             |

- Note 2: Early-retired employee benefits: Pursuant to the Group's policies, the Company and certain subsidiaries are obliged to pay the basic wage and social insurance payments for eligible early-retired employees, until the employee reach the statutory retirement age.
- Note 3: Long-term employee incentives: Long-term employee incentives represent three batches of three-year long-term incentive plan for core management. The amount of awards granted to the core management under this incentive plan is based on the virtual shares of the Company (Note XI. (2)).

FOR THE YEAR ENDED 31 DECEMBER 2021

#### V. NOTES TO ITEMS IN THE CONSOLIDATED FINANCIAL STATEMENTS - continued

#### 37. Treasury shares

**RMB** 

| Item                                     | Closing and opening balance |
|--|-----------------------------|
| Treasury share for equity incentive plan | 610,051,971                 |
| Total                                    | 610,051,971                 |

For the year ended 31 December 2021, the Company has accumulatively repurchased 22,689,338 shares and accumulatively paid RMB610,051,971 for the employee incentive plan.

#### 38. Surplus reserve

**RMB** 

| Item                          | Closing and opening balance |
|-------------------------------|-----------------------------|
| Statutory surplus reserve     | 1,048,299,928               |
| Discretionary surplus reserve | 63,580,329                  |
|                               |                             |
| Total                         | 1,111,880,257               |

In accordance with the "Company Law of the People's Republic of China" and Articles of Association of the Company, the Company make provision for statutory surplus reserve at 10% of the net annual profit of the Company. When the accumulated amount of the Company's statutory surplus reserve reaches more than 50% of the registered capital, further appropriation is not required. The Company's accumulated amount of the Company's statutory surplus reserve more than 50% of the registered capital, thus makes no provision for statutory surplus reserve in 2021 (no provision was made in 2020). Statutory surplus reserve can be used for offsetting losses or increasing share capital after approval.

The amount of provision for discretionary surplus reserve of the Company is proposed by the Board of Directors and approved by the shareholders meeting. Any discretionary surplus reserve can be used for offsetting losses of previous years or increasing share capital after approval (no provision was made in 2020).

| Net Assets               | 58,800,000        | 44,191,161       |  |

The Group applied valuation techniques to determine the fair value of assets and liabilities of the underlying company at the acquisition date. The valuation method of major assets and key assumptions are as follows:

The valuation method for fixed assets is replacement cost method: the method of determining the value of an appraised asset at the current replacement cost less the value of losses. Intangible assets mainly include land use rights, which are mainly evaluated using the method of base price of land coefficient modification.

The Group applied valuation techniques to determine the fair value of assets and liabilities of the underlying company at the acquisition date. The valuation method of major assets and key assumptions are as follows:

The valuation method for fixed assets is replacement cost method: the method of determining the value of an appraised asset at the current replacement cost less the value of losses. Intangible assets mainly include land use rights, unfilled orders, customer relationships and patent groups. Land use rights are mainly evaluated using the method of base price of land coefficient modification. Unfilled orders and customer relationships are mainly evaluated using the multi-period excess earning method at an expected long-term revenue growth rate of 3% and a discount rate of 13%. The patent groups are discounted using the royalty saving method at a discount rate of 14%.

The Group applied valuation techniques to determine the fair value of assets and liabilities of the underlying company at the acquisition date. The valuation method of major assets and key assumptions are as follows:

The valuation method for fixed assets is replacement cost method: the method of determining the value of an appraised asset at the current replacement cost less the value of losses. Intangible assets mainly include land use rights and mining rights. Land use rights are mainly evaluated using the method of base price of land coefficient modification. The mining rights are mainly evaluated using the income approach. The discount rate of the mining rights is 12% calculated based on the net income that can be received from the mining rights each year in the forecast period.

FOR THE YEAR ENDED 31 DECEMBER 2021

The Group applied valuation techniques to determine the fair value of assets and liabilities of the underlying company at the acquisition date. The valuation method of major assets and key assumptions are as follows:

The valuation method for fixed assets and construction in progress is replacement cost method: the method of determining the value of an appraised asset at the current replacement cost less the value of losses.

#### 2. Disposal of subsidiary

As at 14 January 2021, the Group entered into an equity transfer agreement to sell 100% equity interest of Huaxin Packaging (Yidu) Co., Ltd. totally held by the Group at a consideration of RMB2,510,700. Huaxin Packaging (Yidu) Co., Ltd. will no longer included in the consolidation scope. Gains from and disposal of RMB2,499,785 are recognized in investment income.

FOR THE YEAR ENDED 31 DECEMBER 2021

#### VI. CHANGES IN SCOPE OF CONSOLIDATION - continued

- 3. Changes in scope of consolidation due to other reasons
  - (a) In January 2021, Huaxin Aggregate Co., Ltd., a subsidiary of the Group, established Yangxin County Fuhua Handling Co., Ltd. ("Fuhua Handling") jointly with the third party Yangxin Transportation Investment Co., Ltd. ("Yangxin Transportation Investment"). The registered capital of Fuhua Handling is RMB200 million, of which Yangxin Transportation Investment contributed RMB130 million in physical asset of Fuchi Integrated Terminal, which is still in construction, and Huaxin Aggregate contributed RMB70 million in cash and bank balances. After the contribution, the Group shall hold 35% of equity in Fuhua Handling, and account for it as an associate. In August 2021, Huangshi Huaxin Green Building Materials Co., Ltd., a subsidiary of the Group, acquired 65% of equity of Yangxin After the acquisition, the Group shall hold 100% of equity in Fuhua Handling, and include it in the scope of consolidation. Currently, the major asset of Fuhua Handling is Fuchi Integrated Terminal in construction, therefore, the Group determines the 65% equity acquisition as purchase of asset.
  - (b) In November 2021, Huangshi Huaxin Green Building Materials Industry Co., Ltd., a subsidiary of the Group, acquired 100% of equity of Honghu Yian Metallurgical Building Materials Co., Ltd. and Honghu Zhengxin Chuangtian Technology Co., Ltd. in Huangshi Jingshan Mining Co., Ltd. ("Jingshan Mining") for a consideration of RMB445 million. After the acquisition, the Group shall hold 100% of equity in Jingshan Mining, and include it in the scope of consolidation. Currently, the major asset of Jingshan Mining is the mineral resource exploration permit in Neiwan Mining Area, therefore, the Group determines this acquisition as purchase of asset.
  - (c) In addition, the subsidiaries set up in the current period mainly include Huaxin Cambodia Trading Co., Ltd., Hainan Baihuitong Supply Chain Technology Co., Ltd., Huaxin New Materials (Yidu) Co., Ltd., Huaxin Gangcheng Building Materials (Huangshi) Co., Ltd., Huaxin New Materials (Enshi) Co., Ltd. Huaxin Concrete (Suizhou) Co., Ltd., Huaxin Concrete (Shishou) Co., Ltd., Fumin Park New Building Materials Co., Ltd., Huaxin New Building Materials (Hainan) Co., Ltd., Huaxin New Materials (Zigui) Co., Ltd., Huaxin (Zhuzhou) New Material Technology Co., Ltd., Changzhou Huaxin Concrete Co., Ltd., Huaxin Fortress New Building Materials (Daye) Co., Ltd., Jingjiang Huaxin Concrete Co., Ltd., Huaxin Zhongnan (Wuhan) Environmental Protection Technology Co., Ltd., Huaxin New Materials Concrete Xiangyang Co. Ltd., Yancheng Huaxin Concrete Co., Ltd., Nanjing Huxin Concrete Co., Ltd., Huaxin Concrete (Qianjiang) Co., Ltd., Huaxin Concrete (Zigui) Co., Ltd., New Gayur New Building Materials Co., Ltd., Huaxin Fine Calcium Industry (Xiangyang) Co., Ltd., Yangxin County Fuhua Handling Co., Ltd., Huaxin Light Construction Aggregate (Changyang) Co., Ltd.

The Group adopts sensitivity analysis technique to analyze the impact of reasonable and possible variations of risk variables on current profit or loss and shareholders' equity. As it is unlikely that risk variables will change in an isolated manner, and the interdependence among risk variables will have significant effect on the amount ultimately influenced by the changes in a single risk variable, the followings are based on the assumption that the change in each risk variable is on a stand-alone basis.

FOR THE YEAR ENDED 31 DECEMBER 2021

#### VIII. RISKS ASSOCIATED WITH FINANCIAL INSTRUMENTS - continued

### 1. Risk management objectives and policies

The Group's risk management objectives are to achieve a proper balance between risks and yield, minimize the adverse impacts of risks on the Group's operation performance, and maximize the benefits of the shareholders and other stakeholders. Based on these risk management objectives, the Group's basic risk management strategy is to identify and analyze the Group's exposure to various risks, establish an appropriate maximum tolerance to risk, implement risk management, and monitor regularly and effectively these exposures to ensure the risks are monitored at a certain level.

#### 1.1 Market risk

#### 1.1.1. Currency risk

Currency risk is the risk that losses will occur because of changes in foreign exchange rates. Several of the Group's subsidiaries have purchases and sales denominated in USD while the Group's other principal activities are denominated and settled in RMB. The balance of other foreign currencies is small, including HKD, EUR and RUB, and has no significant impact on the Group's currency risk.

The Finance Department of the Head Office of the Group monitors the Group's foreign currency transactions and the scale of foreign currency assets and liabilities, to reduce the currency risks to the greatest extent; therefore, the Group is likely to avoid currency risks by signing forward exchange contracts or currency swaps. In 2021 and 2020, the Group did not enter into any forward exchange contracts or currency swap contracts.

As at 31 December 2021 and 31 December 2020, for companies of the Group whose functional currency is not USD, the financial assets and financial liabilities denominated in USD are translated into RMB as follows:

|                        | Closing balance | Opening balance |
|------------------------|-----------------|-----------------|
| Cash and bank balances | 1,466,930,263   | 1,159,655,707   |
| Accounts receivable    | 29,971,432      | <u>-</u> -      |
| Other receivables      | 595,025         |                 |
| Accounts payable       | 53,620,102      | 1,490,643       |
| Other payables         | 3,728,184       | 2,348,997       |
| Interest payable       | 7,824,865       |                 |
| Bonds payable          | 128,126,596     | _               |
| Borrowings             | 1,273,418,561   | 156,206,106     |
|                        |                 |                 |

|       | 5%            |                |                |                  |                |
| USD   | depreciation  | (1,538,921)    | (1,154,191)    | (49,980,498)     | (37,170,197)   |

#### 1.1.2.Interest rate risk — risk of changes in cash flows

The Group's cash flow interest rate risk of financial instruments relates primarily to floating-rate Long-term bank borrowings. As at 31 December 2021, the balance of the Group's long-term borrowings at floating rate was RMB5,810,304,734 (31 December 2020: RMB4,107,824,221) (please refer to Note V. (20) and Note V. (28) for details). Financial liabilities with floating rates expose the Group to cash flow interest rate risk, and financial liabilities with fixed interest rates expose the Group to fair value interest rate risk. The Finance Department of the Head Office of the Group continues to monitor the Group's interest rate level. Increase in interest rates will increase the costs of new interest-bearing liabilities and the interest expenses with respect to the Group's outstanding floating rate liabilities, and therefore have a material adverse effect on the Group's financial results. The management will make adjustments which are likely to mitigate interest rate risks through interest rate swaps in accordance with the latest market conditions. In the current period, the Group has entered into interest rate swap agreements with China Merchants Bank Hong Kong Branch and HSBC Bank Hong Kong Branch respectively to reduce interest rate risk.

#### 1.1 Market risk - continued

1.1.2. Interest rate risk - risk of changes in cash flows - continued

Sensitivity analysis on interest rate risk

As at 31 December 2021, where all other variables are held constant and the borrowing rate determined at floating rate increases or decreases by 100 base points, the reasonably possible changes in the interest rate may have the following effect on the pre-tax profit and shareholders' equity:

**RMB** 

| Change in interest rate         | Amount for the current period |               | Amount for the prior period |               |  |
|---------------------------------|-------------------------------|---------------|-----------------------------|---------------|--|
|                                 | Effect on                     | Effect on     | Effect on                   | Effect on     |  |
|                                 | profit before                 | shareholders' | profit before               | shareholders' |  |
|                                 | tax                           | equity        | tax                         | equity        |  |
| Benchmark interest rate         |                               |               |                             |               |  |
| increased by 1%                 | (58,103,047)                  | (43,577,286)  | (41,078,242)                | (30,808,682)  |  |
| Benchmark interest rate reduced |                               |               |                             |               |  |
| by 1%                           | 58,103,047                    | 43,577,286    | 41,078,242                  | 30,808,682    |  |

#### 1.1.3. Other price risk

The Group's investments classified as other equity instrument investments and other non-current financial assets are measured at fair value at each balance sheet date. As at 31 December 2021, the other equity instrument investments and other non-current financial assets held by the Group were not significant, therefore, the risk of changes in the security market the Group exposed to was not significant.

#### 1.2 Credit risk

At 31 December 2021, the maximum exposure to credit risk which will cause a financial loss to the Group is arising from the failure to discharge an obligation by the counterparties, which specifically includes cash and bank balances (Note V (1)), notes receivable (Note V (3)), accounts receivable (Note V (4)), financing with receivables (Note V (5)), other receivables (Note V (7)), long-term receivables and debt investments, etc. At the balance sheet date, the carrying amount of the Group's financial assets has represented its maximum credit risk exposure.

FOR THE YEAR ENDED 31 DECEMBER 2021

#### VIII. RISKS ASSOCIATED WITH FINANCIAL INSTRUMENTS - continued

#### 1. Risk management objectives and policies - continued

#### 1.2 Credit risk - continued

The Group's risk exposure is distributed in many different regions and involves a number of clients, therefore, the Group does not have significant concentration of credit risks. As at 31 December 2021, the balance of amounts due from the Group's top five clients amounts to RMB86,924,239 (31 December 2020: RMB111,267,028), representing 7% (31 December 2020: 14%) of the balance of the Group's accounts receivable. In addition, the Group has no other credit risk exposure concentrated on a single financial asset or a portfolio of financial assets sharing similar characteristics.

The table below details the credit risk exposure of the Group's financial assets and other items:

**RMB** 

| Items                                      | Note       | 12-month or lifetime ECL           |                 |  |  |

The Group manages credit risks by portfolios, which mainly refer to accounts receivable.

The Group's bank deposits are mainly deposited in banks with high credit rating. The Group believes that the credit risk is lower and there will be no significant losses due to the default of the counterparties.

The Group believes that the accepting bank for the bank acceptances has a high credit rating and there is no significant credit risk.

FOR THE YEAR ENDED 31 DECEMBER 2021

#### VIII. RISKS ASSOCIATED WITH FINANCIAL INSTRUMENTS - continued

#### 1. Risk management objectives and policies - continued

#### 1.2 Credit risk - continued

For other receivables, most of them are security fund, deposits, deposits for equity acquisition and petty cash for employees. The Group believes that the credit risk is low and there will be no significant losses due to the default of the counterparties. For borrowings and out-of-pocket expenses, the Group has made appropriate provision for ECL based on the repayment abilities and willingness of the counterparties.

The Group defines relevant policies for accounts receivable to control credit risk exposure. The Group assesses the credit qualification of the client and sets up the corresponding credit period and credit limit based on the financial status of the client, the possibility of obtaining guarantee from a third party, credit record and other factors such as the current market conditions. The Group will regularly monitor the credit records of clients. For clients with poor credit records, the Group will use written reminders, shorten credit period or cancel credit limit to ensure that the Group's overall credit risk is controlled at a certain level.

#### 1.3 Liquidity risk

The Group has established an internal cash pool management system, and entered into cash pool management agreements with Bank of China, China Merchants Bank, China Construction Bank and Agricultural Bank of China. The Company gathers the balances of the bank accounts of certain subsidiaries to the bank account of the Company at regular time or in real time every day and manages the limits on the balances of the bank accounts of the subsidiaries to achieve overall allocation of funds within the Group, improve the efficiency of fund scale and reduce liquidity risk. Each subsidiary within the Group is responsible for its own cash flow forecast. Based on the cash flow forecasts of each subsidiary, the finance department of the headquarter of the Group continuously monitors the short-term and long-term capital demands at the Group level to ensure the maintenance of sufficient cash reserves. At the same time, it continuously monitors the compliance with the provisions of the loan agreement and acquires the loan commitment from the major financial institutions to meet short-term and long-term capital demands.

| The total amount of recognised expenses paid by equity-settled shares in the current period                          | 86,789,021  |

FOR THE YEAR ENDED 31 DECEMBER 2021

#### XI. SHARE-BASED PAYMENTS - continued

#### 1. Equity-settled share-based payments - continued

On 25 September 2020, the Company granted a total of 22,689,338 zero-priced restricted shares to the core employees through the resolution of the Second extraordinary general meeting of shareholders of 2020 on the Company's 2020-2022 Core Employee Stock Ownership Plan (Draft) and Its Summary. The restricted shares mentioned above will be repurchased by the Company from the secondary market at an average price of RMB26.88 per share. The stock ownership plan includes two parts: Plan A and Plan B. Plan A refers to the long-term incentive plan linked to the annual performance assessment of the Company from 2020 to 2022, including A-0, A-1, A-2 and A-3 batches, which are awarded, assessed and unlocked by stages. Plan B refers to the Company's long-term incentive plan linked to the milestone performance assessment from 2020 to 2022, with one-time award, one-time assessment and one-time unlock. As at 31 December 2021, the Group has completed the grants of 5,038,246 shares for Plan A-0. The restricted sale period of restricted shares for Plan A-0 is 36, 48 and 60 months from the date of transfer of restricted shares to the employee stock ownership plan, and the restricted sale period will be released at the ratio of 33%, 33% and 34% respectively. As at 31 December 2021, 1,161,328 shares have been granted for Plan A-1. The restricted sale period of restricted shares for Plan A-1 is 24 months from the date of transfer of restricted shares to the employee stock ownership plan, and the restricted sale period will be released at the ratio of 100%; As at 31 December 2021, 14,880,609 shares have been granted for Plan B. The restricted sale period of Plan B is 48 months from the date of transfer of restricted shares to the employee stock ownership plan. When 100% of the appraisal targets are met, the unlock ratio is 100%; when 90% of the appraisal targets are met, the unlock ratio is 87.5%; and when 80% of the appraisal targets are met, the unlock ratio is 75%.

#### 2. Cash-settled share-based payments

| The accumulated amounts of liabilities arising from cash-settled share-based | 111,762,003 |
|--|-------------|
| payments   |             |
| The total expenses recognized in the current period for cash-settled share   | 47,153,021  |
| payments   |             |

As at 2 December 2016, according to the "Long-term Incentive Plan of Huaxin Cement Co., Ltd. for Core Management Staff from 2017 to 2019" approved by the 20th meeting of the 8th Board of Directors and the achievement of performance target of the Group from 2017 to 2019 under the incentive plan, the core management would be granted certain number of virtual shares of the Company. At the end of the third years after grant date ("the settlement date"), the core management can receive a cash bonus calculated by the share price at the settlement date multiplied by the number of the granted virtual shares. If the share price at the settlement date is over 200% of the share price of the grant date, the cash bonus should be calculated at 200% of share price at the grant date, the cash bonus should be calculated at 50% of share price at the grant date.

FOR THE YEAR ENDED 31 DECEMBER 2021

#### XII. COMMITMENTS AND CONTINGENCIES

#### 1. Significant commitments

### 2. Pending litigation

In September 2020, Moncement Building Materials LLC ("Moncement") filed an application for arbitration with the ICC, claiming that the Group had breached relevant warranty obligations and maintenance obligations as stipulated in the EPC Agreement and related supplementary agreement for the construction of the cement production line from 2013 to 2017, and thus requested the Group to compensate for the losses caused to Moncement and all arbitration costs due to the breach of warranty obligations and maintenance obligations by the Group (amounting to USD 35,724,579.38) and pay interest at the rate of 10% per annum from the date of application for the arbitration to the date of actual payment for the compensation. The management of the Group is of the view that: (1) The technical advice given by the consulting company engaged by Moncement was not reliable. The EPC Contract clearly stated that the contract shall be governed by GB building standards, therefore, the European, Mongolian and Russian building standards on which the technical advice was based were not applicable to the EPC Agreement; (2) The steel grade adopted by the Group was in compliance with the requirements of the GB building standards agreed in the EPC Contract; (3) The wind load data used for the design by the Group was provided by Moncement, which was in compliance with the requirements of EPC Contract; (4) Moncement didn't provide any evidence to demonstrate the deficiencies in the interfaces of the preheating tower. As at the date on which the financial statements are authorized for issue, this arbitration case has not been heard yet. The management believes that the outcome is not predictable, which does not meet the criteria that it is probable that economic benefits will flow out of the enterprise, therefore, no provision has been made.

FOR THE YEAR ENDED 31 DECEMBER 2021

#### XII. COMMITMENTS AND CONTINGENCIES - continued

### 2. Pending litigation - continued

In July 2021, the Group received an arbitration notice from Wuhan Arbitration Committee in relation to the application for arbitration by Wuhan Qingshan State-owned Capital Investment and Operation Holding Group Co., Ltd. ("Qingshan State-owned Capital Operation Company") to Wuhan Arbitration Committee, claiming that it paid RMB26,000,000 on behalf of the Group for the relocation of residents for construction of a cement powder plant and a mixing plant project in Qingshan District, Wuhan City in June 2007, and the Group agreed to repay the principal amount of RMB6,000,000, RMB10,000,000 and RMB10,000,000 in instalments on 31 December 2008, 31 December 2009 and 31 December 2010. It requested the Group to repay the principal amount of RMB26,000,000 and pay liquidated damages at the base daily interest rate of 0.021% from the date of overdue repayment to the date of actual payment. The Group is of the view that according to the borrowing agreement entered into in June 2007, the Group built a cement grinding plant in Qingshan District and enjoyed the relevant preferential tax policies after its formal operation, with the refunded VAT on the comprehensive utilization of product resources as the main source of repayment and the incentive fund as a supplement to repayment, which were transferred directly to Qingshan State-owned Capital Operation Company by the VAT Refund Department and Incentive Fund Granting Department, As Qingshan State-owned Capital Operation Company failed to properly relocate the residents in the sanitary protection zone, the cement grinding plant did not pass the environmental protection inspection during construction and could not start production and operation. As at the date on which the financial statements are authorized for issue, the arbitration committee has not announced the outcome of the arbitration yet. The management believes that the outcome is not predictable, which does not meet the criteria that it is probable that economic benefits will flow out of the enterprise, therefore, no provision has been made.

#### XIII. EVENTS AFTER THE BALANCE SHEET DATE

#### 1. Profit distribution

In accordance with the resolution of the Board of Directors on 29 March 2022, the Board of Directors proposes to distribute a cash dividend of RMB1.00 per share (including tax) to all shareholders on the basis of the total share capital of the company at the end of 2021 of 2,096,599,855 shares, after deducting the number of shares in the company's repurchase of shares in the special securities account on the equity record date of the implementation of the annual equity distribution in 2021, where the balance is transferred to the retained profit. In fiscal 2021, the plan to transfer capital reserve to increase the share capital will not be implemented. The above proposal has not yet been approved by the Shareholders' General Meeting.

#### 2. Progress of B shares to H shares

The group received the notice of hearing through the SEHK on 25 February 2022, and the group applied to the Shanghai stock exchange for suspension of B shares on 2 March 2021. As of 28 March 2021, the group has been successfully listed on the SEHK.

FOR THE YEAR ENDED 31 DECEMBER 2021

#### XIV. SEGMENT REPORTING

#### 1. Determination basis and accounting policies of reporting segments

As operating income, expenses, assets and liabilities of the Group are primarily attributable to manufacturing and sales of cement and related products, the Group considers that the business of various companies in the Group have obvious similarities. Thus, no segment information of the Group is presented after considering the internal organization structure, management requirement and the internal financial reporting system within the Group.

### 2. Financial information of reporting segments
